Value for money	C	No price is published: Silktide quotes by scope after contact, so there's nothing to set against the category's middle of $19.

Features	C	Governance testing, content and link checks, AI visibility, analytics and a task workflow. The pricing page lists three plans without saying what each includes beyond SSO and SOC 2 on Complete.
Ease of use	C	No store rating on record. A platform for organizations, set up through its team.

0/91

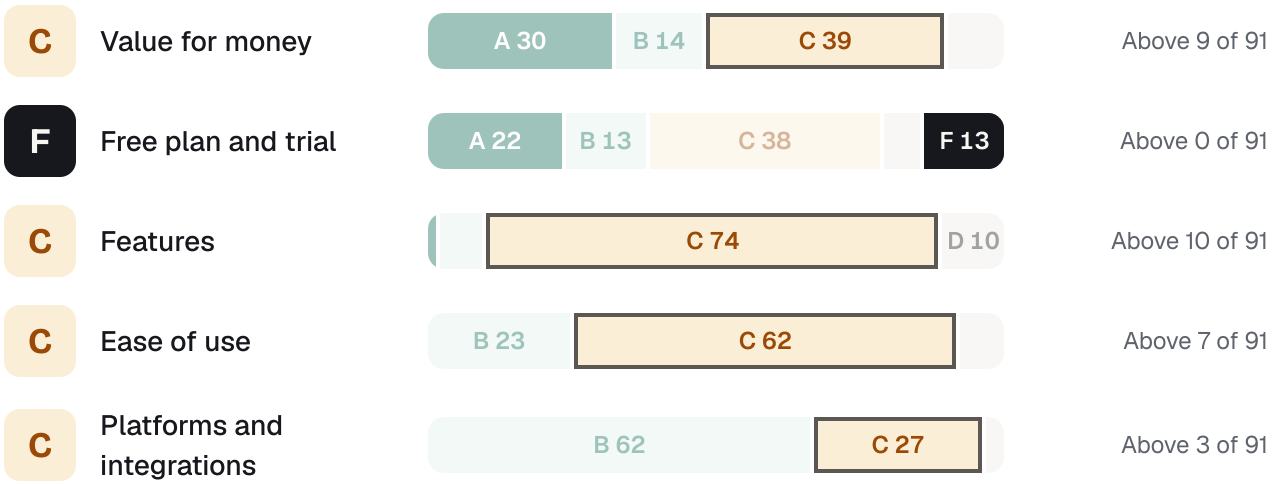

Other technical SEO tools it is graded above

Silktide's GPA of 1.6 is higher than 0 of the 91 other technical SEO tools we grade, and level with 5.

It stands best on features (C, above 10 of 91) and worst on free plan and trial (F, above 0).

Every bar is all 92 technical SEO tools we grade, cut by the letter each got. Silktide's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Silktide you could make: reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 86 of the 91 other technical SEO tools grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- A crawler that checks every page of a site.
- The same prompts asked of ChatGPT, Perplexity, Gemini and Google's AI answers every day, and the answers kept.
- A tracking script and a database that counts every visit.

What this rests on. Silktide's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
