Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 19 of the 33 other shipping software we grade

Shiprocket is an Indian shipping platform that gives online sellers access to many courier partners from one dashboard. It generates labels and manifests, tracks shipments, reconciles cash-on-delivery payments and syncs orders from sales channels. Plans differ mainly in the per-shipment rate and the level of support.

To get you started, here are **9 things to know about Shiprocket**, taken from its own pages and our grades.

The fee is only part of it, because every parcel is charged at the courier rate, and the site is written for Indian sellers only.

2 **Paid plans start at about $2.10 a month**

As its pricing page puts it: ₹199 per month (Business plan).

3 There is a free plan
