GPA, above 91 of the 104 other website and landing page builders we grade

Site.pro is a website builder that can generate a site from a prompt, start from a template or import an existing site. It also covers online stores, real-time collaboration, and domain and email services. The plan comparison lists a free plan and a paid Starter plan; further plans may exist.

To get you started, here are **9 things to know about Site.pro**, taken from its own pages and our grades.

The report card

Best for a very cheap first website with an AI starting point

Site.pro builds a site from a prompt, a template or an import of your old one, and its paid Starter plan is listed at $0.9 a month. What holds it back is the small print: the free plan allows 2 AI prompts a day, 3 menu items and 1 MB images, and the pricing page never says what period that $0.9 covers or what the plans above Starter cost.

TOOLGPA REPORT CARD — **Site.pro** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	A	Starter is listed at $0.9 a month, well under the $4.05 that is 60% of what the cheaper quarter of website builders charges. The page does not say what billing term that price needs, so check it before you pay.
Free plan and trial	C	The free plan has a .site.pro address, 20+ templates, 100 MB of space and 2 AI prompts a day. Menu items stop at 3 and images at 1 MB, which a real site will run into. No trial is listed.
Features	C	AI generation, 200+ templates, store and cart widgets, live co-editing and site import. The gaps are on record: only the Free and Starter plans could be read, so what higher plans add is unknown.
Ease of use	C	No store rating is on record, and it is a web app where you build the site yourself, so there is a learning curve. The AI prompt gives you a starting page, but you still shape it.

SUBJECT	GRADE	COMMENT
Platforms and integrations	B	Web only, with no apps for phones or computers. It does connect to PayPal, Stripe, Klarna, Mollie, Google Maps and YouTube.
Grade point average		Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Site.pro is for

- ✓ Fits if you want a first site for next to nothing and can live with a few menu items
- ✓ Works for a small shop that needs payment methods like Klarna, Mollie or PayPal

Who it is not for

- ✗ Tight if you're staying free: 2 AI prompts a day, 3 menu items, 100 MB of site space and 1 MB images
- ✗ Watch out: the $0.9 Starter price has no billing term shown, so the real bill is unclear
- ✗ Not for you if you want to see every plan first, as only Free and Starter could be read
- ✗ Skip it if you want a phone or desktop app, because it only runs on the web
- ✗ Watch out: the price figures load with JavaScript and can change with the currency selected

Good to know

Good for

- ✓ People who want a very cheap first website with an AI starting point
- ✓ Small shops that need local payment methods

Worth knowing

- ⓘ Only the Free and Starter plans were readable; higher plans may exist and the billing period of Starter is not shown.

- ⓘ The pricing page loads its figures with JavaScript, so listed amounts may differ by currency selected.

Where it stands

Its grades against its category, and whether to keep it or make your own

91/104

Other website and landing page builders it is graded above

Site.pro's GPA of 2.6 is higher than 91 of the 104 other website and landing page builders we grade, and level with 8.

