07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Tennr's own pages, its app-store listings and our grades. Every fact in it is on Tennr's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 0 of the 178 other AI agents we grade

Tennr is an AI platform for the administrative side of patient intake at healthcare providers. It reads faxed referrals and orders, checks them against payer requirements, and handles calls and patient messages that move a patient to care. Pricing is not published.

To get you started, here are **7 things to know about Tennr**, taken from its own pages and our grades.

> **No store rating on record, and it must be connected to your record and referral systems.**
>
> From our grade for ease of use

1 **Best for AI for referral and order paperwork in healthcare**

There is only a demo booking form, no price or trial, and the savings figures on the site are the vendor's claims.

2 **It runs on Web**

Web.

3 **Referral and order intake**

Extracts patient and order details from faxed referrals and validates them.

4 **Order validation**

Checks a document set against payer requirements before submission.

5 **Records retrieval**

Looks up missing records through health information exchange and FHIR connections.

6 **A 1.6 GPA, above 0 of 178**

That is against the other AI agents we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Tennr you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

Tennr at a glance

PRICING Paid	FREE PLAN No
FREE TRIAL None stated	RUNS ON Web
MADE BY Tennr	CATEGORY AI Agents
OUR GRADE 1.6 GPA, weak	

The report card

Best for AI for referral and order paperwork in healthcare

Tennr is AI that handles referral and order intake for healthcare groups: validating orders, fetching records, checking eligibility and messaging

patients. There is only a demo booking form, no price or trial, and the savings figures on the site are the vendor's claims.

TOOLGPA REPORT CARD	Tennr	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the site offers only a demo booking form, so it stays at the ordinary grade.
Free plan and trial	F	No free plan and no trial are listed anywhere on the site.
Features	C	Referral and order intake, validation, records retrieval, eligibility checks and patient messaging. It is aimed at one back-office job in healthcare.
Ease of use	C	No store rating on record, and it must be connected to your record and referral systems.
Platforms and integrations	C	Web only, and the listing names no integrations.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Tennr is for

- ✓ Fits if your clinic or supplier drowns in faxed referrals and orders
- ✓ Works for groups that want eligibility checks done before the appointment

Who it is not for

- ✕ Skip it if you want a price first, as only a demo form is offered
- ✕ Not for you if you want a trial: there is none
- ✕ Watch out: figures such as $1 billion in saved denials are the vendor's claims
- ✕ Watch out: no connected systems are listed, so ask about yours

Good to know

Good for

- ✓ Infusion centers, specialty pharmacies and DME suppliers processing many referrals
- ✓ Hospitals and physician groups with fax-heavy intake

Worth knowing

- ⓘ No prices are published; the site offers only a demo booking form.
- ⓘ Customer results such as the $1 billion in saved denials are vendor claims.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Tennr's current pricing could not be confirmed from its own site.

> **No price is published; the site offers only a demo booking form, so it stays at the ordinary grade.**
>
> From our grade for value for money

We could not confirm Tennr's current prices from its own site, so this guide lists no plans. tennr.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI for healthcare referrals, intake and prior authorization. Here is what it does, as its own site describes it, and what it covers: AI features, workflow automation, AI agents.

> **Referral and order intake, validation, records retrieval, eligibility checks and patient messaging.**
>
> From our grade for features

Referral and order intake

Extracts patient and order details from faxed referrals and validates them.

Order validation

Checks a document set against payer requirements before submission.

Records retrieval

Looks up missing records through health information exchange and FHIR connections.

Eligibility checks

Runs digital eligibility checks and qualification review during intake.

Patient messaging

Sends appointment confirmations and other patient messages.

Where it runs

Web

What it works with

Its own pages name no integrations.

Tennr is made by Tennr.

Where it stands

Its grades against its category, and whether to keep it or make your own

0/178

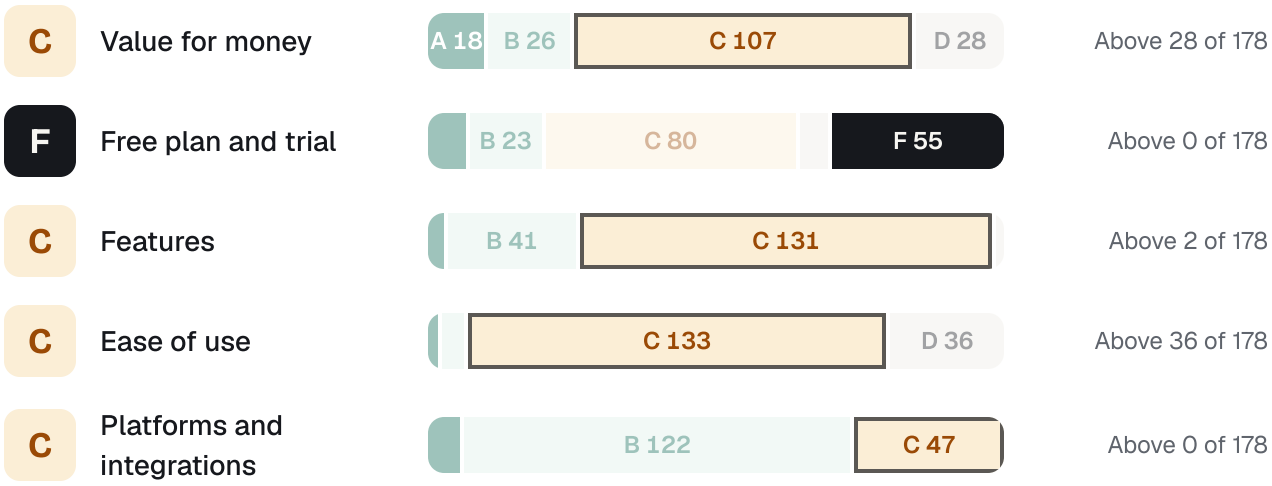

Other AI agents it is graded above

Tennr's GPA of 1.6 is higher than 0 of the 178 other AI agents we grade, and level with 29.

It stands best on ease of use (C, above 36 of 178) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 179 AI agents we grade, cut by the letter each got. Tennr's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Tennr you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 149 of the 178 other AI agents grade higher.

What you could not

- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ Connections to other products, each kept working as those products change.

What this rests on. Tennr's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Assort Health, Sully AI, Ema, Beam AI and Kognitos

The 5 tools Tennr is most often weighed against, with where each one differs from it.

1.6 GPA

Assort Health

Paid

AI voice agents for patient calls at specialty medical practices.

- Tennr also covers workflow automation.
- Assort Health also covers appointment booking.

Tennr and Assort Health compared in full
