Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 2 of the 148 other form and survey tools we grade

SurveyJS is a set of JavaScript components that developers embed in their own web apps: a free open-source form library, a drag-and-drop Survey Creator, a results dashboard and a PDF generator. Forms are described as JSON, work with React, Angular, Vue 3 or plain JavaScript, and all data stays on the customer's own servers. Licenses are bought once per developer.

To get you started, here are **9 things to know about SurveyJS**, taken from its own pages and our grades.

> **It is installed with code, for React, Angular, Vue or plain JavaScript, and you host it yourself.**
>
> From our grade for ease of use

1 **Best for developers who want to build forms into their own app**

SurveyJS is a set of JavaScript parts for putting forms and surveys inside your own web app, and the form library is open source.

2 **What it costs**

Paid plans start at $559 once per developer, including updates and support for the first 12 months.

3 There is a free plan

Essential: the open-source Form Library with unlimited forms, submissions and file uploads, no watermarks, and data on your own servers.

4 It runs on Web

Web.

5 JSON-driven form library

Forms are defined as JSON and rendered with native support for React, Angular and Vue 3, or with plain JavaScript.

6 Survey Creator

A self-hosted, white-labeled drag-and-drop builder with a graphical interface for conditional logic and branching, embedded in the buyer's own app.

7 Dashboard

Charts and interactive reports over collected data, with export to Excel, CSV and PDF.

8 A 1.6 GPA, above 2 of 148

That is against the other form and survey tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace SurveyJS you would be making a builder that other people can use without writing code. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for developers who want to build forms into their own app

SurveyJS is a set of JavaScript parts for putting forms and surveys inside your own web app, and the form library is open source. It is not a form site you can just sign up to: someone has to build and host the app around it, and the drag-and-drop builder starts at $559 once per developer.

TOOLGPA REPORT CARD — **SurveyJS** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	The builder (Survey Creator) starts at $559 once per developer with $229 a year to renew updates, and the Dashboard tier is $1,019. The category's one-time middle is $34 and its monthly middle $19.99.

SUBJECT	GRADE	COMMENT
Free plan and trial	B	The Form Library is free and open source, with unlimited forms and submissions and no watermark, and data stays on your servers. Anyone who isn't a developer can't use it, and the builder isn't free.
Features	D	It is a toolkit, not a form service: no hosted page to share a form from, so it needs an app built around it. The builder, dashboard and PDF generator are all paid.
Ease of use	D	No store rating on record. It is installed with code, for React, Angular, Vue or plain JavaScript, and you host it yourself.
Platforms and integrations	C	Web only, with React, Angular, Vue 3, Bootstrap, Material UI, shadcn/ui and a WordPress plugin. There is no desktop or phone app.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who SurveyJS is for

- ✓ Fits if you are a developer who wants forms inside your own product and your data on your own servers
- ✓ Works for teams that can pay once per developer and renew updates yearly

Who it is not for

- ✗ Not for you if you want a ready-made form page to send out, as there isn't one
- ✗ Skip it if nobody on your team writes code
- ✗ Pricey if you need the builder: $559 per developer, and updates after the first 12 months cost $229 a year
- ✗ Watch out: the dashboard and PDF generator need the $1,019 plan
- ✗ Watch out: licences are per developer, and the top plan is sold through sales

Good to know

Good for

- ✓ Developers who want to embed forms and a form builder in their own app
- ✓ Teams that need survey data kept on their own servers
- ✓ Products that need a white-labeled form creator

Worth knowing

- ⓘ This is a developer toolkit, not a hosted form service: there is no ready-made form-sharing site, so someone has to build and host the app around it.
- ⓘ The Survey Creator, Dashboard and PDF Generator are paid; the free Essential plan covers only the Form Library.
- ⓘ Licenses are per developer, with a volume discount of up to 35% when buying 2 or more of the same product, and renewals are for updates and support only.
- ⓘ A 90-day money-back guarantee applies to developer licenses, which are perpetual.

PART 02 · PRICING

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$559 one-time

To start. There is a free plan too

SurveyJS has a free plan. Paid plans start at $559 once per developer, including updates and support for the first 12 months.

