Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 5 of the 56 other SERP and SEO data APIs we grade

ScrapeGraphAI is an API that converts web pages to markdown or HTML and extracts structured data from them using natural-language prompts. It also offers search, crawl and page-change monitoring endpoints. Plans are monthly credit allowances, with one-time credit packs on top.

To get you started, here are **9 things to know about ScrapeGraphAI**, taken from its own pages and our grades.

> **How far credits go depends on the endpoint and stealth option, so the real monthly cost is hard to guess.**

> From our report card of ScrapeGraphAI

1 **Best for AI scraping API billed in credits**

ScrapeGraphAI is an API for scraping, extracting, searching and crawling pages, billed in credits.

2 **Paid plans start at $20 a month**

As its pricing page puts it: $20 per month for 10,000 credits.

3 **You can try it first**

4 **It runs on Web**

Web.

5 **Scrape**

Converts a URL to markdown, HTML, a screenshot or branding analysis, costing 1 credit for markdown, 2 for a screenshot and 25 for branding.

6 **Extract**

Pulls structured data from a page using a natural-language prompt, at a base cost of 5 credits.

7 **Search and crawl**

Search costs 2 credits per result, or 5 with a prompt. Crawl costs 2 credits to start plus the per-page scrape cost.

8 **A 2.0 GPA, above 5 of 56**

That is against the other SERP and SEO data APIs we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

The report card

Best for AI scraping API billed in credits

ScrapeGraphAI is an API for scraping, extracting, searching and crawling pages, billed in credits. The free plan is a one-time grant of 500 credits that does not renew, and Starter is $20 a month for 10,000. How far credits go depends on the endpoint and stealth option, so the real monthly cost is hard to guess.

TOOLGPA REPORT CARD — **ScrapeGraphAI** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Starter is $20 a month for 10,000 credits, a hair above the $19 cheaper-quarter start for data APIs. Packs run $5 for 1,000 credits and never expire.
Free plan and trial	C	A free plan of 500 credits, one time only; they do not renew. No card is mentioned, but it is a trial grant, not a free tier.
Features	B	Scrape, extract, search, crawl, monitors and fetch options in one API. The listing names no gap in the core job.
Ease of use	D	No store rating on record. It is an API: you write the calls and manage credits.
Platforms and integrations	C	Web API only, with no integrations or SDKs listed on the pages we read.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ScrapeGraphAI is for

- ✓ Fits if you want one API for scraping and AI extraction and can code
- ✓ Works for small tests, since packs of credits never expire

Who it is not for

- ✗ Tight if you stay free: 500 credits is one time and does not come back each month
- ✗ Watch out: credit use varies by endpoint and stealth option, so cost per request is not fixed
- ✗ Watch out: the Starter limit is 100 requests a minute, 3 concurrent crawls and 5 monitors
- ✗ Skip it if you want integrations: none are listed
- ✗ Watch out: the Yearly toggle showed the same prices as Monthly when read

Good to know

Good for

- ✓ Developers who want to describe the data they need in plain language
- ✓ Small projects that fit the 10,000-credit Starter allowance

Worth knowing

- ⓘ The Free plan is a one-time 500-credit grant, not a monthly allowance.
- ⓘ Credit use varies by endpoint and by the stealth option, so the monthly cost depends on the mix of requests.
- ⓘ Credit packs are $5 for 1,000, $40 for 10,000 and $150 for 50,000; they never expire and stack on a subscription.
- ⓘ The pricing page has a Yearly toggle, but it showed the same prices as Monthly when read.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Credit-based API to scrape, extract, search and crawl the web. Here is what it does, as its own site describes it, and what it covers: public API, AI features.

> **Scrape, extract, search, crawl, monitors and fetch options in one API.**

From our grade for features

Scrape

Converts a URL to markdown, HTML, a screenshot or branding analysis, costing 1 credit for markdown, 2 for a screenshot and 25 for branding.

Extract

Pulls structured data from a page using a natural-language prompt, at a base cost of 5 credits.

Search and crawl

Search costs 2 credits per result, or 5 with a prompt. Crawl costs 2 credits to start plus the per-page scrape cost.

Monitors

Watches a page for changes and notifies a webhook, costing 5 extra credits when a change is detected.

Fetch options

Render mode (auto, fast or JS) does not change the cost; the stealth toggle for anti-bot bypass adds 5 credits.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

5/56

Other SERP and SEO data APIs it is graded above

ScrapeGraphAI's GPA of 2.0 is higher than 5 of the 56 other SERP and SEO data APIs we grade, and level with 9.

