Welcome

What it is, who it suits, its grades and the ten things to know first

2.8

GPA, above 98 of the 133 other to-do list apps we grade

TaskWise is a browser-based task manager that lays tasks out on a kanban board and a calendar. Tasks take markdown descriptions, checklists, tags and priorities, and can be timed. The site describes it as free, privacy-first and able to work offline.

To get you started, here are **8 things to know about Taskwise**, taken from its own pages and our grades.

1 **Best for a free kanban board in the browser**

TaskWise is a browser task board with kanban columns, a calendar and a timer per task, and its home page calls it free.

2 **It is free**

Taskwise has no paid plan at all. The site describes the app as free; it lists no paid plans.

3 **It runs on Web**

Web.

4 **Drag-and-drop kanban board**

Tasks sit in To Do, In Progress and Done columns and move between them by dragging.

5 **Rich task cards**

Each task can hold a markdown description, a checklist, tags, a priority and a due date.

6 **Calendar view**

Tasks with due dates can also be viewed on a calendar, next to the board.

7 **A 2.8 GPA, above 98 of 133**

That is against the other to-do list apps we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

Taskwise is free, so making your own would save you nothing.

TOOLGPA REPORT CARD

Taskwise

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	A	The site describes it as free and lists no paid plan, so nothing is charged on record. The catch is that the claim rests on the home page alone.
Free plan and trial	A	No plan, trial or card is mentioned anywhere, and the whole app is described as free.
Features	C	Board, calendar, checklists, tags, priorities and time tracking against an estimate. The listing shows no sharing, recurring tasks or integrations, so the basics have gaps.
Ease of use	C	A board you build yourself, column by column, with nothing on record about a tutorial or templates. No store rating exists to go on.
Platforms and integrations	C	Web only. No desktop or phone app is listed, and no integrations.

Grade point average Good, out of 4.0 **2.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Taskwise is for

- ✓ Fits if you want a free kanban board with a calendar and a timer, and one browser tab is enough
- ✓ Works for solo people who want to time tasks against an estimate

Who it is not for

- ✗ Skip it if you need a phone or desktop app, since only the browser version is listed
- ✗ Not for you if tasks are shared with others, as the listing shows no sharing or team features
- ✗ Watch out: the site doesn't say which AI model runs the assistant or where your task data is kept
- ✗ Watch out: there is no pricing, about or terms page, so what 'free' covers over time isn't written down

Good to know

Good for

- ✓ People who want a free kanban-style task board in the browser
- ✓ Solo users who like to track time against estimates

Worth knowing

- ⓘ The site has no pricing, about or terms page of its own, so the free claim rests on its home page description.
- ⓘ It runs in the browser only; no desktop or mobile app is listed.
- ⓘ The site does not say which AI model powers the assistant or where task data is stored.

From our grade for features

Drag-and-drop kanban board

Tasks sit in To Do, In Progress and Done columns and move between them by dragging.

Rich task cards

Each task can hold a markdown description, a checklist, tags, a priority and a due date.

Calendar view

Tasks with due dates can also be viewed on a calendar, next to the board.

Time tracking

Tasks can be timed, with the time spent shown against the time estimated.

AI assistant and voice commands

The site describes an AI assistant and voice commands for managing tasks.

Where it stands

Its grades against its category, and whether to keep it or make your own

98/133

Other to-do list apps it is graded above

Taskwise's GPA of 2.8 is higher than 98 of the 133 other to-do list apps we grade, and level with 11.

