Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 2 of the 22 other QR code generators we grade

Supercode is a QR code creation and management platform for businesses. Every plan includes unlimited dynamic codes, design tools, analytics, bulk creation and unlimited team members; the plans differ only in the number of scan credits per month. It also offers interactive feedback pages and web pages published through a QR code.

> "
>
> **A web app where you build codes and pages.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about Supercode**, taken from its own pages and our grades.

1 **Best for QR codes priced by how many scans you get**

A busy campaign can outgrow a plan, and the page does not explain what happens when credits run out.

2 **Paid plans start at $60 a month**

As its pricing page puts it: $60 per month, billed annually ($89 billed monthly) for Professional.

3 **There is a free plan**

30 scan credits per month, with the same features as paid plans.

4 **It runs on Web**

Web.

5 Unlimited dynamic codes

All plans can create unlimited dynamic QR codes whose content can be changed after printing.

6 Scan analytics

Reports scans by date, time, device type and location, with Google Analytics integration through UTM parameters.

7 Design and AI generation

Frames, colors, logos and templates, plus AI-assisted code generation, with JPG, PNG and SVG downloads.

8 A 2.0 GPA, above 2 of 22

That is against the other QR code generators we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

The plain part of Supercode you could make: qR codes, reports and digital business card. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

The report card

Best for QR codes priced by how many scans you get

Supercode gives every plan every feature and meters by scan credits: 30 a month free, 1,000 on Professional at $60, 5,000 on Enterprise at $150. A busy campaign can outgrow a plan, and the page does not explain what happens when credits run out.

TOOLGPA REPORT CARD — **Supercode** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Professional is $60 a month billed annually for 1,000 scan credits, well above the category's dearest-tenth line of $39.99. A cheaper $19 card is shown without explanation.
Free plan and trial	C	Free for 30 scan credits a month with every feature, plus a free trial on Professional of unstated length.
Features	B	Unlimited dynamic codes, analytics, design and AI generation, bulk creation and unlimited team members. The limit is scans, not features.
Ease of use	C	No store rating on record. A web app where you build codes and pages.
Platforms and integrations	C	Web only, with a Google Analytics link. No API or apps are named.

Grade point average — Fair, out of 4.0 — **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Supercode is for

- ✓ Fits if you have few scans but want every feature
- ✓ Works for a small team that wants no seat limits

Who it is not for

- ✗ Tight if you are staying free: 30 scan credits a month
- ✗ Pricey if you run busy codes: 1,000 credits cost $60 a month billed annually
- ✗ Watch out: the page does not say what happens when credits run out
- ✗ Watch out: the Free card also shows $19 a month, which the page does not explain

Good to know

Good for

- ✓ Teams that want full features without paying for a higher tier
- ✓ Low-volume users who can live within 30 free scan credits a month
- ✓ Agencies that need unlimited seats and bulk creation

Worth knowing

- ⓘ Plans are metered by scan credits, so a busy campaign can outgrow the plan: 30 on Free, 1,000 on Professional, 5,000 on Enterprise.
- ⓘ The page does not say what a scan credit is beyond a scan, or what happens when credits run out.
- ⓘ The Free card shows $19 a month alongside $0; the pricing is not explained, so confirm on the page.

Where it stands

Its grades against its category, and whether to keep it or make your own

2/22

Other QR code generators it is graded above

Supercode's GPA of 2.0 is higher than 2 of the 22 other QR code generators we grade, and level with 2.

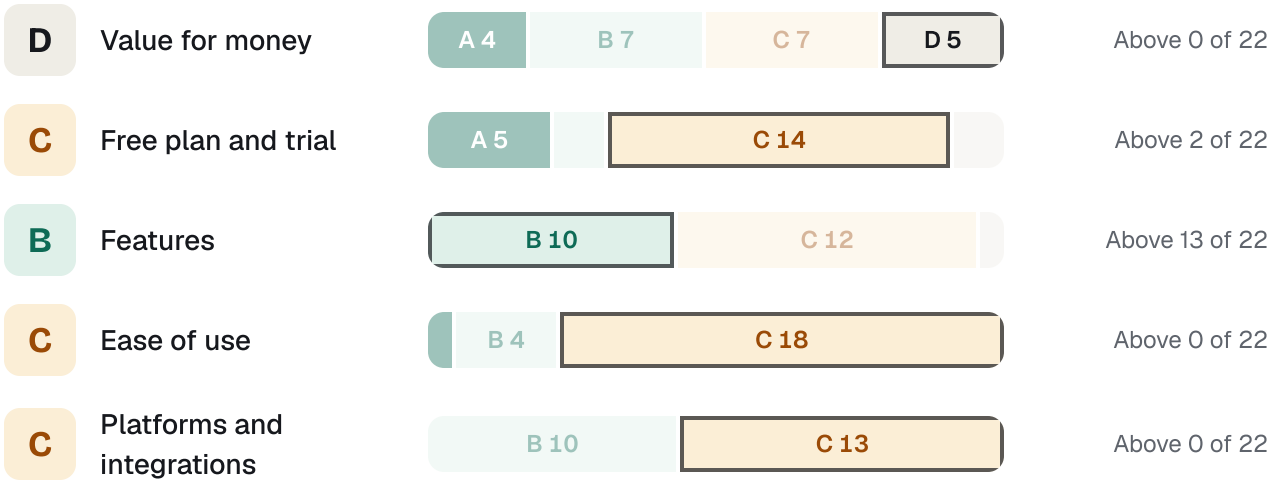

It stands best on features (B, above 13 of 22) and worst on value for money (D, above 0).

Its paid plans start at $60 a month, against a middle price of $10 for the category: 19 of the 19 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 8 tools score higher and cost less.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Supercode you could make: qR codes, reports and digital business card. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 18 of the 22 other QR code generators grade higher. It costs $720 a year.

What you could make

- QR codes, reports and digital business card: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Supercode's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
