Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 31 of the 87 other field service apps we grade

SynkedUP is business software for landscape contractors, including hardscape, maintenance, design/build, snow and sitework firms. It prices estimates from the contractor's own labor rates, overhead and production rates, with an AI agent that builds the estimate from a recorded walkthrough, then adds proposals, scheduling, time tracking, job costing and QuickBooks invoicing. Three tiers are priced per month.

To get you started, here are **9 things to know about SynkedUP**, taken from its own pages and our grades.

> **No store rating on record, and rates, overhead and production rates have to be entered before estimates work.**
>
> From our grade for ease of use

1 **Best for landscape contractors who price jobs from their own costs**

SynkedUP builds landscape estimates from your own labour rates and overhead, with an AI that drafts one from a walkthrough, then adds scheduling, time tracking and job costing.

2 **Paid plans start at $179 a month**

As its pricing page puts it: $179 per month, billed annually ($199 billed monthly).

3 **You can try it first**

Starter plan: first 50 jobs free

4 **It runs on 3 platforms**

Web, iOS and Android.

5 **AI estimating agent**

Records of a property walkthrough are turned into work areas and line items from the contractor's templates, then priced by a pricing engine using their own rates.

6 **Budgeting and overhead recovery**

Budgeting tools set labor rates and overhead recovery so each estimate shows break-even and net profit on every line.

7 **Proposals**

E-signature proposals with optional line items, photos and video, automated follow-ups and notifications when a customer opens one.

8 **A 2.0 GPA, above 31 of 87**

That is against the other field service apps we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace SynkedUP you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for landscape contractors who price jobs from their own costs

SynkedUP builds landscape estimates from your own labour rates and overhead, with an AI that drafts one from a walkthrough, then adds scheduling, time tracking and job costing. Starter has none of the scheduling or costing, those begin at $359, and monthly billing carries a $1,000 activation fee.

TOOLGPA REPORT CARD — **SynkedUP** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Starter is $179 a month, above the dearer quarter's $99, and job costing and scheduling only start at Standard at $359 for 2 users.
Free plan and trial	D	First 50 jobs free on Starter. That is a limited trial, and the page does not say if a card is needed.

SUBJECT	GRADE	COMMENT
Features	B	Estimating, proposals, scheduling, time tracking, job costing and QuickBooks invoicing for landscape firms. Starter only holds the first two.
Ease of use	C	No store rating on record, and rates, overhead and production rates have to be entered before estimates work.
Platforms and integrations	B	Web, iOS and Android with QuickBooks Online, Zapier and Claude. No desktop app is listed.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who SynkedUP is for

- ✓ Fits if you run a landscape or hardscape firm and know your overhead and rates
- ✓ Works for contractors who want job costing tied to the estimate

Who it is not for

- ✕ Pricey if you want costing and scheduling, which start at $359 a month
- ✕ Watch out: Standard and PRO charge a $1,000 activation fee on monthly billing, waived on annual
- ✕ Watch out: extra users are $20 a month each beyond 2 or 5 included
- ✕ Tight if you want GPS timesheets, Zapier or MCP access, which are PRO only at $539
- ✕ Skip it if you are outside landscaping

Good to know

Good for

- ✓ Landscape, hardscape and snow contractors who price from their own numbers
- ✓ Owners who want estimated versus actual cost on every job
- ✓ Small crews that need proposals and time tracking in one app

Worth knowing

- ⓘ Standard and PRO include 2 and 5 users; additional users are $20 per month each.
- ⓘ Standard and PRO carry a $1,000 one-time activation fee on monthly billing, waived with annual billing.
- ⓘ Starter has no included users, job costing or scheduling; those start at Standard.
- ⓘ GPS-stamped timesheets, MCP access for AI tools and Zapier automations are PRO only.

Where it stands

Its grades against its category, and whether to keep it or make your own

31/87

Other field service apps it is graded above

SynkedUP's GPA of 2.0 is higher than 31 of the 87 other field service apps we grade, and level with 23.