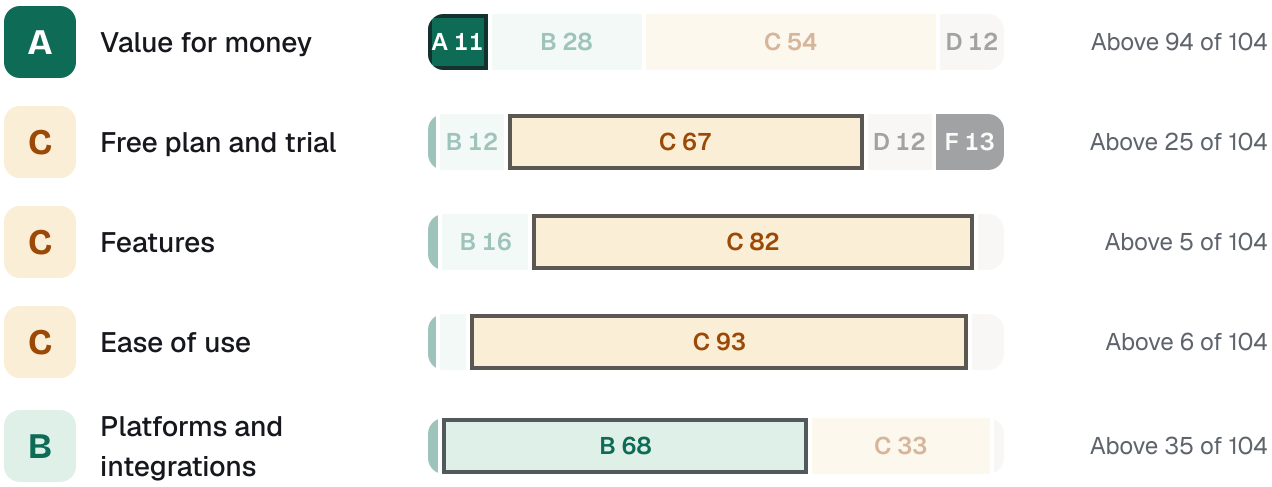

It stands best on value for money (A, above 94 of 104) and worst on features (C, above 5).

Its paid plans start at $0.90 a month, against a middle price of $11.50 for the category: 1 of the 89 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

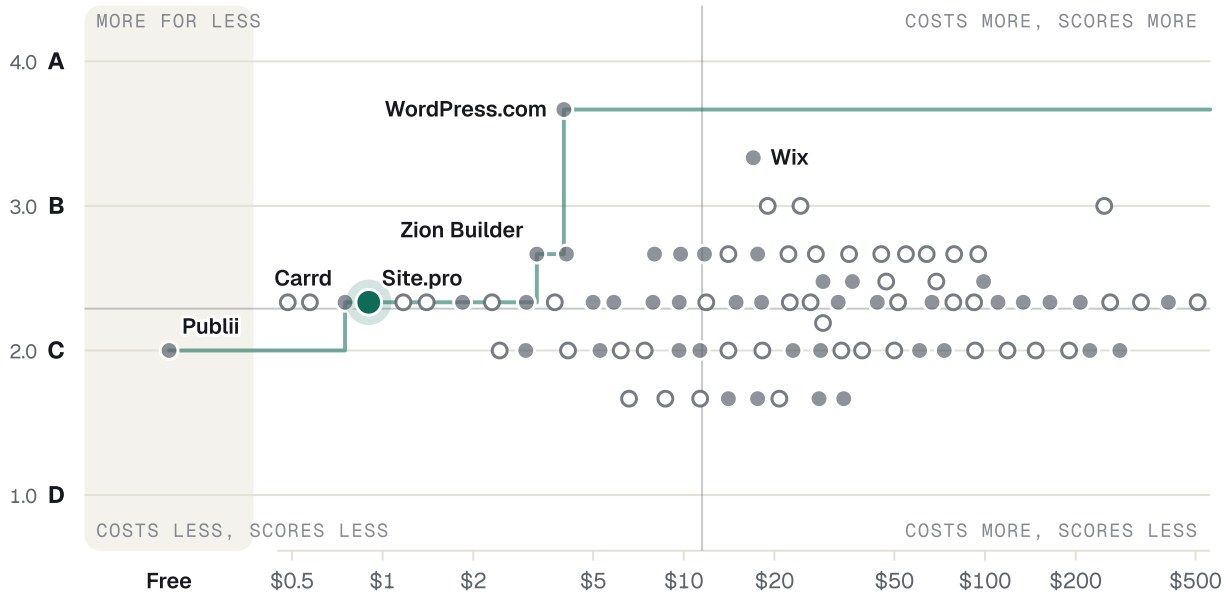

Each grade against the category

Every bar is all 105 website and landing page builders we grade, cut by the letter each got. Site.pro's own letter is outlined.

Price against what you get

Each dot is one of 91 website and landing page builders. Further left costs less; higher up scores better on features, ease of use and platforms. Site.pro is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Site.pro you would be making checkout, card payments and sales tax handled for you. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 91 of the 104 other website and landing page builders we grade. It costs $10.80 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- Checkout, card payments and sales tax handled for you.

- A builder that other people can use without writing code.
- Several people working in it at the same moment.
- It plugs into other products, PayPal, Stripe and Google Maps among them.
- AI features, unless you pay a model provider for each request yourself.
- Hooks into the device itself: widgets.

What this rests on. Site.pro's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
