Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from ScanBizCards's own pages, its app-store listings and our grades. Every fact in it is on ScanBizCards's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 3 of the 13 other digital business cards we grade

ScanBizCards is a phone app that reads paper business cards and conference badges with optical character recognition and saves them as contacts. Scanned contacts can be exported to CRMs such as Salesforce, and cards can also be sent to a human transcription team. A per-user team plan adds an admin panel, lead assignment and batch export.

To get you started, here are **9 things to know about ScanBizCards**, taken from its own pages and our grades.

> **Paid use means connecting a CRM and setting up an admin panel and lead assignment.**
>
> From our grade for ease of use

1 **Best for scanning business cards and conference badges for leads**

ScanBizCards scans business cards and event badges and exports leads to CRMs, with human transcription for the cards the OCR misses.

2 **Paid plans start at $8.33 a month when paid by the year for each person**

As its pricing page puts it: $100 per user / year.

3 There is a free plan

Trail-Blazer: free app for scanning business cards and conference badges, adding them to the address book, and 2 human transcriptions (one time only).

4 It runs on 2 platforms

iOS and Android.

5 Card and badge scanning

Photograph a business card or conference badge and the app reads it with OCR. Batch scanning of several cards is supported.

6 Human transcription

Scanned cards can be transcribed by a person. Sales Ninja includes 100 per user per year, and extra credits are sold in one-time packs.

7 CRM export

Contacts export to Salesforce and other CRMs, or as CSV. Direct scan-to-CRM and batch export are listed under the paid plans.

8 A 2.2 GPA, above 3 of 13

That is against the other digital business cards we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

The plain part of ScanBizCards you could make: digital business card. What surrounds it you could not. The 5 things listed below take a company, not a weekend.

OUR GRADE
2.2 GPA, fair

The report card

Best for scanning business cards and conference badges for leads

ScanBizCards scans business cards and event badges and exports leads to CRMs, with human transcription for the cards the OCR misses. The free plan only adds contacts to your address book, and Sales Ninja is $100 a user a year with a limit on transcriptions.

TOOLGPA REPORT CARD — **ScanBizCards** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Sales Ninja is $100 a user a year, about $8.33 a month, which is just above the $8 where this category's dearer quarter starts. Extra transcription credits are one-time packs such as 100 for $25.

SUBJECT	GRADE	COMMENT
Free plan and trial	B	The free plan is free for life and covers scanning cards and badges into the address book. It includes only 2 human transcriptions, one time only, and CRM export is paid.
Features	C	Scanning, batch scanning, human transcription, CRM export and a scan API. It's a scanner, not a digital card you share, and CRM export, cloud backup and the admin panel are paid.
Ease of use	C	No store rating on record. Paid use means connecting a CRM and setting up an admin panel and lead assignment.
Platforms and integrations	C	iPhone and Android apps only, with an API and CRM export.
Grade point average		Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ScanBizCards is for

- ✓ Fits if you collect leads at trade shows and want badges and cards scanned into a CRM
- ✓ Works for teams of up to 50 users that want one admin panel and lead assignment

Who it is not for

- ✗ Not for you if you want a digital card to share, as the site describes no NFC card or shareable profile
- ✗ Tight if you stay on the free plan: it only adds contacts to the address book and includes 2 human transcriptions, once
- ✗ Watch out: human transcription is capped at 100 per user a year on Sales Ninja, and extra packs cost $25 per 100
- ✗ Watch out: Sales Ninja covers up to 50 users, and bigger teams are quoted
- ✗ Not for you if you work from a computer, as only iOS and Android apps are listed

Good to know

Good for

- ✓ Sales teams collecting leads at trade shows and conferences
- ✓ Companies that want scanned contacts to land in Salesforce
- ✓ People who want a person to check difficult cards

Worth knowing

- ⓘ It is a scanner and contact manager, not a digital card you share: its site describes no NFC card or shareable profile page.
- ⓘ CRM export, cloud backup and the admin panel are on the paid Sales Ninja plan; the free plan only adds contacts to the address book.
- ⓘ Human transcription is limited: 2 on the free plan (one time only), 100 per user per year on Sales Ninja, and extra credits are one-time packs such as 100 for $25.
- ⓘ Sales Ninja covers teams of up to 50 users, and the site lists only iOS and Android apps.

What it does

Its main features, where it runs, what it works with and who makes it

2

Places it runs: iOS and Android

Business card and conference badge scanner that exports leads to CRMs. Here is what it does, as its own site describes it, and what it covers: public API, AI features, transcription, digital business card.

> **Scanning, batch scanning, human transcription, CRM export and a scan API.**

From our grade for features

Card and badge scanning

Photograph a business card or conference badge and the app reads it with OCR. Batch scanning of several cards is supported.

Human transcription

Scanned cards can be transcribed by a person. Sales Ninja includes 100 per user per year, and extra credits are sold in one-time packs.

CRM export

Contacts export to Salesforce and other CRMs, or as CSV. Direct scan-to-CRM and batch export are listed under the paid plans.

Email signature capture

Saves and updates contacts from the signature block of emails. Listed with the paid features.

Intro email and vCard

Sends an introduction email with a vCard and a photo after a scan.

Scan API

The business card and badge scan APIs can be connected to a company's own systems.

Where it runs

iOS

Android

What it works with

Salesforce

ScanBizCards is made by ScanBiz Mobile Solutions LLC.

Where it stands

Its grades against its category, and whether to keep it or make your own

3/13

Other digital business cards it is graded above

ScanBizCards's GPA of 2.2 is higher than 3 of the 13 other digital business cards we grade, and level with 1.