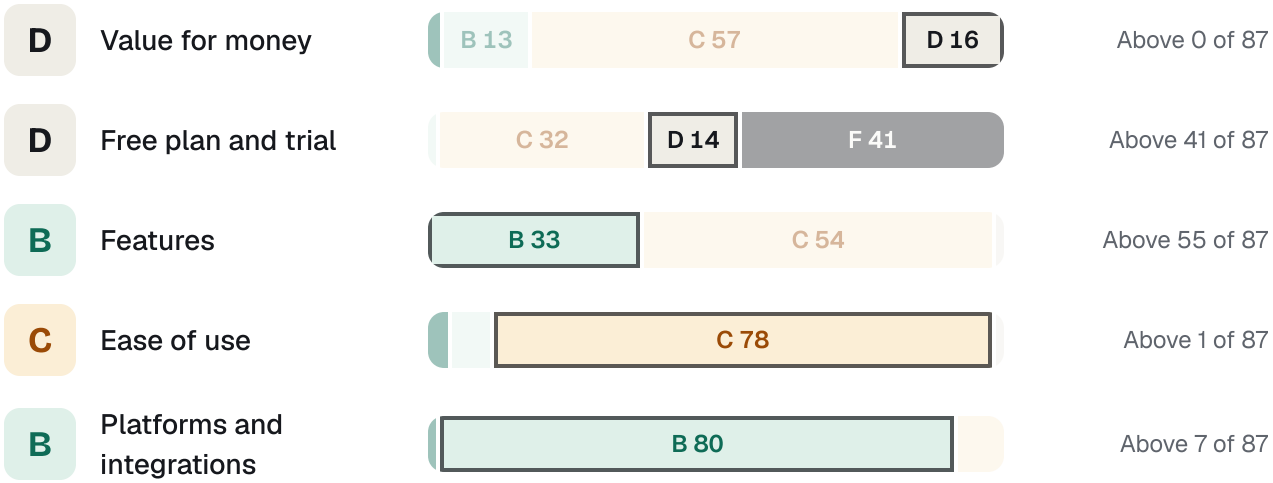

It stands best on features (B, above 55 of 87) and worst on value for money (D, above 0).

Its paid plans start at $179 a month, against a middle price of $50 for the category: 47 of the 53 others that charge start lower.

On features, ease of use and platforms it scores 2.7 out of 4. 4 tools score higher and cost less.

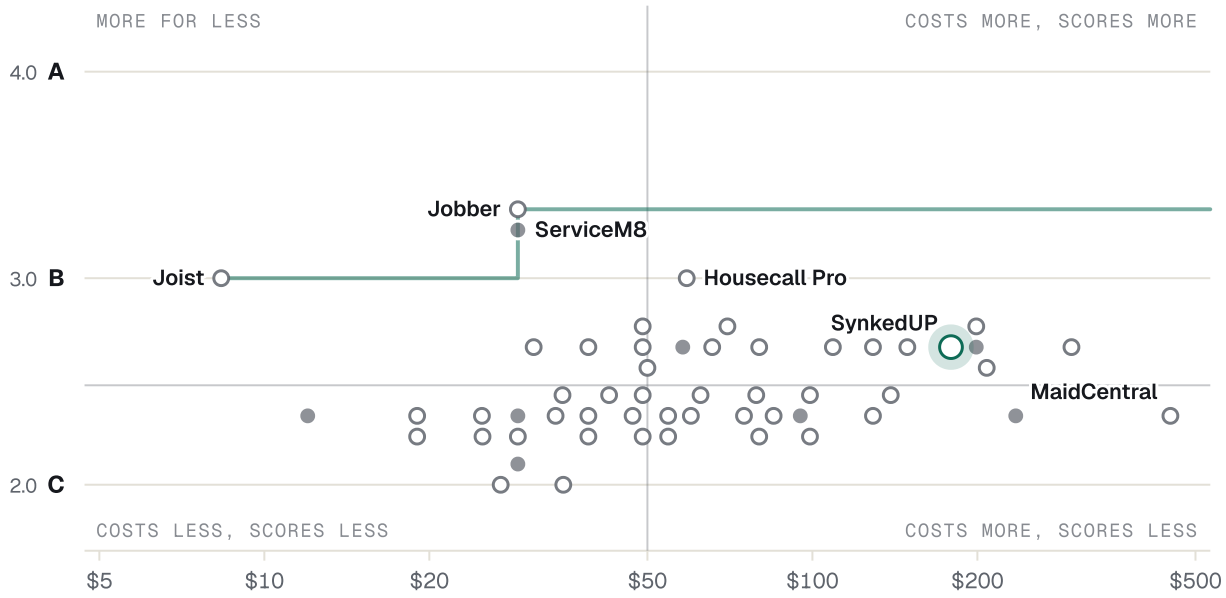

Each grade against the category

Every bar is all 88 field service apps we grade, cut by the letter each got. SynkedUP's own letter is outlined.

Price against what you get

Each dot is one of 54 field service apps. Further left costs less; higher up scores better on features, ease of use and platforms. SynkedUP is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace SynkedUP you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

It costs $2,148 a year.

What you could make

- Quotes and estimates, job scheduling, time tracking and invoicing: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.

- A real app for iOS and Android. Something home-made would be a web page.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. SynkedUP's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
