Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 99 of the 122 other web hosts we grade

Statichost, written statichost.eu, hosts static websites built from any git repository, with automatic HTTPS, custom domains and instant rollbacks. It says every layer, from the servers to the CDN and DNS, runs on European providers with no AWS or Cloudflare. A free Hobby plan covers one site.

To get you started, here are **9 things to know about Statichost**, taken from its own pages and our grades.

> **You connect a Git repository and a build setup.**
>
> From our grade for ease of use

1 **Best for static sites hosted on European infrastructure**

statichost.eu hosts static sites on European-owned infrastructure, with a free plan for 1 site and 10 GB of bandwidth.

2 **Paid plans start at about $10.05 a month**

As its pricing page puts it: 9 € per month (Starter).

3 **There is a free plan**

Hobby plan: 1 site, 10 GB bandwidth and 100 build minutes a month. No trial period and no card needed.

4 **It runs on Web**

Web.

5 **Deploy from any git provider**

Repositories are cloned with standard git, so any provider works, including private repositories over SSH or authenticated HTTPS.

6 **Any static site generator**

Presets exist for Next.js, Astro, Hugo, Eleventy, SvelteKit and plain HTML, and any Docker image can be used for custom builds.

7 **Custom domains and HTTPS**

Custom domains with automatically provisioned SSL certificates are included on every plan, including the free one.

8 **A 2.4 GPA, above 99 of 122**

That is against the other web hosts we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Statichost you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

Who Statichost is for

Who it is not for

- ✕ Skip it if your site needs a server, since it only hosts static files
- ✕ Tight if you run more than one site, as Hobby stops at 1
- ✕ Watch out: the free plan has queued builds, and the performance CDN is Professional only
- ✕ Watch out: prices are in euros, and overage is 1 euro per 10 GB or per 100 build minutes

Good to know

Good for

- ✓ Agencies hosting many small sites, which Starter allows without a site limit
- ✓ Hobby sites that fit within one site and 10 GB of traffic

Worth knowing

- ⓘ Prices are in euros, and overage costs 1 € per 10 GB of bandwidth or per 100 build minutes on paid plans.
- ⓘ Built for static sites: the FAQ says anything that builds to static files works.
- ⓘ The free plan has queued builds and one site; priority support and the performance CDN are Professional only.
- ⓘ Preview links for branches and pull requests are marked as coming soon, and the world-wide CDN is in private beta.