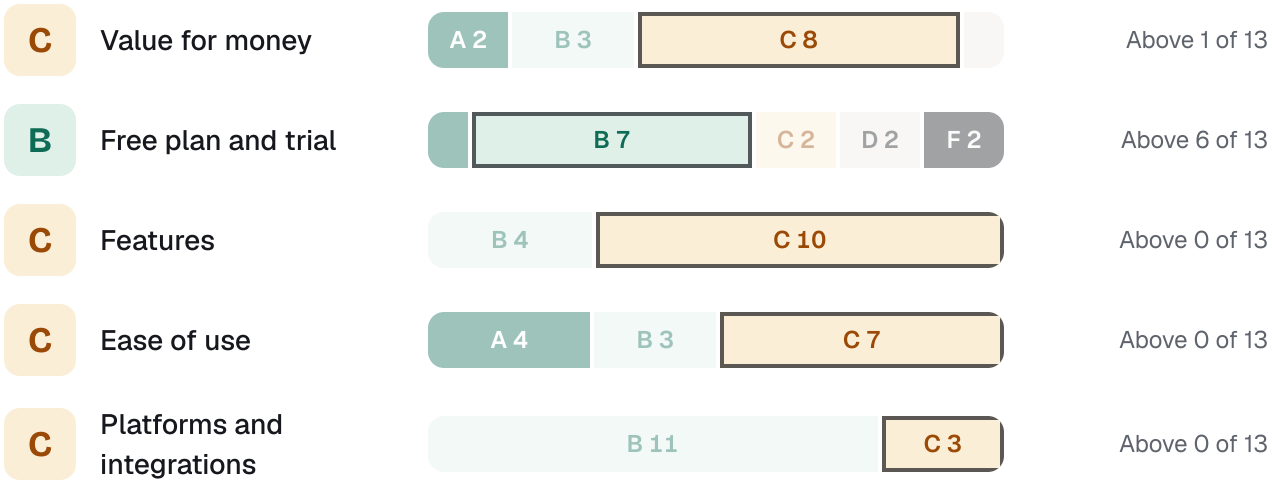

It stands best on free plan and trial (B, above 6 of 13) and worst on features (C, above 0).

Its paid plans start at $8.33 a month when paid by the year for each person, against a middle price of $5.71 for the category: 8 of the 9 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 8 tools score higher and cost less.

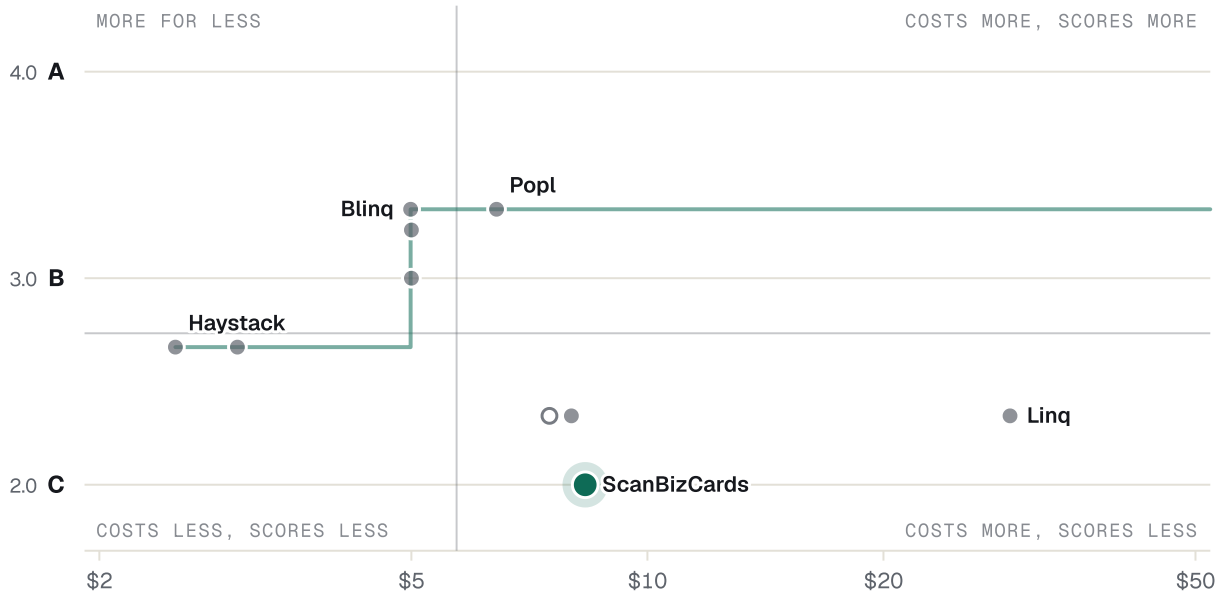

Each grade against the category

Every bar is all 14 digital business cards we grade, cut by the letter each got. ScanBizCards's own letter is outlined.

Price against what you get

Each dot is one of 10 digital business cards. Further left costs less; higher up scores better on features, ease of use and platforms. ScanBizCards is the marked dot.

What paid plans start at, a month (each step along is roughly double) ⍰

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of ScanBizCards you could make: digital business card. What surrounds it you could not. The 5 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 9 of the 13 other digital business cards grade higher. It costs $100 a year.

What you could make

- Digital business card: an app builder makes this well.

What you could not

- × Speech turned into text you can trust.

- A real app for iOS and Android. Something home-made would be a web page.
- It is priced for each person, which means accounts and billing for a team.
- It plugs into other products, Salesforce among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. ScanBizCards's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

CamCard, Haystack, HiHello, Blinq and Popl

The 5 tools ScanBizCards is most often weighed against, with where each one differs from it.

CamCard
