PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

9/75

Other team communication apps it is graded above

Teemyco's GPA of 2.2 is higher than 9 of the 75 other team communication apps we grade, and level with 19.

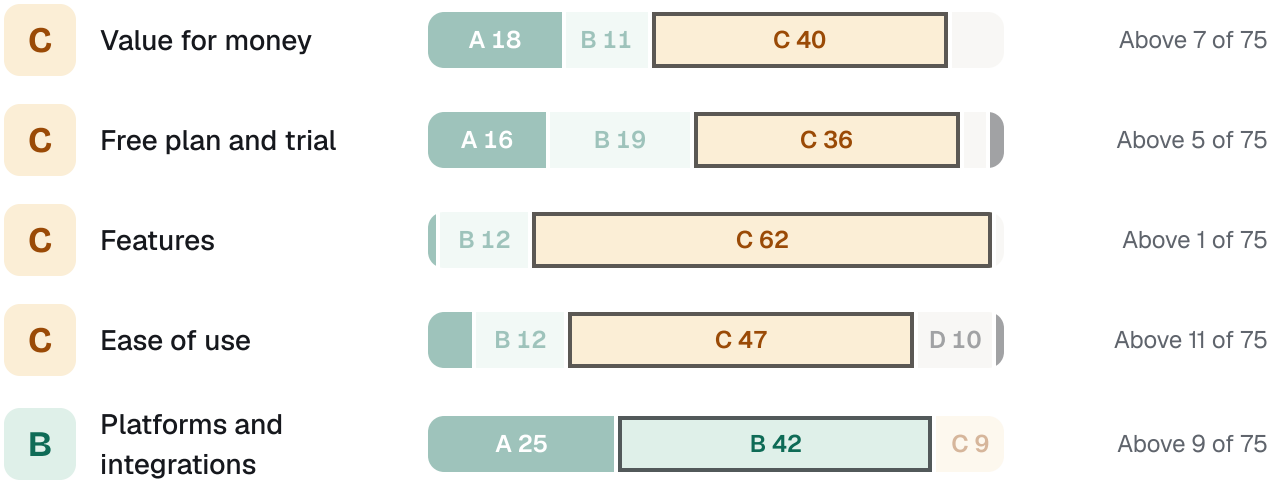

It stands best on platforms and integrations (B, above 9 of 75) and worst on features (C, above 1).

Its paid plans start at $6 a month for each person, against a middle price of $6.90 for the category: 21 of the 51 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 16 tools score higher and cost less.

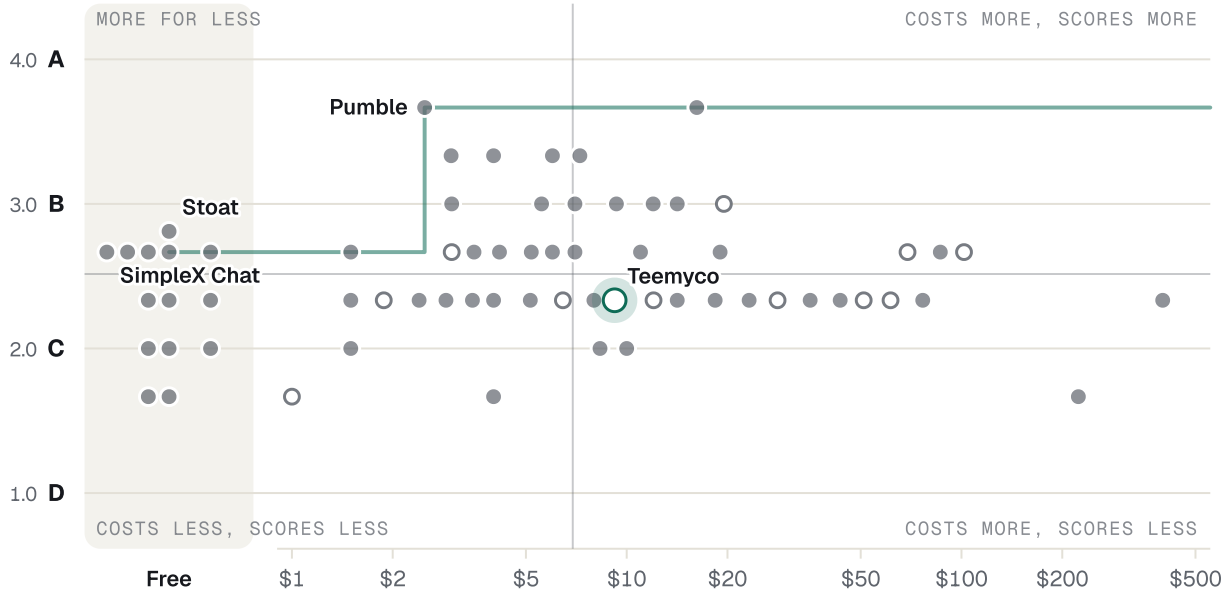

Each grade against the category

Every bar is all 76 team communication apps we grade, cut by the letter each got. Teemyco's own letter is outlined.

Price against what you get

Each dot is one of 66 team communication apps. Further left costs less; higher up scores better on features, ease of use and platforms. Teemyco is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Teemyco you would be making chat that a whole team counts on staying up. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 47 of the 75 other team communication apps grade higher. It costs $72 a year.

What you could make

- Calendar: an app builder makes this well.

What you could not

- Chat that a whole team counts on staying up.

- Video calls.
- Apps for macOS, Windows, Linux, iOS and Android that stay in step with each other.
- It is priced for each person, which means accounts and billing for a team.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Teemyco's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
