Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 20 of the 45 other resume builders we grade

Standard Resume is a browser-based resume builder made by a three-person team. It imports a LinkedIn profile, applies one of 12 templates, and lets you share the result as a PDF or as a web page. A paid Pro plan removes the branding and adds view tracking and an AI resume review.

To get you started, here are **9 things to know about Standard Resume**, taken from its own pages and our grades.

> **It is a web app where the work is entering and arranging your own resume, so it sits at the ordinary mark.**

The report card

Best for a LinkedIn-based web resume

Standard Resume turns a LinkedIn import into a resume you can share as a PDF or a web page, on 12 templates. The free plan keeps the Standard Resume branding, and view tracking, a custom URL and the AI review all need Pro at $19 a month, which sits near the top of what resume builders charge.

TOOLGPA REPORT CARD — **Standard Resume** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Pro is $19 a month, and the listing could not read quarterly or yearly prices. The category's middle is $15 and its dearer quarter starts at $23.99, so this is ordinary, with nothing cheaper on offer.
Free plan and trial	B	The Basic plan is free for good: LinkedIn import, editing with PDF preview and a shareable web resume. One person could finish a resume on it, though it carries the vendor's branding.
Features	C	12 templates, LinkedIn import and web sharing cover the basics. The listing names gaps: the AI review is Pro only, and there is no cover letter or job tracker in it.
Ease of use	C	No store rating is on record. It is a web app where the work is entering and arranging your own resume, so it sits at the ordinary mark.
Platforms and integrations	C	Browser only, with LinkedIn as the one connection listed. No phone or desktop app.

Grade point average	Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Standard Resume is for

- ✓ Fits if you already have a LinkedIn profile and want a quick resume from it
- ✓ Works for people who want a web page to link instead of a PDF

Who it is not for

- ✗ Skip it if you want the branding off, as removing it needs Pro at $19 a month
- ✗ Not for you if you need cover letters or job tracking, since neither is listed
- ✗ Tight if you are staying free and want view tracking, a custom web URL or the AI review, all Pro
- ✗ Watch out: the pricing page lists PDF downloads on Basic while the home page lists them only under paid
- ✗ Watch out: only the monthly Pro price could be read, so the yearly saving is unknown

Good to know

Good for

- ✓ People with a LinkedIn profile who want a quick, simply designed resume
- ✓ Job seekers who want a web page to share in place of a LinkedIn link

Worth knowing

- ⓘ Only the monthly Pro price ($19) could be read; the Quarterly and Yearly options on the pricing page did not show prices in the page text.
- ⓘ The vendor's pages disagree on whether PDF downloads are on the free plan.
- ⓘ Runs in a browser only; no mobile or desktop app is listed.
- ⓘ The free plan keeps Standard Resume branding, which Pro removes.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

You could make the core of Standard Resume for yourself: resume builder and templates.

What you would give up is listed below. Whether that is worth the price is your call. It costs $228 a year.

What you could make

- Resume builder and templates: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.

It runs in a browser, which is where something home-made would run too.

Sharing with other people, which means accounts and invitations.

What this rests on. Standard Resume's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