> **The Form Library is free and open source, with unlimited forms and submissions and no watermark, and data stays on your servers.**
>
> From our grade for free plan and trial

ESSENTIAL

$0

Open-source Form Library for React, Angular, Vue 3 or plain JavaScript, with multi-page forms, quizzes and unlimited forms and submissions.

BASIC

$559

once per developer, first 12 months of updates included

Adds Survey Creator: self-hosted, white-labeled drag-and-drop builder with unlimited creators and a conditional logic GUI. Renewal: $229 per 12 months.

PRO

$1019

once per developer, first 12 months of updates included

Everything in Basic plus the Dashboard (charts, interactive reports, Excel, CSV and PDF export), PDF Generator and the UI Preset Editor. Renewal: $409 per 12 months.

ENTERPRISE

Starts at $2259

once per developer; renewal starts at $899

Developer licenses plus priority support, a technical account manager, priority bug fixes and review sessions. Sold through sales.

The free plan

Essential: the open-source Form Library with unlimited forms, submissions and file uploads, no watermarks, and data on your own servers.

Read from surveyjs.io on Nov 13, 2026.

Ways to pay less

OTHER SAVINGS

Volume discount on developer licenses

The pricing page says a volume discount of up to 35% applies when purchasing 2 or more licenses of the same product title.

Stated on surveyjs.io

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Open-source JavaScript form library with a paid form builder. Here is what it does, as its own site describes it, and what it covers: open source, self-hostable, public API, no-code, forms, surveys.

> **It is a toolkit, not a form service: no hosted page to share a form from, so it needs an app built around it.**
>
> From our grade for features

JSON-driven form library

Forms are defined as JSON and rendered with native support for React, Angular and Vue 3, or with plain JavaScript.

Survey Creator

A self-hosted, white-labeled drag-and-drop builder with a graphical interface for conditional logic and branching, embedded in the buyer's own app.

Dashboard

Charts and interactive reports over collected data, with export to Excel, CSV and PDF.

PDF Generator

Creates editable PDF forms and exports submissions to PDF, with a company logo in the header or footer.

Data on your servers

The vendor says all data stays on the customer's own servers and works with any server and database.

Quizzes and multi-user filling

Scored quizzes, multi-page forms and multi-user form filling in the Form Library; multi-user editing is offered to Enterprise customers.

Where it runs

Web

What it works with

React · Angular · Vue 3 · Bootstrap · Material UI · shadcn/ui · WordPress

SurveyJS is made by SurveyJS.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

