07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from StockTake Online's own pages, its app-store listings and our grades. Every fact in it is on StockTake Online's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 11 of the 72 other inventory management tools we grade

StockTake Online is cloud inventory software for restaurants and hospitality groups. It covers stock counts, purchase ordering, goods receiving, recipe and batch management, gross profit reporting and transfers between sites, with apps for iOS and Android. It is made by a UK-based company.

To get you started, here are **7 things to know about StockTake Online**, taken from its own pages and our grades.

> **No store rating is on record, and you set up recipes and connect a POS before the numbers mean anything.**
>
> From our grade for ease of use

1 **Best for restaurants that count stock and track food cost**

No prices are published, and it is no use for retail or warehouse stock.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 **Stock counts and adjustments**

Record stock counts and adjustments such as breakages, with variance between theoretical and actual usage.

4 **Ordering and goods receiving**

Create purchase orders, receive deliveries and manage suppliers from one place.

5 **Recipe and batch management**

Links ingredients to recipes so usage and food cost follow what is sold.

6 **A 1.8 GPA, above 11 of 72**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of StockTake Online you could make: inventory and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

StockTake Online at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON Web, iOS, Android
MADE BY StockTake Online Ltd.	CATEGORY Inventory Management
OUR GRADE 1.8 GPA, weak	

The report card

Best for restaurants that count stock and track food cost

StockTake Online does stock counts, ordering, recipes and gross profit reports for restaurants, with POS and accounting links and iOS and Android

apps. No prices are published, and it is no use for retail or warehouse stock.

TOOLGPA REPORT CARD	StockTake Online	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the vendor quotes by locations, operation type and features, which puts it in the middle.
Free plan and trial	F	No free plan and no self-serve trial; the vendor offers a personalised demo.
Features	C	Counts, goods receiving, recipes, gross profit, transfers and POS links do the hospitality job, but it is a narrow job and a poor fit for retail.
Ease of use	C	No store rating is on record, and you set up recipes and connect a POS before the numbers mean anything.
Platforms and integrations	B	Web plus iOS and Android apps, with Toast, Lightspeed, Aloha and Xero links. No computer app is on record.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who StockTake Online is for

- ✓ Fits if you run a restaurant or bar and want counts tied to recipes
- ✓ Works for groups that move stock between several sites

Who it is not for

- ✕ Skip it if you sell retail goods or run a warehouse, as it is built for hospitality
- ✕ Not for you if you need a price to plan with, because none is published
- ✕ Skip it if you want a self-serve trial, since only a demo is offered
- ✕ Watch out: the quote depends on locations, operation type and features

Good to know

Good for

- ✓ Restaurant groups tracking food cost across several sites
- ✓ Operators who want ordering and recipes tied to stock
- ✓ Venues using Toast, Lightspeed or Aloha

Worth knowing

- ⓘ No prices are published: the pricing page describes a customisable model quoted by locations, operation type and features.
- ⓘ The vendor offers a free personalised demo rather than a self-serve trial.
- ⓘ It is built for hospitality, so it is a poor fit for retail or warehouse stock.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

StockTake Online's current pricing could not be confirmed from its own site.

> **No price is published; the vendor quotes by locations, operation type and features, which puts it in the middle.**
>
> From our grade for value for money

We could not confirm StockTake Online's current prices from its own site, so this guide lists no plans. stocktake-online.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, iOS and Android

Restaurant stock control, ordering and recipe costing. Here is what it does, as its own site describes it, and what it covers: public API, reports, inventory.

"

Web plus iOS and Android apps, with Toast, Lightspeed, Aloha and Xero links.

From our grade for platforms and integrations

Stock counts and adjustments

Record stock counts and adjustments such as breakages, with variance between theoretical and actual usage.

Ordering and goods receiving

Create purchase orders, receive deliveries and manage suppliers from one place.

Recipe and batch management

Links ingredients to recipes so usage and food cost follow what is sold.

Gross profit reporting

Reports show cost and gross profit information per site, with multi-location enterprise management.

POS and accounting links

Connects to Toast, Lightspeed, Aloha EPOS, TISSL, Grafterr and HubRise, and to Xero and PaperChase.

Multi-site transfers

Move stock between locations and requisition from a central kitchen.

Where it runs

What it works with

Toast · Lightspeed · Aloha EPOS · HubRise · Xero · PaperChase

StockTake Online is made by StockTake Online Ltd.

Where it stands

Its grades against its category, and whether to keep it or make your own

11/72

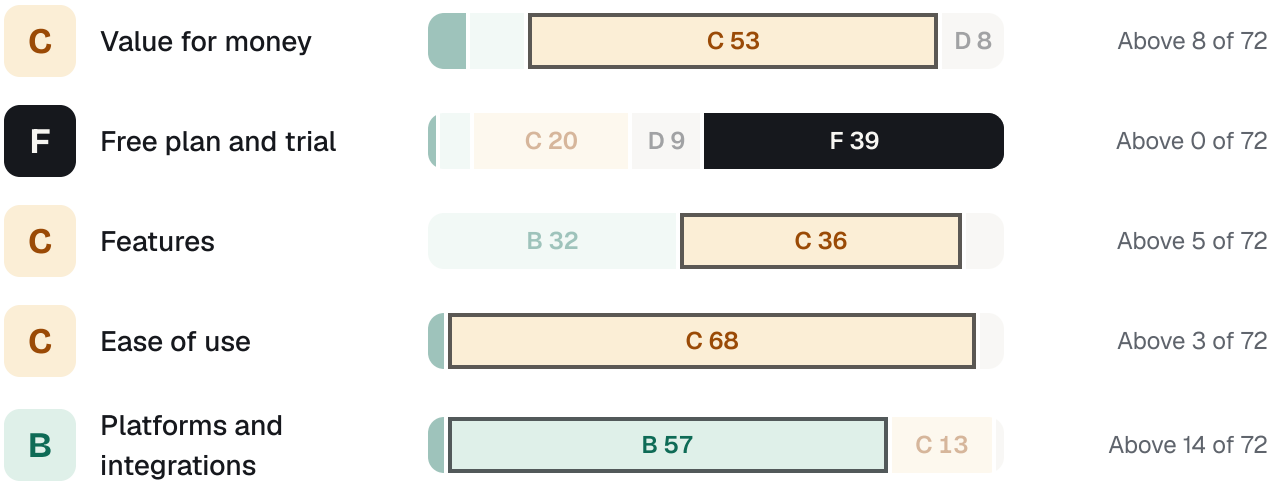

Other inventory management tools it is graded above

StockTake Online's GPA of 1.8 is higher than 11 of the 72 other inventory management tools we grade, and level with 16.

It stands best on platforms and integrations (B, above 14 of 72) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 73 inventory management tools we grade, cut by the letter each got. StockTake Online's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of StockTake Online you could make: inventory and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 45 of the 72 other inventory management tools grade higher.

What you could make

- Inventory and reports: an app builder makes these well.

What you could not

- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, Toast, Lightspeed and Aloha EPOS among them, and has an API.

What this rests on. StockTake Online's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

MarketMan, Sortly, BoxHero, inFlow and Zoho Inventory

The 5 tools StockTake Online is most often weighed against, with where each one differs from it.
