Keep it

Nothing Slazzer does is plain enough to make in a weekend. The 4 things listed below take a company.

It is one of the better ones too: its GPA of 2.8 is higher than 147 of the 168 other AI image and video generators we grade. It costs $142.56 a year.

What you could not

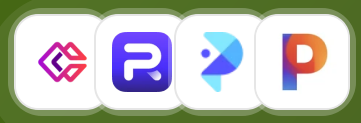

- ✕ Apps for macOS, Windows, Linux, iOS and Android that stay in step with each other.
- ✕ It plugs into other products, Adobe Photoshop among them, and has an API.
- ✕ AI features, unless you pay a model provider for each request yourself.

× The depth: we grade its features B, which means it covers the whole job.

What this rests on. Slazzer's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
