Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 6 of the 56 other antivirus apps we grade

Safetica is a business data security product built around data loss prevention, data classification, insider risk management and activity audit, with policies for popular AI tools. The cloud Safetica Platform comes in Standard, Premium and Enterprise plans priced per user per year; Safetica On-Prem is sold through sales. It is aimed at security teams, not home users.

To get you started, here are **9 things to know about Safetica**, taken from its own pages and our grades.

> **No store rating on record, and policies and reports have to be set up before it is useful.**
>
> From our grade for ease of use

1 **Best for stopping staff leaking files**

It does not market itself as an antivirus, and Premium and Enterprise are bought by demo.

2 **Paid plans start at $6 a month when paid by the year for each person**

As its pricing page puts it: $72 per user / year, billed annually (Standard, starting price).

3 **You can try it first**

The Standard plan has a Start Free Trial button; the trial length is not stated on the pricing page.

4 **It runs on Web**

Web.

5 **Data loss prevention**

Policies based on the data, user, application and action involved can monitor, restrict or block risky activity.

6 **Data discovery and classification**

Classifies sensitive data by content, origin and properties; AI smart tags are named in the plan table.

7 **Insider risk management**

Audits app usage, website visits and email traffic, and analyses behavior.

8 **A 1.8 GPA, above 6 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

9 **You could make this**

What Safetica does at its core is reports, and that is the kind of thing an AI app builder makes well.

The report card

Best for stopping staff leaking files

Safetica is a data loss prevention product for business, from $72 per user a year, that watches for staff moving sensitive files. It does not market itself as an antivirus, and Premium and Enterprise are bought by demo. In-cloud content analysis costs extra.

TOOLGPA REPORT CARD — **Safetica** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$72 per user per year on Standard, about $6 a month, just under the dearer quarter of this category. Premium is $96 and Enterprise $144.
Free plan and trial	D	The Standard plan has a free trial button but the length is not stated, so it earns a D.
Features	D	Data loss prevention, not malware protection, so it needs an antivirus alongside it to cover the category's main job.
Ease of use	C	No store rating on record, and policies and reports have to be set up before it is useful.
Platforms and integrations	B	A web console with Microsoft 365, Entra ID, Google Workspace, Zapier and Make integrations, but no phone apps.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Safetica is for

- ✓ Fits if you need to see how staff move sensitive files
- ✓ Works for a company that wants reports and admin accounts on a per-user price

Who it is not for

- ✕ Not for you if you want a virus scanner, as it does not market itself as one
- ✕ Tight if you stay on Standard: 5 reports, 5 admins and 12 months of data
- ✕ Pricey if you want Premium or Enterprise, which are bought by demo or sales
- ✕ Watch out: in-cloud content analysis is an extra fee
- ✕ Watch out: the trial length is not stated on the pricing page

Good to know

Good for

- ✓ Security teams that need to see and control how sensitive data leaves endpoints
- ✓ Companies facing audits such as GDPR, HIPAA or ISO 27001

Worth knowing

- ⓘ This is a data loss prevention product, not a consumer antivirus; it does not market itself as a virus scanner.
- ⓘ Plan prices are starting prices per user per year; Premium and Enterprise are bought through a demo or sales contact.
- ⓘ Higher-tier limits differ: Standard allows 5 reports and 5 admins, and Enterprise allows unlimited reports and 50 admins.
- ⓘ In-cloud content analysis is an extra fee on top of the plan.

Where it stands

Its grades against its category, and whether to keep it or make your own

6/56

Other antivirus apps it is graded above

Safetica's GPA of 1.8 is higher than 6 of the 56 other antivirus apps we grade, and level with 7.

