Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 26 of the 60 other webinar and live streaming tools we grade

StreamAlive is an audience-interaction layer that sits on top of a meeting, webinar or live stream rather than hosting one. Attendees answer polls, quizzes, word clouds and maps by typing in the chat of the tool they are already in, with no second screen or QR code. Plans are priced by how many sessions you run, and the audience never pays.

To get you started, here are **9 things to know about StreamAlive**, taken from its own pages and our grades.

> "
>
> **You connect it to a meeting or stream and build your interactions.**
>
> From our grade for ease of use

1 **Best for chat polls and quizzes in Zoom and live streams**

StreamAlive adds chat-based polls, quizzes and word clouds to Zoom, Teams and live streams.

2 **Paid plans start at $25 a month**

As its pricing page puts it: $25 per month for 4 sessions a month, billed annually ($50 billed monthly).

3 There is a free plan

Free with no time limit: up to 5 participants per session, unlimited sessions, every interaction type, rehearsals, and analytics kept for 7 days.

4 It runs on Web

Web, with a browser extension too.

5 Chat-based interactions

Live polls, quizzes with a leaderboard, word clouds, maps, rating polls, a spinner wheel and quick questions, all answered by typing in the chat.

6 Works inside other tools

Listed to work with Zoom, Microsoft Teams, Google Meet, PowerPoint, YouTube Live and Twitch, plus a Chrome extension for StreamYard, Restream and LinkedIn Live.

7 Chat tracking

A link library, ranked list of most active commenters, and a film-style credits crawl of everyone who commented.

8 A 2.0 GPA, above 26 of 60

That is against the other webinar and live streaming tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace StreamAlive you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for chat polls and quizzes in Zoom and live streams

StreamAlive adds chat-based polls, quizzes and word clouds to Zoom, Teams and live streams. It does not host webinars, registration or replays, and the free plan allows only 5 participants per session.

TOOLGPA REPORT CARD	StreamAlive	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	Starter is $25 a month for 4 sessions on yearly billing and Pro is $75, between the $20.80 and $45 marks. It adds to a meeting rather than replacing a webinar tool.
Free plan and trial	C	Free with no time limit, but only 5 participants per session and 7 days of analytics.

SUBJECT	GRADE	COMMENT
Features	D	One narrow function: audience interaction. It needs a webinar or meeting tool to be useful at all.
Ease of use	C	No store rating on record. You connect it to a meeting or stream and build your interactions.
Platforms and integrations	B	Web and browser extension, with Zoom, Teams, Google Meet, PowerPoint, YouTube Live, Twitch and StreamYard.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who StreamAlive is for

- ✓ Fits if you already present on Zoom or Teams and want live polls
- ✓ Works for trainers who run quizzes inside a session

Who it is not for

- ✗ Not for you if you want to host webinars, as it has no registration or replays
- ✗ Tight if you stay free: 5 participants a session
- ✗ Watch out: Starter is limited to 4 sessions a month, and Starter, Free and Pro are for one presenter
- ✗ Pricey if you have 3 or more presenters: that starts at $5,000 a year
- ✗ Watch out: your own branding is Pro only

Good to know

Good for

- ✓ Trainers and educators who want live polls inside Zoom or Teams
- ✓ Webinar hosts adding interaction to a stream on another platform
- ✓ Occasional users who prefer a pack of sessions over a subscription

Worth knowing

- ⓘ It adds interaction to a meeting or stream and does not host webinars, registration or replays itself.
- ⓘ Participants are counted as people who type in the chat; the free plan allows only 5 per session.
- ⓘ Starter is limited to 4 sessions a month, and Starter, Free and Pro are for one presenter; 3 or more presenters starts at $5,000 a year.
- ⓘ Your own branding is only on Pro; Session Pack and Starter show a small StreamAlive mark.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

26/60

Other webinar and live streaming tools it is graded above

StreamAlive's GPA of 2.0 is higher than 26 of the 60 other webinar and live streaming tools we grade, and level with 6.