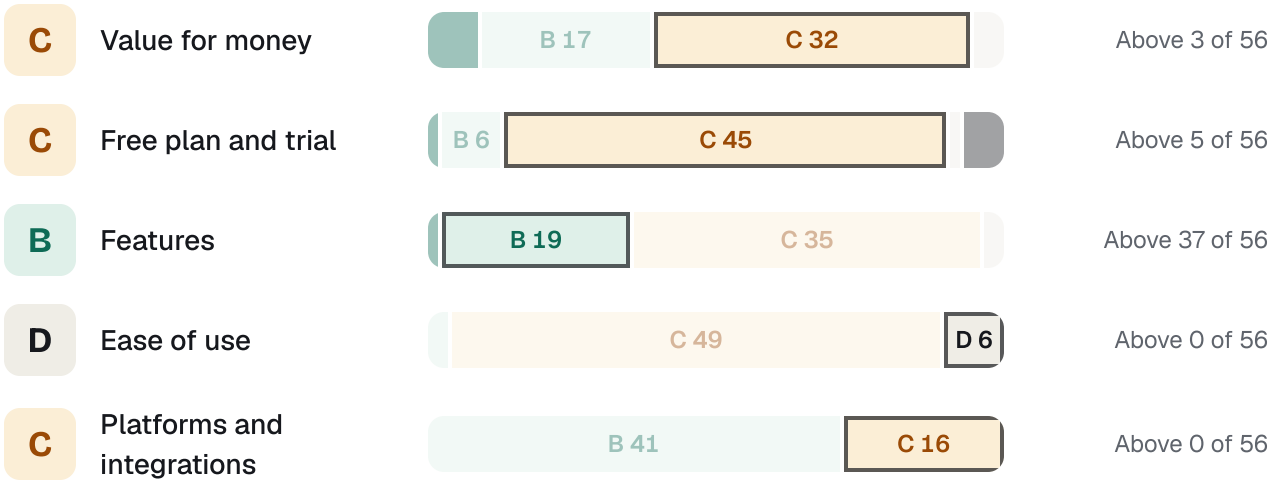

It stands best on features (B, above 37 of 56) and worst on ease of use (D, above 0).

Its paid plans start at $20 a month, against a middle price of $29 for the category: 10 of the 39 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 9 tools score higher and cost less.

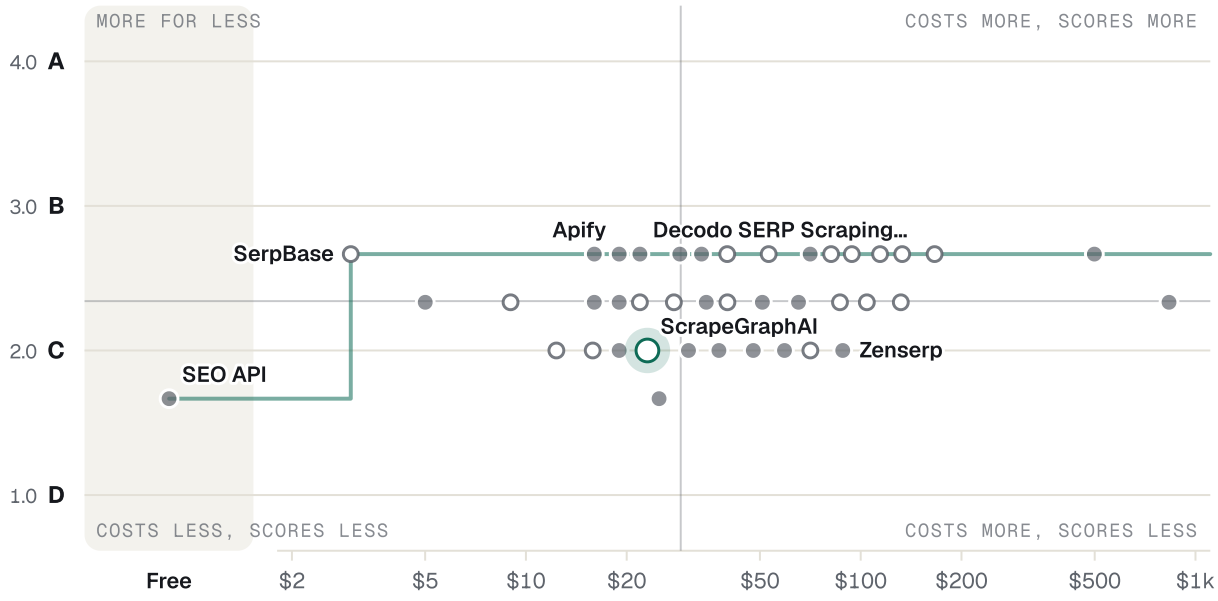

Each grade against the category

Every bar is all 57 SERP and SEO data APIs we grade, cut by the letter each got. ScrapeGraphAI's own letter is outlined.

Price against what you get

Each dot is one of 41 SERP and SEO data APIs. Further left costs less; higher up scores better on features, ease of use and platforms. ScrapeGraphAI is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Nothing ScrapeGraphAI does is plain enough to make in a weekend. The 3 things listed below take a company.

That makes this kind of software worth paying for, not this one in particular: 42 of the 56 other SERP and SEO data APIs grade higher. It costs $240 a year.

What you could not

- ✕ An API that other software can build on.
- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. ScrapeGraphAI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
