Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 3 of the 89 other presentation tools we grade

SlideBot is an AI studio where an agent writes and builds a presentation from a brief, setting each slide on an animated backdrop. Finished decks export as a standalone HTML file that plays offline, or as a PDF. A second tool, Restyle, turns uploaded documents into designed PDF or Word files.

To get you started, here are **8 things to know about SlideBot**, taken from its own pages and our grades.

> **Nothing in it is free, the monthly AI allowance does not roll over, and the pages list no PowerPoint export.**
>
> From our report card of SlideBot

1 **Best for AI decks built on animated backgrounds**

Slidebot is an AI agent that builds decks and exports them as HTML or PDF.

2 **Paid plans start at $15 a month**

As its pricing page puts it: $15 per month (Studio).

3 **It runs on Web**

Web.

4 **Agent-built decks**

Describe the deck and the agent writes it and builds the slides.

5 **Animated backgrounds**

Slides sit on animated backdrops, with six scenes shown on the site.

6 **Offline HTML export**

The finished deck is one HTML file with the player built in, plus PDF export for a still version.

7 **A 1.6 GPA, above 3 of 89**

That is against the other presentation tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace SlideBot you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for AI decks built on animated backgrounds

Slidebot is an AI agent that builds decks and exports them as HTML or PDF. Nothing in it is free, the monthly AI allowance does not roll over, and the pages list no PowerPoint export.

TOOLGPA REPORT CARD	SlideBot	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Studio is $15 a month, at the dearer quarter's edge of $14.90. A single deck is a $9.99 one-time purchase valid for 7 days.
Free plan and trial	F	Nothing is free, and there is no trial. Nothing more is listed.
Features	C	Builds and restyles decks and documents. The pages list HTML, PDF and Word but not PowerPoint.
Ease of use	C	No store rating is on record. It is a browser studio that needs an account.
Platforms and integrations	C	Web only, with no apps and no integrations listed.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who SlideBot is for

- ✓ Fits if you want an HTML deck with animated backgrounds
- ✓ Makes sense if you need one deck and will pay $9.99 for it

Who it is not for

- ✕ Skip it if you want a free plan, as there is none
- ✕ Skip it if you need PowerPoint files, since the pages list none
- ✕ Tight if you make many decks, as AI use stops when the monthly allowance ends
- ✕ Watch out: the one-document and one-deck purchases are valid for 7 days
- ✕ Watch out: the $30 per user Business plan is only listed as coming soon

Good to know

Good for

- ✓ People who want a deck made from a brief, then refined in an editor
- ✓ Presenters who need a file that plays offline

Worth knowing

- ⓘ AI use is capped by an allowance that does not roll over; generation stops when it is used up, with no overage billing.
- ⓘ A Business plan at $30 per user per month (3-seat minimum) is listed as coming soon.
- ⓘ The pages do not list PowerPoint export; outputs are HTML, PDF and, for Restyle, Word.
- ⓘ Browser-based studio with an account required.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

3/89

Other presentation tools it is graded above

SlideBot's GPA of 1.6 is higher than 3 of the 89 other presentation tools we grade, and level with 5.