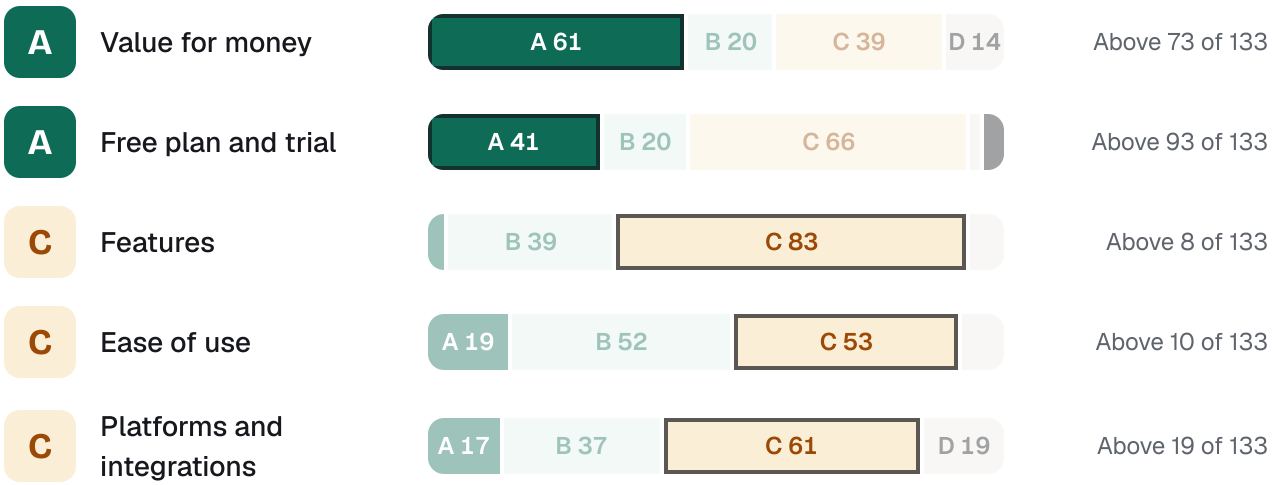

It stands best on free plan and trial (A, above 93 of 133) and worst on features (C, above 8).

Taskwise has no paid plan.

On features, ease of use and platforms it scores 2.0 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

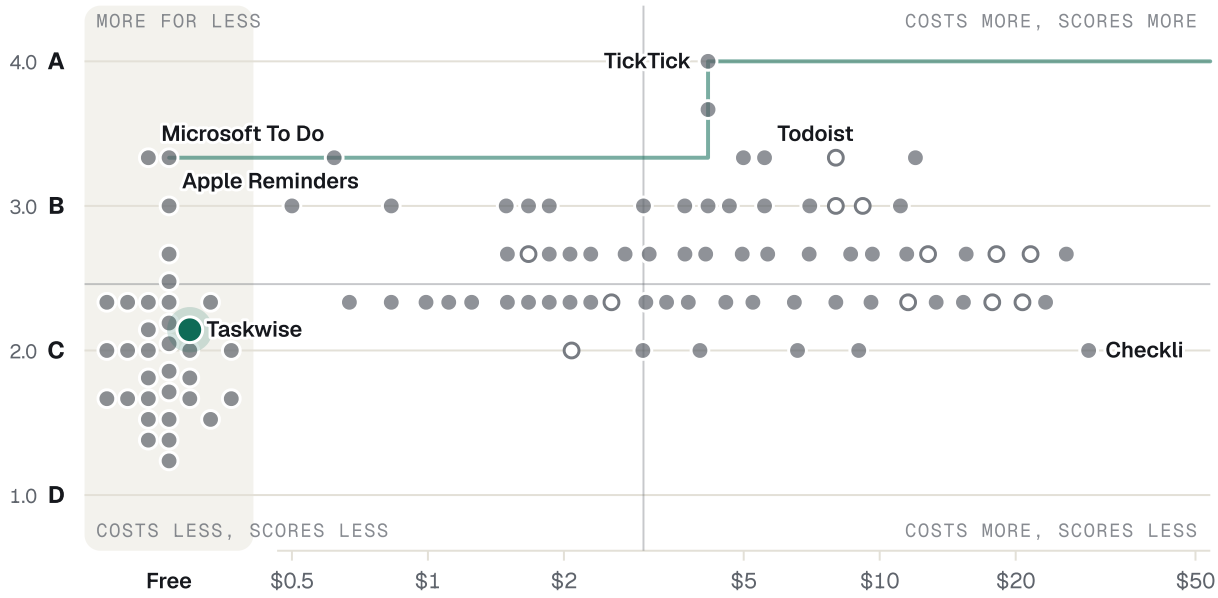

Each grade against the category

Every bar is all 134 to-do list apps we grade, cut by the letter each got. Taskwise's own letter is outlined.

Price against what you get

Each dot is one of 106 to-do list apps. Further left costs less; higher up scores better on features, ease of use and platforms. Taskwise is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Taskwise is free, so making your own would save you nothing.

It is one of the better ones too: its GPA of 2.8 is higher than 98 of the 133 other to-do list apps we grade.

What you could make

- Tasks, kanban boards, calendar, time tracking and Markdown: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.

What this rests on. Taskwise's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
