Who Teambition is for

- ✓ Fits if your team already works in DingTalk
- ✓ Works for groups of up to 10 who want a free Kanban board

Who it is not for

- ✗ Watch out: the site carries a free-until-2020 banner and some pages return errors, so it may not be kept up
- ✗ Skip it if you want a published price, as every paid edition is quoted
- ✗ Tight if you pass 10 people, where paid orders start at 10 licenses (100 or 200 for larger editions)
- ✗ Not for you if you want English-only pages, as the vendor is a Shanghai company and pages mix English and Chinese

Good to know

Good for

- ✓ Companies already using DingTalk for work chat
- ✓ Small teams that fit the free tier of 10 licenses
- ✓ Organizations that need private on-premises deployment

Worth knowing

- ⓘ No paid price is shown on the pricing page; every paid edition is quoted through sales, per person per year.
- ⓘ The free edition covers 10 licenses only, and paid orders start at 10 licenses (100 or 200 for the larger editions).
- ⓘ The site carries a banner about free access until 2020 and a 2013 to 2025 copyright line, and some pages return errors, so it may not be fully kept up to date.
- ⓘ Pages are mixed English and Chinese, and the vendor is a Shanghai company.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

38/149

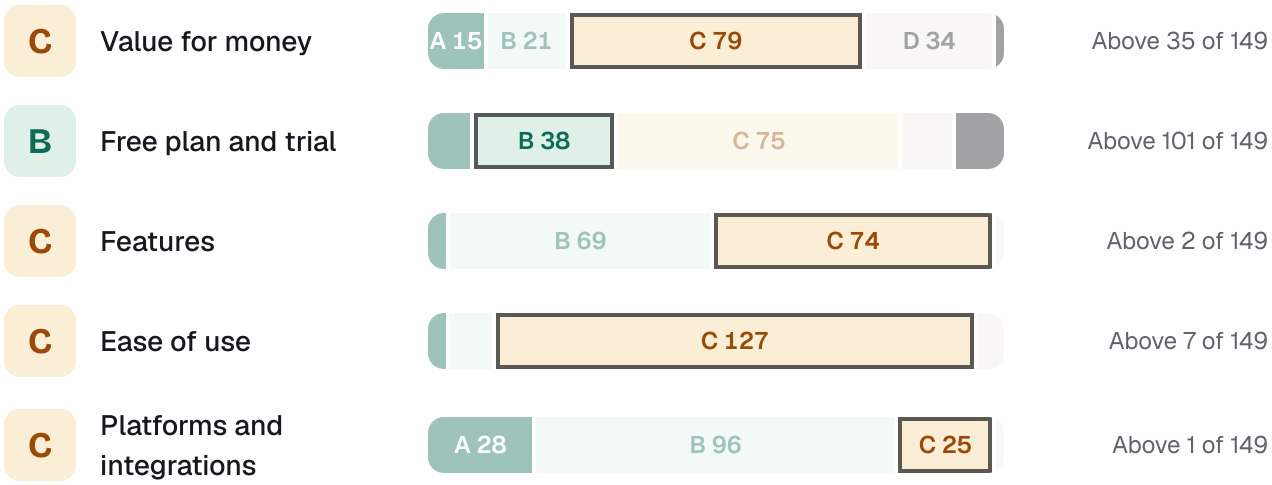

Other project management tools it is graded above

Teambition's GPA of 2.2 is higher than 38 of the 149 other project management tools we grade, and level with 31.

It stands best on free plan and trial (B, above 101 of 149) and worst on platforms and integrations (C, above 1).

Each grade against the category

Every bar is all 150 project management tools we grade, cut by the letter each got. Teambition's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Teambition you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 80 of the 149 other project management tools grade higher.

What you could make

- Kanban boards, tasks, reports and time tracking: an app builder makes these well.

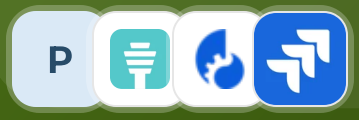

What you could not

- Connections to other products, each kept working as those products change.
- Sharing with other people, which means accounts and invitations.

What this rests on. Teambition's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
