Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 0 of the 70 other print-on-demand and dropshipping services we grade

Sellvia gives new sellers a ready-made online store, hosting, a domain and a catalog of dropshipping products that it fulfills itself. The Sellvia PRO subscription sets catalog and storage limits, while product, service and processing fees are charged on top of orders.

To get you started, here are **9 things to know about Sellvia**, taken from its own pages and our grades.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

0/70

Sellvia's GPA of 1.6 is higher than 0 of the 70 other print-on-demand and dropshipping services we grade, and level with 3.

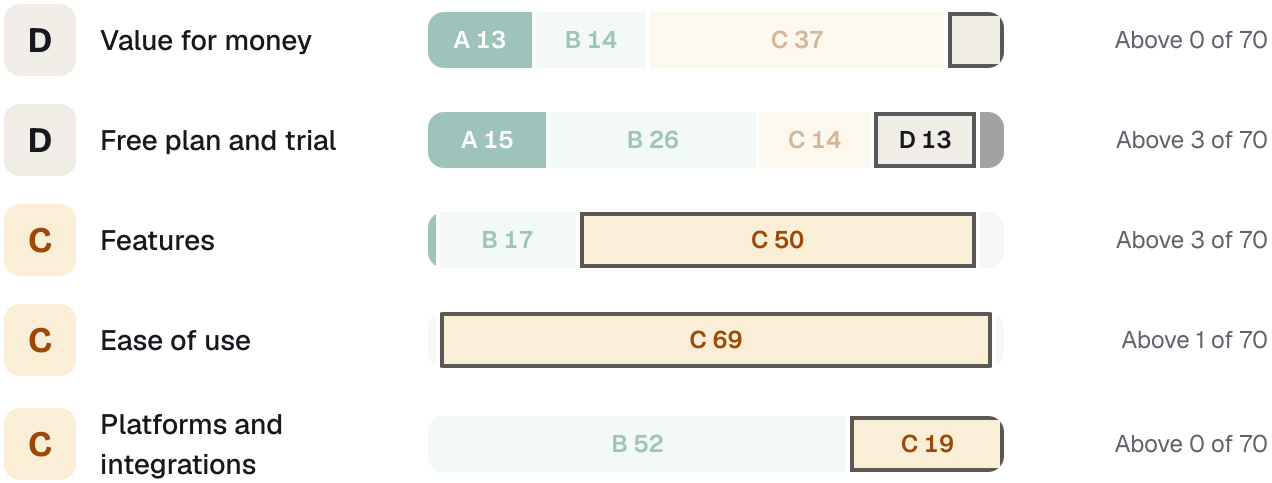

It stands best on features (C, above 3 of 70) and worst on value for money (D, above 0).

Its paid plans start at $39 a month, against a middle price of $25 for the category: 24 of the 36 others that charge start lower.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Sellvia you would be making suppliers who ship each order for you. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 67 of the 70 other print-on-demand and dropshipping services grade higher. It costs $468 a year.

What you could not

- ✕ Suppliers who ship each order for you.

- ✕ Checkout, card payments and sales tax handled for you.

What this rests on. Sellvia's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
