Who Ship&Co is for

- ✓ Fits if you ship from Japan and want labels and customs forms from one place
- ✓ Works for small sellers with a few dozen parcels a month

Who it is not for

- ✗ Not for you if you ship from outside Japan: the site is built around it
- ✗ Watch out: carriers are billed separately, using your own accounts
- ✗ Pricey if volume grows: the monthly fee steps from $8 to $25 at 51 labels
- ✗ Watch out: prices are tax included and the dollar figures are converted from yen

Good to know

Good for

- ✓ Shopify and eBay sellers shipping from Japan
- ✓ Warehouses and 3PLs in Japan that run several carrier accounts
- ✓ Shippers who want to keep their own negotiated carrier rates

Worth knowing

- ⓘ Pricing combines a monthly infrastructure fee with a per-label charge, so the monthly cost rises with volume; the page states prices tax included.
- ⓘ Carriers are billed separately: the sender uses their own carrier accounts, apart from Japan Post International, which needs no carrier contract.
- ⓘ The site is built around shipping from Japan, and which label and bulk features work depends on the carrier and service.
- ⓘ The pricing page shows yen, dollar and euro figures; the dollar prices are used here.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Ship&Co you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

It costs $96 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- Discounted carrier rates and labels, which take an agreement with each carrier.

- It plugs into other products, Shopify, eBay and Amazon among them, and has an API.

What this rests on. Ship&Co's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
