PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

56/148

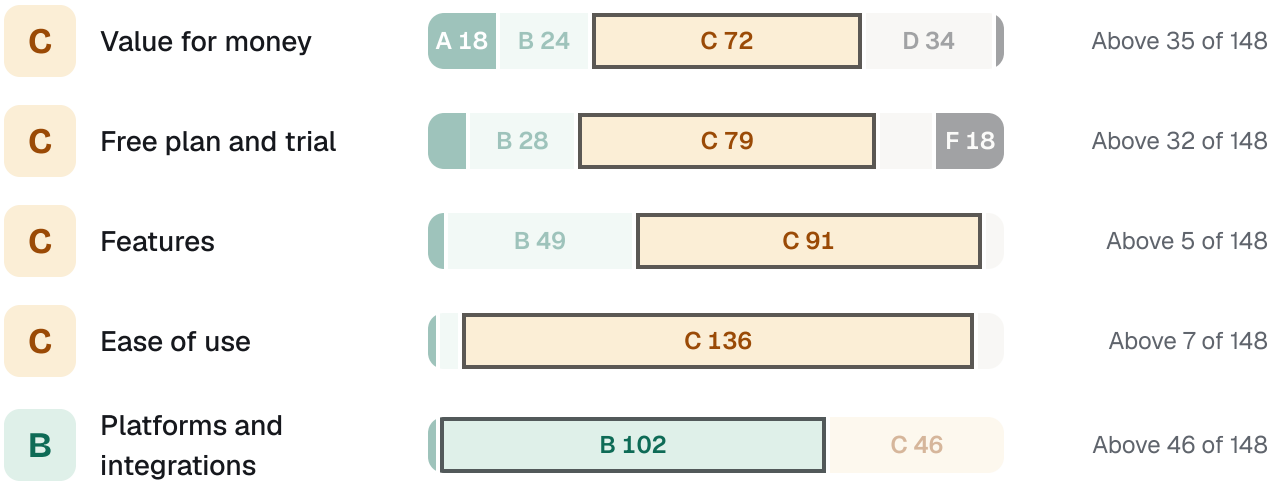

Other form and survey tools it is graded above

Super Forms's GPA of 2.2 is higher than 56 of the 148 other form and survey tools we grade, and level with 31.

It stands best on platforms and integrations (B, above 46 of 148) and worst on features (C, above 5).

Each grade against the category

Every bar is all 149 form and survey tools we grade, cut by the letter each got. Super Forms's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

A form at its plainest is questions, a button and a table of answers.

You could make the core of Super Forms for yourself: forms and templates. What you would give up is listed below. Whether that is worth the price is your call.

What you could make

- Forms and templates: an app builder makes these well.
- It runs in a browser, which is where something home-made would run too.

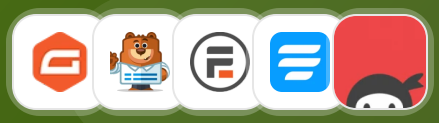

What you could not

- It plugs into other products, Mailchimp, PayPal and WooCommerce among them.

What this rests on. Super Forms's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