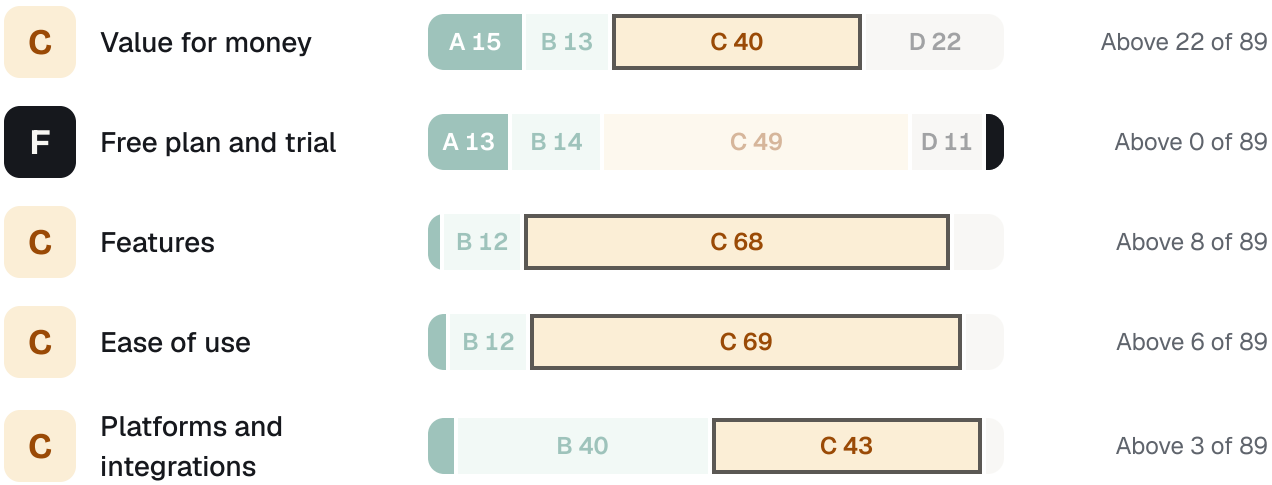

It stands best on value for money (C, above 22 of 89) and worst on free plan and trial (F, above 0).

Its paid plans start at $15 a month, against a middle price of $10 for the category: 48 of the 63 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 33 tools score higher and cost less.

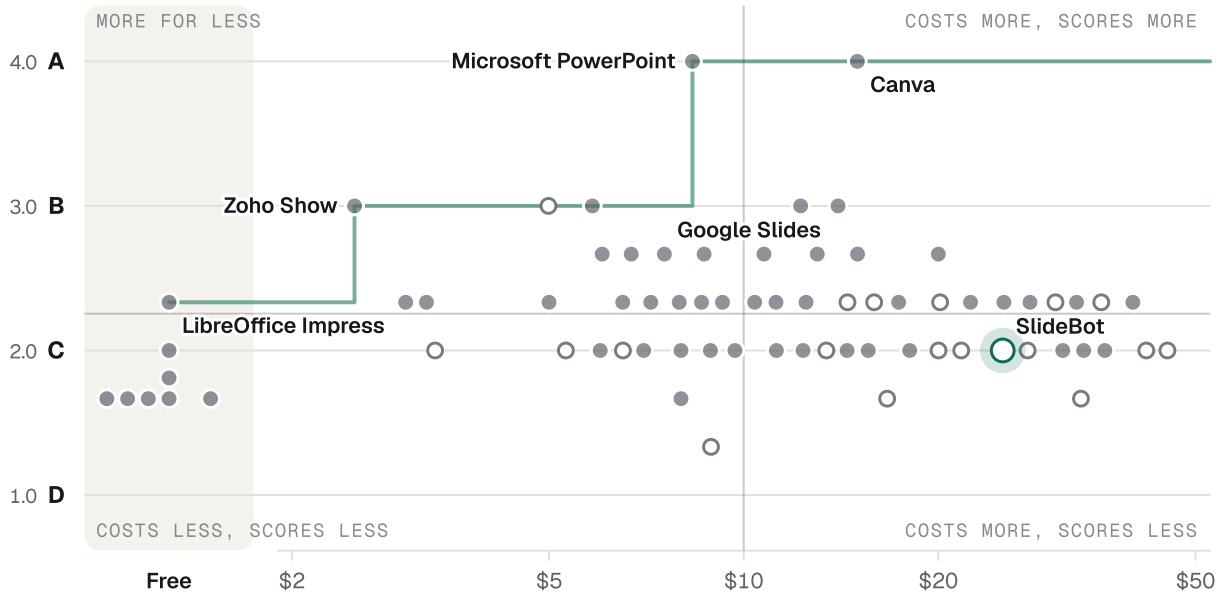

Each grade against the category

Every bar is all 90 presentation tools we grade, cut by the letter each got. SlideBot's own letter is outlined.

Price against what you get

Each dot is one of 72 presentation tools. Further left costs less; higher up scores better on features, ease of use and platforms. SlideBot is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace SlideBot you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 81 of the 89 other presentation tools grade higher. It costs $180 a year.

What you could not

- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ A slide editor.

What this rests on. SlideBot's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
