Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 13 of the 91 other file storage and sync services we grade

Signiant sells a SaaS platform for moving large files between people, systems and storage, aimed at media and entertainment companies. Its products include Media Shuttle for person-to-person portals, Jet for automated jobs and Flight Deck for cloud transfers. It works with on-premises storage or AWS, Azure and Google Cloud storage.

To get you started, here are **7 things to know about Signiant**, taken from its own pages and our grades.

> **It does not publish prices, positions itself for media and entertainment, and the iPhone app only uploads to portals.**
>
> From our report card of Signiant

1 **Best for fast file transfer for media companies**

Signiant sells accelerated transfer to media companies, with portals, automated jobs and links to AWS, Azure and Google Cloud storage.

2 **It runs on 2 platforms**

Web and iOS.

3 Media Shuttle portals

Send, share and submit portals opened from a web browser, with member permissions, groups and SAML single sign-on.

4 Jet automated transfers

Hot folders, scheduled jobs and company-to-company transfers managed from a web console, with an API.

5 Storage independence

Connects to on-premises storage through server software, or to AWS, Azure and Google Cloud storage.

6 A 2.0 GPA, above 13 of 91

That is against the other file storage and sync services we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Signiant you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published. The pricing page asks for your details so a specialist can quote.
Free plan and trial	F	No free plan and no trial terms are recorded in the listing, though the home page has a Start Your Trial button.
Features	B	Portals, hot folders, scheduled jobs, company-to-company transfers, no stated file size limit, storage independence and APIs. Single sign-on and some validation are enterprise features.
Ease of use	C	No rating on record. Server software, storage links and a sales process come first.
Platforms and integrations	B	Web plus an iPhone upload app, with AWS, Azure and Google Cloud and APIs. No desktop app is listed.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Signiant is for

- ✓ Fits if you are a media or entertainment company moving very large files
- ✓ Works for teams that need hot folders and automated jobs between companies

Who it is not for

- ✕ Skip it if you want a price before talking to sales, as none is published
- ✕ Not for you if you are a small team or an individual, as it is pitched at media companies
- ✕ Tight if you want a phone app, as the iPhone app only uploads to Submit portals
- ✕ Watch out: single sign-on, file validation and metadata entry are enterprise features
- ✕ Watch out: trial terms are not recorded in the listing

Good to know

Good for

- ✓ Studios, post houses and broadcasters exchanging very large media files
- ✓ Companies whose partners already use Signiant
- ✓ IT teams replacing FTP with a managed service

Worth knowing

- ⓘ Prices are not published: the pricing page asks you to submit your details so a specialist can quote.
- ⓘ The vendor positions the platform for media and entertainment companies.
- ⓘ The Media Shuttle mobile app is described as iPhone upload to Submit portals only.
- ⓘ Single sign-on, CloudSpeX file validation and metadata entry are described as enterprise features.

Where it stands

Its grades against its category, and whether to keep it or make your own

13/91

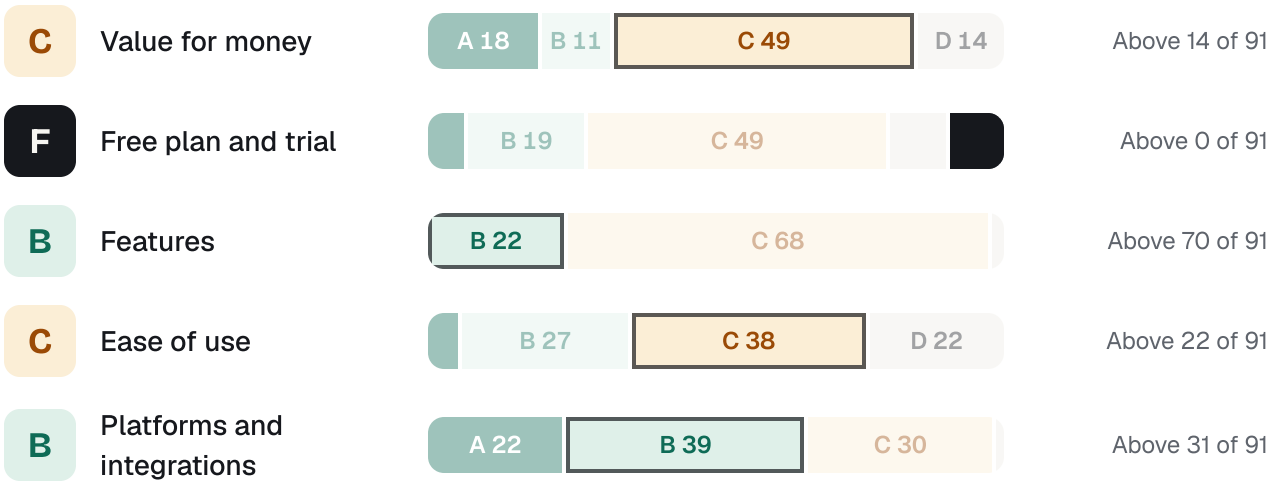

Other file storage and sync services it is graded above

Signiant's GPA of 2.0 is higher than 13 of the 91 other file storage and sync services we grade, and level with 20.

It stands best on features (B, above 70 of 91) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 92 file storage and sync services we grade, cut by the letter each got. Signiant's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Signiant you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 58 of the 91 other file storage and sync services grade higher.

What you could not

- Connections to other products, each kept working as those products change.
- Storing and serving files for other people.
- A real app for iOS. Something home-made would be a web page.
- What a company asks for before it lets staff use something: single sign-on and roles and permissions.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Signiant's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
