Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 64 of the 178 other AI agents we grade

Spellbook is a legal AI suite for in-house teams and law firms. Its Word add-in covers contract review, drafting, questions, benchmarks and playbooks, and Associate is an agent for multi-document matters. A newer contract management product, ACM, is in early access. Pricing is by team size and not published.

To get you started, here are **8 things to know about Spellbook**, taken from its own pages and our grades.

> **Prices depend on the number of people on a licence and are quoted after a demo, and the whole suite assumes your contracts live in Word.**
>
> From our report card of Spellbook

1 **Best for contract review inside Microsoft Word**

Spellbook reviews, redlines and drafts contracts from inside Word, with a playbook of your own rules.

2 **You can try it first**

7-day free trial; extended trials may be available for larger organizations.

3 **It runs on Web**

Web.

4 **Contract review and redlining**

Review marks up contracts with tracked suggestions, from your side of the negotiation, and flags non-standard terms.

5 **Drafting**

Draft clauses, full agreements and revisions from AI prompts or from your saved precedents and libraries.

6 **Playbooks**

A team's standards are saved as checklists that are applied each time a document is reviewed.

7 **A 2.0 GPA, above 64 of 178**

That is against the other AI agents we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Spellbook you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Spellbook is for

- ✓ Fits if you review or draft contracts in Word every day
- ✓ Makes sense if your firm has its own standard positions to turn into playbooks

Who it is not for

- ✗ Skip it if your contracts are not handled in Word, since the core is a Word add-in
- ✗ Not for you if you want a price before a demo, as none is published
- ✗ Watch out: autonomous contract management is early access and has to be requested
- ✗ Tight if you want a long trial: it is 7 days, and card terms are not stated

Good to know

Good for

- ✓ In-house legal teams reviewing vendor and customer contracts
- ✓ Law firms doing transactional drafting and redlining in Word
- ✓ Teams that want to encode their own review standards

Worth knowing

- ⓘ No prices are published; pricing depends on the number of team members on a license and is quoted after a demo.
- ⓘ The core suite is a Word add-in, so it assumes contracts are handled in Microsoft Word.
- ⓘ ACM is early access and has to be requested.
- ⓘ Free access is offered to academic institutions through its partnership program.