2/148

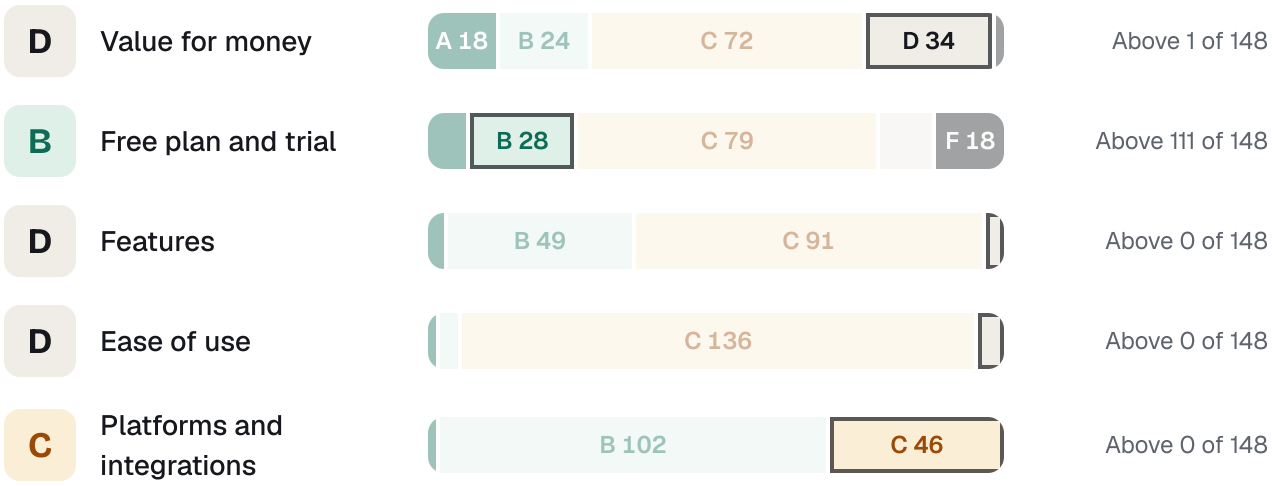

Other form and survey tools it is graded above

SurveyJS's GPA of 1.6 is higher than 2 of the 148 other form and survey tools we grade, and level with 5.

It stands best on free plan and trial (B, above 111 of 148) and worst on features (D, above 0).

Each grade against the category

Every bar is all 149 form and survey tools we grade, cut by the letter each got. SurveyJS's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace SurveyJS you would be making a builder that other people can use without writing code. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 141 of the 148 other form and survey tools grade higher. It costs $559, paid once. SurveyJS is open source, so there is a third way: take its code and run it yourself.

What you could make

- Forms and surveys: an app builder makes these well.

What you could not

- A builder that other people can use without writing code.
- It plugs into other products, React, Angular and Vue 3 among them, and has an API.

What this rests on. SurveyJS's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Form.io, Formbricks, Tripetto and SurveyLegend

The 4 tools SurveyJS is most often weighed against, with where each one differs from it.

1.6 GPA

Form.io

Free trial · from $300/mo

JSON form and API platform for developers, hosted or self-hosted.

- SurveyJS has a free plan. Form.io does not, though it has a free trial.
- SurveyJS also covers no-code and surveys.

SurveyJS and Form.io compared in full

2.4 GPA

Formbricks

Free plan

Open-source survey platform for links, websites and apps.

- SurveyJS also covers no-code and forms.
- Formbricks also covers templates and workflow automation.

SurveyJS and Formbricks compared in full

2.6
GPA

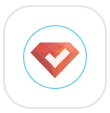

Tripetto

Free plan · from $99/yr

Conversational form builder as a cloud studio, WordPress plugin or SDK.

- SurveyJS is open source, according to its own site.

SurveyJS and Tripetto compared in full

2.0
GPA

SurveyLegend

Free plan · from $15/mo

Online survey, form and poll builder with a free plan.

- SurveyJS is open source and self-hostable, according to its own site.
- SurveyJS also covers no-code.
- SurveyLegend also covers templates.

SurveyJS and SurveyLegend compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

13

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is SurveyJS free?

SurveyJS has a free plan. Essential: the open-source Form Library with unlimited forms, submissions and file uploads, no watermarks, and data on your own servers.

How much does SurveyJS cost?

SurveyJS lists 4 plans. Essential: $0.

What platforms does SurveyJS work on?

SurveyJS is available on Web.

Does SurveyJS offer any discounts?

SurveyJS publicly lists the following: Volume discount on developer licenses.

Does SurveyJS have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. SurveyJS is listed for Web.

Does SurveyJS have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. SurveyJS is listed for Web.

Is SurveyJS open source?

Yes. SurveyJS is open source, according to its own site.

Does SurveyJS have an API?

Yes. SurveyJS offers a public API, according to its own site.

What does SurveyJS integrate with?

SurveyJS's listing names React, Angular, Vue 3, Bootstrap, Material UI, shadcn/ui and WordPress.

Who makes SurveyJS?

SurveyJS is made by a company of the same name.

What are the alternatives to SurveyJS?

The closest alternatives to SurveyJS in our directory are Form.io, Formbricks, Tripetto and SurveyLegend.

How does SurveyJS compare with other form and survey tools?

SurveyJS's GPA of 1.6 is higher than 2 of the 148 other form and survey tools we grade, and level with 5.

Could I make my own version of SurveyJS?

To replace SurveyJS you would be making a builder that other people can use without writing code.

Where this guide comes from

The prices, plans, platforms and features were read from SurveyJS's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from SurveyJS's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by SurveyJS. Prices change, so check surveyjs.io before you buy.
