PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

16/70

Other print-on-demand and dropshipping services it is graded above

ShineOn's GPA of 2.2 is higher than 16 of the 70 other print-on-demand and dropshipping services we grade, and level with 16.

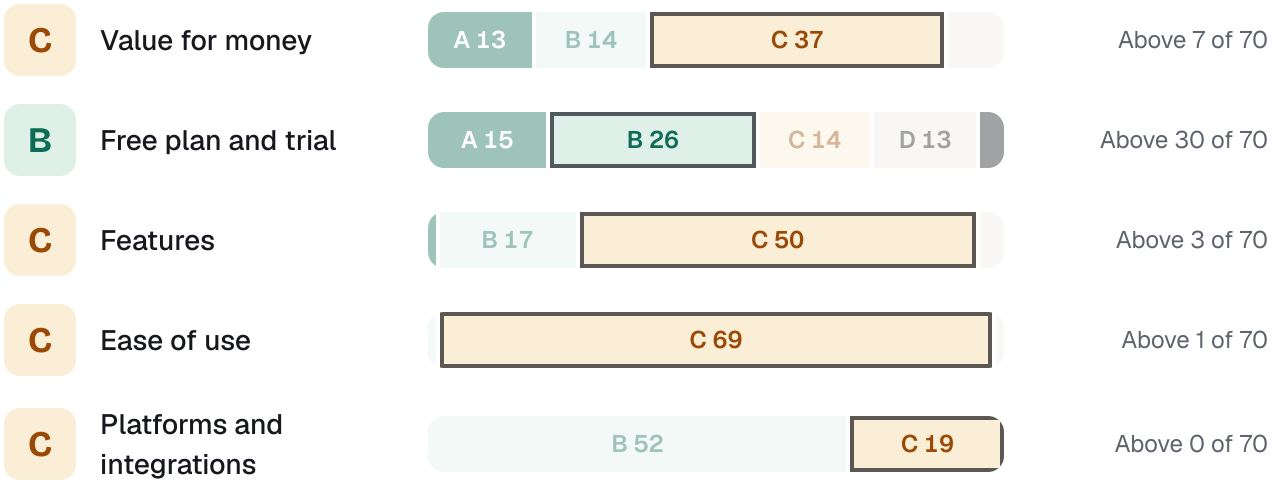

It stands best on free plan and trial (B, above 30 of 70) and worst on platforms and integrations (C, above 0).

ShineOn has no paid plan.

On features, ease of use and platforms it scores 2.0 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

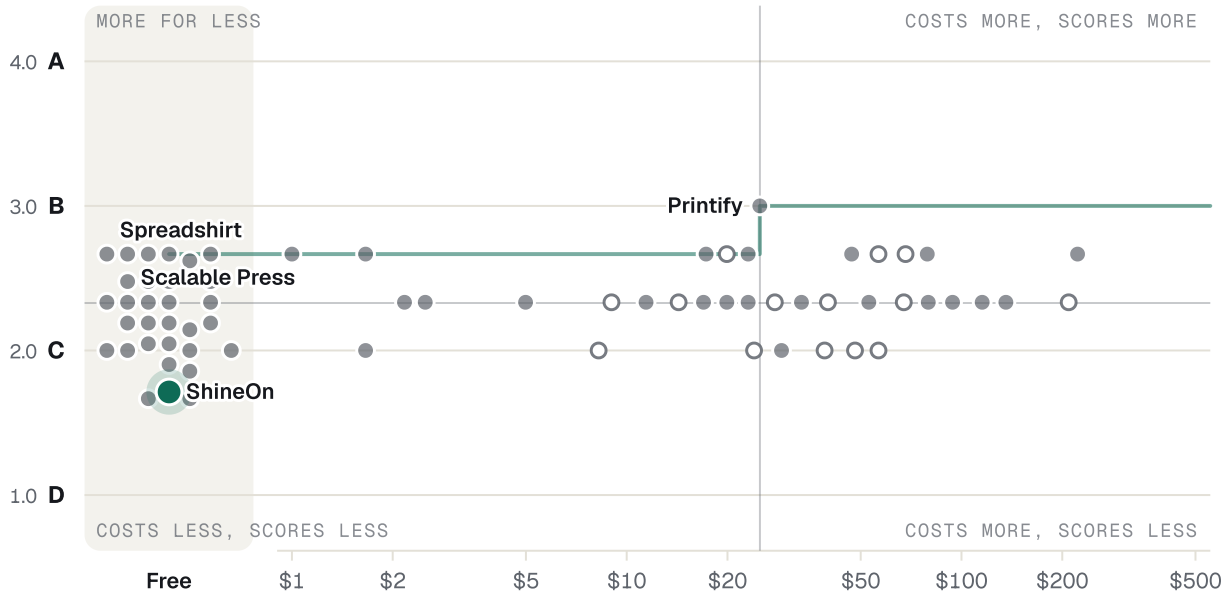

Each grade against the category

Every bar is all 71 print-on-demand and dropshipping services we grade, cut by the letter each got. ShineOn's own letter is outlined.

Price against what you get

Each dot is one of 68 print-on-demand and dropshipping services. Further left costs less; higher up scores better on features, ease of use and platforms. ShineOn is the marked dot.

What paid plans start at, a month (each step along is roughly double) ⍰

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

ShineOn is free, so making your own would save you nothing.

And it is not the kind of software a weekend replaces. That makes this kind of software worth paying for, not this one in particular: 38 of the 70 other print-on-demand and dropshipping services grade higher.

What you could make

- Templates: an app builder makes this well.

What you could not

- ✕ Printers that make and ship each order.

	✕ Suppliers who ship each order for you.

What this rests on. ShineOn's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