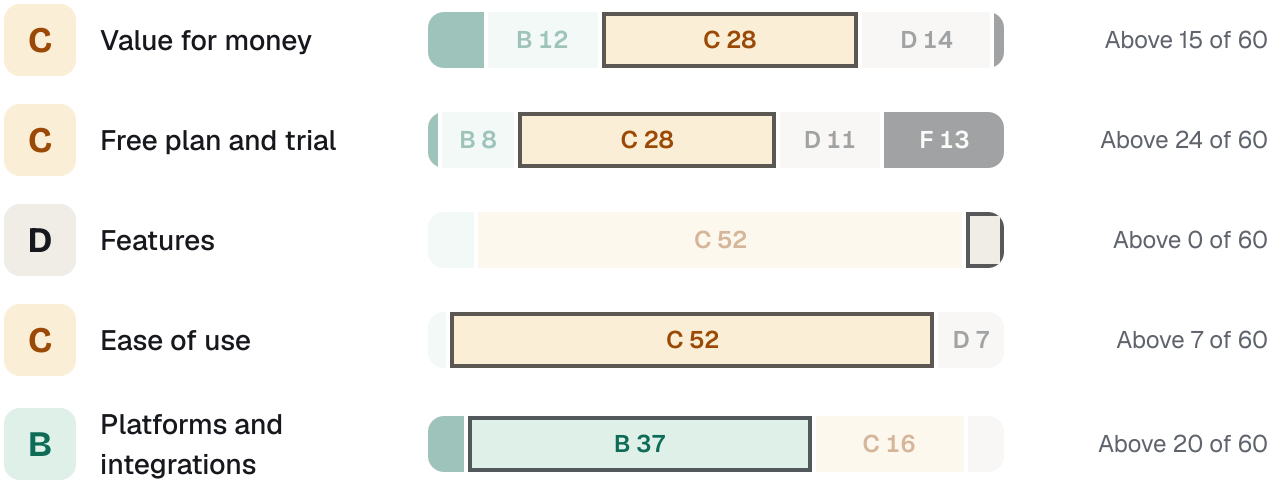

It stands best on platforms and integrations (B, above 20 of 60) and worst on features (D, above 0).

Its paid plans start at $25 a month, against a middle price of $47 for the category: 13 of the 45 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 10 tools score higher and cost less.

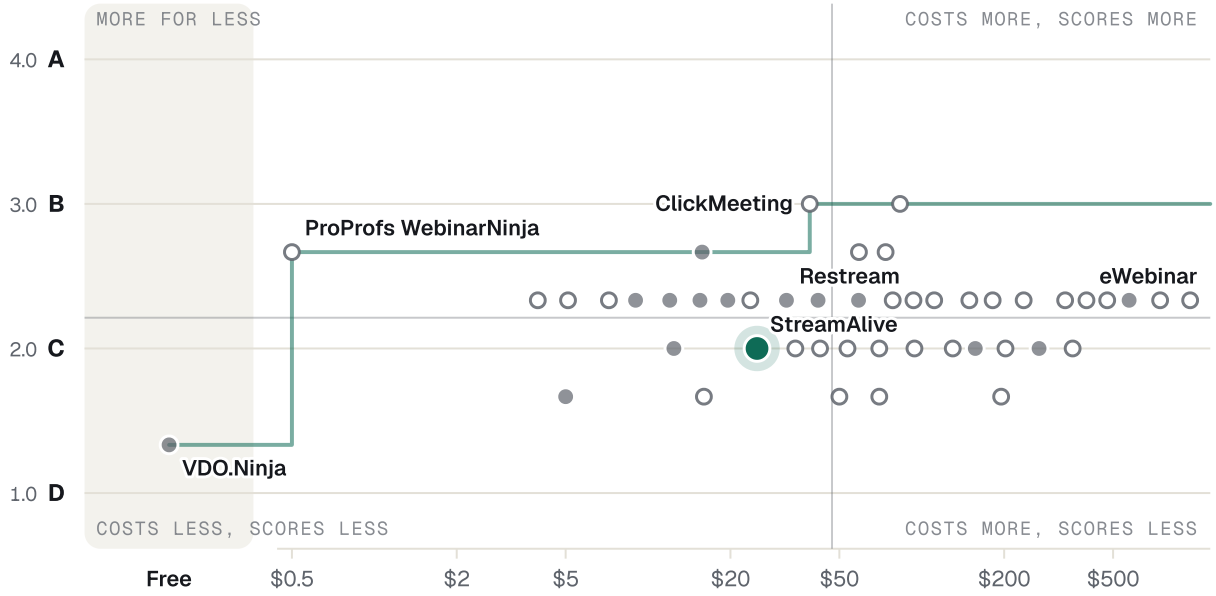

Each grade against the category

Every bar is all 61 webinar and live streaming tools we grade, cut by the letter each got. StreamAlive's own letter is outlined.

Price against what you get

Each dot is one of 47 webinar and live streaming tools. Further left costs less; higher up scores better on features, ease of use and platforms. StreamAlive is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace StreamAlive you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

It costs $300 a year.

What you could make

- Surveys and reports: an app builder makes these well.

What you could not

- × Live video to hundreds of people at once.

- ✕ It plugs into other products, Zoom, Microsoft Teams and Google Meet among them.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. StreamAlive's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
