Welcome

What it is, who it suits, its grades and the ten things to know first

2.8

GPA, above 88 of the 89 other affiliate and referral tools we grade

SliceWP is a WordPress plugin for running an affiliate program from the site's own dashboard. It tracks visits and commissions, manages affiliate sign-ups and pays commissions. A free edition is on WordPress.org, and paid licenses unlock add-ons such as PayPal and Stripe payouts, multi-level affiliates and reports.

To get you started, here are **9 things to know about SliceWP**, taken from its own pages and our grades.

> **It is a plugin you install and configure on your own WordPress site, with its own affiliate pages and store plugin to connect.**

1 **Best for a WordPress affiliate program with a free start**

It only runs inside WordPress, and PayPal and Stripe payouts are not in the free edition.

2 **Paid plans start at $19.08 a month when paid by the year**

As its pricing page puts it: $229 per year for 1 site at renewal, after a first year for $169.

The report card

Best for a WordPress affiliate program with a free start

SliceWP is a WordPress affiliate plugin with a free edition on WordPress.org and paid bundles that add payouts, multi-level affiliates and reports. It only runs inside WordPress, and PayPal and Stripe payouts are not in the free edition.

TOOLGPA REPORT CARD — **SliceWP** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	Pro is $229 a year for 1 site at renewal, about $19 a month, inside the cheaper quarter of affiliate tools. A lifetime licence is $589, and the first-year sale price of $169 does not carry over to renewals.

SUBJECT	GRADE	COMMENT
Free plan and trial	B	The free edition has unlimited affiliates, approvals, an affiliate area and commission tracking, so a small program can run on it. PayPal and Stripe payouts, reports and multi-level affiliates are paid add-ons.
Features	B	Commission rates by affiliate and product, recurring commissions, bulk payouts, reports, CSV export and a REST API. The listing names no gap in the core job, though most of it sits in the paid bundles.
Ease of use	C	No store rating on record. It is a plugin you install and configure on your own WordPress site, with its own affiliate pages and store plugin to connect.
Platforms and integrations	B	Web only, inside WordPress, with WooCommerce, Easy Digital Downloads, PayPal, Stripe and three email tools, plus a REST API.
Grade point average		Good, out of 4.0 **2.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who SliceWP is for

- ✓ Fits if you run WordPress or WooCommerce and want to start an affiliate program for free
- ✓ Works for agencies that want one licence across 10 client sites

Who it is not for

- ✗ Not for you if you are not on WordPress, as there is no hosted version
- ✗ Skip it if you need PayPal or Stripe payouts without paying, because they are add-ons in the paid bundles
- ✗ Tight if you want a single add-on, since add-ons are not sold separately and come only in the Pro bundles
- ✗ Watch out: the 25% sale shows no end date, and renewals are at full price, not the sale price
- ✗ Watch out: support and updates last only while the licence is active

Good to know

Good for

- ✓ WordPress and WooCommerce stores that want a self-hosted affiliate program
- ✓ Agencies running several client sites on one license
- ✓ Sellers who would rather pay once than yearly

Worth knowing

- ⓘ Runs only inside WordPress; there is no hosted version.
- ⓘ Support and updates last only while the license is active, and annual renewals are at full price, not the sale price.
- ⓘ Add-ons are not sold separately; they come in the Pro and Pro Plus bundles.
- ⓘ The pricing page shows a 'limited time' 25% sale with no end date, so the full prices may apply later.

It stands best on free plan and trial (B, above 80 of 89) and worst on ease of use (C, above 2).

Its paid plans start at $19.08 a month when paid by the year, against a middle price of $65.46 for the category: 4 of the 49 others that charge start lower.

Each grade against the category

Every bar is all 90 affiliate and referral tools we grade, cut by the letter each got. SliceWP's own letter is outlined.

Price against what you get

Each dot is one of 51 affiliate and referral tools. Further left costs less; higher up scores better on features, ease of use and platforms. SliceWP is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace SliceWP you would be making payouts to partners in many countries, with their tax forms. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.8 is higher than 88 of the 89 other affiliate and referral tools we grade. It costs $229 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- Payouts to partners in many countries, with their tax forms.

- Every click and sale traced back to the right partner.
- It plugs into other products, WooCommerce, Easy Digital Downloads and PayPal among them, and has an API.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. SliceWP's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