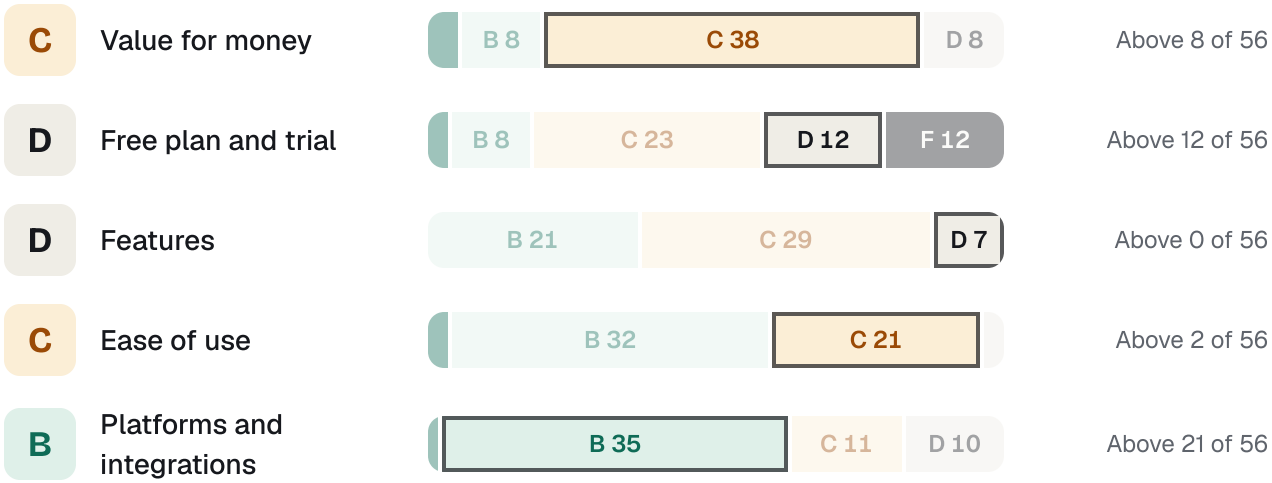

It stands best on platforms and integrations (B, above 21 of 56) and worst on features (D, above 0).

Its paid plans start at $6 a month when paid by the year for each person, against a middle price of $4.17 for the category: 26 of the 34 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 21 tools score higher and cost less.

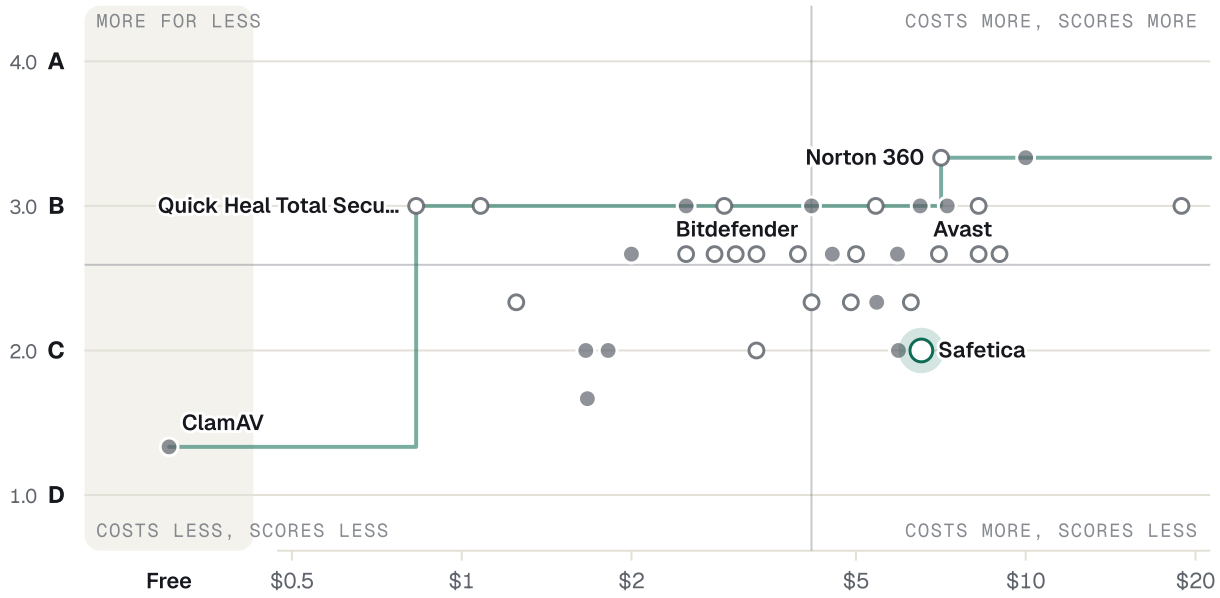

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. Safetica's own letter is outlined.

Price against what you get

Each dot is one of 36 antivirus apps. Further left costs less; higher up scores better on features, ease of use and platforms. Safetica is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

You could make this

What Safetica does at its core is reports, and that is the kind of thing an AI app builder makes well.

You would give up 3 things, listed below, and little else. It costs $72 a year. An AI app builder starts at about $20 a month on our listings, and you only need it while you build.

What you could make

- Reports: an app builder makes this well.
- It runs in a browser, which is where something home-made would run too.

What you could not

- It is priced for each person, which means accounts and billing for a team.
- It plugs into other products, Microsoft Entra ID, Active Directory and Google Workspace among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Safetica's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
