Signitic is an email signature management service for companies. Marketing or IT builds templates in a drag-and-drop editor, connects Google Workspace or Microsoft 365 to fill in each employee's details, and can add clickable banner campaigns with click statistics. The vendor says it has more than 5,000 customer companies.

To get you started, here are **9 things to know about Signitic**, taken from its own pages and our grades.

Best for email signatures with banner campaigns

Signitic manages email signatures centrally and runs banner campaigns with click statistics, with a free plan for up to 19 employees and €1 per user a month above that. The free plan puts a Signitic badge on every signature, Standard has a 20-license minimum, and CRM targeting and HRIS sync need the sales-only Custom plan.

TOOLGPA REPORT CARD — **Signitic** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT

Features	B	A drag-and-drop editor, directory sync, banner campaigns, click statistics, A/B testing and multi-brand management.
Ease of use	C	No store rating on record. You build the signature yourself and, for a team, connect a directory or collect the staff before it does anything.
Platforms and integrations	B	A web app; the listing names Google Workspace, Microsoft 365, HubSpot, Salesforce, Pipedrive, Zoho Mail, Canva and Calendly.

Grade point average

Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Where it stands

Its grades against its category, and whether to keep it or make your own

It stands best on free plan and trial (B, above 21 of 22) and worst on ease of use (C, above 0).

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Signitic you could make: email signature, digital business card and reports. What surrounds it you could not. The 5 things listed below take a company, not a weekend.

It is one of the better ones too: its GPA of 2.6 is higher than 18 of the 22 other email signature tools we grade. It costs $13.41 a year.

What you could make

- Email signature, digital business card and reports: an app builder makes these well.

What you could not

- Splitting visitors between versions and telling you which won.
- It is priced for each person, which means accounts and billing for a team.
- It plugs into other products, Google Workspace, Microsoft 365 and HubSpot among them.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Signitic's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
