07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Teramind's own pages, its app-store listings and our grades. Every fact in it is on Teramind's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 8 of the 98 other time tracking apps we grade

Teramind is workforce monitoring software that records user activity on company computers, including apps, websites, email, file transfers and screens. Behavior rules score risk and block actions, and productivity reports and time tracking sit alongside the security tooling. It runs in the cloud or on your own servers across four tiers.

To get you started, here are **8 things to know about Teramind**, taken from its own pages and our grades.

> **It publishes no dollar prices we could read, and recording keystrokes and messages needs care under local privacy law.**
>
> From our report card of Teramind

1 **Best for employee monitoring and insider-risk tracking**

Teramind records screens, activity and behaviour, with data loss prevention on the upper tiers.

2 **You can try it first**

Free trial offered, no credit card required; length not stated

3 **It runs on 3 platforms**

Web, Windows and macOS.

4 **Screen recording and live view**

Visual evidence capture with live playback, plus optional audio, full-text search of recordings and recording only during rule violations.

5 **Activity tracking**

Logs websites and applications, email, file transfers, keystrokes, clipboard use, printing and time tracking, with the depth set by the tier.

6 **Behavior rules and risk scoring**

Rules and policies flag insider threats and anomalies and score user risk; Starter has limited rules and UAM adds unlimited activity-based rules.

7 **A 2.0 GPA, above 8 of 98**

That is against the other time tracking apps we grade, on value, the free plan, features, ease of use and platforms.

8 **Your call**

A time tracker at its plainest is a start button, a stop button and a table of hours.

Teramind at a glance

PRICING Free trial	FREE PLAN No
FREE TRIAL Free trial offered, no credit card required; length not stated	RUNS ON Web, macOS, Windows

OUR GRADE 2.0 GPA, fair	

The report card

Best for employee monitoring and insider-risk tracking

Teramind records screens, activity and behaviour, with data loss prevention on the upper tiers. It publishes no dollar prices we could read, and recording

keystrokes and messages needs care under local privacy law.

TOOLGPA REPORT CARD	Teramind	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No dollar price could be read from the page, so it sits in the middle where nothing contradicts the category.
Free plan and trial	C	A free trial with no card needed, but its length is not stated, and there is no free plan.
Features	C	Screen recording, activity tracking and behaviour rules, but keystroke logging and forensics start on the UAM tier and content-based DLP on the DLP tier.
Ease of use	C	No store rating on record. Agents and rules need setting up and tuning.
Platforms and integrations	C	Web with Windows and Mac agents, cloud or self-hosted, and no integrations or phone apps on record.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Teramind is for

- ✓ Fits if you need to monitor staff screens and flag risky behaviour
- ✓ Works for security teams that want cloud or self-hosted data

Who it is not for

- ✗ Skip it if you want a published price, as the page shows local-currency seat prices only
- ✗ Not for you if you only want simple hours, as it is a monitoring product
- ✗ Watch out: keystroke logging and SIEM integration start on the UAM tier
- ✗ Watch out: recording screens, keystrokes and messages may need consent under local employment and privacy law
- ✗ Pricey if you need Enterprise or Government, which is quoted by sales

Good to know

Good for

- Security and compliance teams watching insider risk
- Call centers and finance firms that need recorded evidence
- Organizations that want monitoring and DLP in one platform

Worth knowing

- No dollar prices could be read: the pricing page shows per-seat prices in local currency, so none are recorded here.
- Pricing is per seat with a 5-seat starting point on the page's selector, and Enterprise and Government is quoted by sales.
- Keystroke logging, complete forensics and SIEM integration start on the UAM tier, and content-based DLP on the DLP tier.
- Recording screens, keystrokes and messages is invasive, so check local employee-monitoring and privacy law before deploying.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Teramind's current pricing could not be confirmed from its own site.

> **No dollar price could be read from the page, so it sits in the middle where nothing contradicts the category.**
>
> From our grade for value for money

We could not confirm Teramind's current prices from its own site, so this guide lists no plans. teramind.co has them.

PART 03 · FEATURES

What it does

Its main features, where it runs, what it works with and who makes it

3

Places it runs: Web, macOS and Windows

Employee monitoring, insider risk and data loss prevention. Here is what it does, as its own site describes it, and what it covers: time tracking, reports, dashboards.

> **Web with Windows and Mac agents, cloud or self-hosted, and no integrations or phone apps on record.**
>
> From our grade for platforms and integrations

Screen recording and live view

Visual evidence capture with live playback, plus optional audio, full-text search of recordings and recording only during rule violations.

Activity tracking

Logs websites and applications, email, file transfers, keystrokes, clipboard use, printing and time tracking, with the depth set by the tier.

Behavior rules and risk scoring

Rules and policies flag insider threats and anomalies and score user risk; Starter has limited rules and UAM adds unlimited activity-based rules.

Data loss prevention

The DLP tier adds content-based rules, sensitive-data detection, redaction and blocking, with 200 pre-packaged rules.

AI governance

UAM and above record AI conversations and control data sent to AI tools, a feature set the vendor calls agentic AI governance.

Cloud or self-hosted

Customers log in to a cloud dashboard or a self-hosted portal, and the vendor lists Windows, Mac, Citrix and VMware support.

Where it runs

Web · macOS · Windows

What it works with

Its own pages name no integrations.

Teramind is made by Teramind Inc.

Where it stands

Its grades against its category, and whether to keep it or make your own

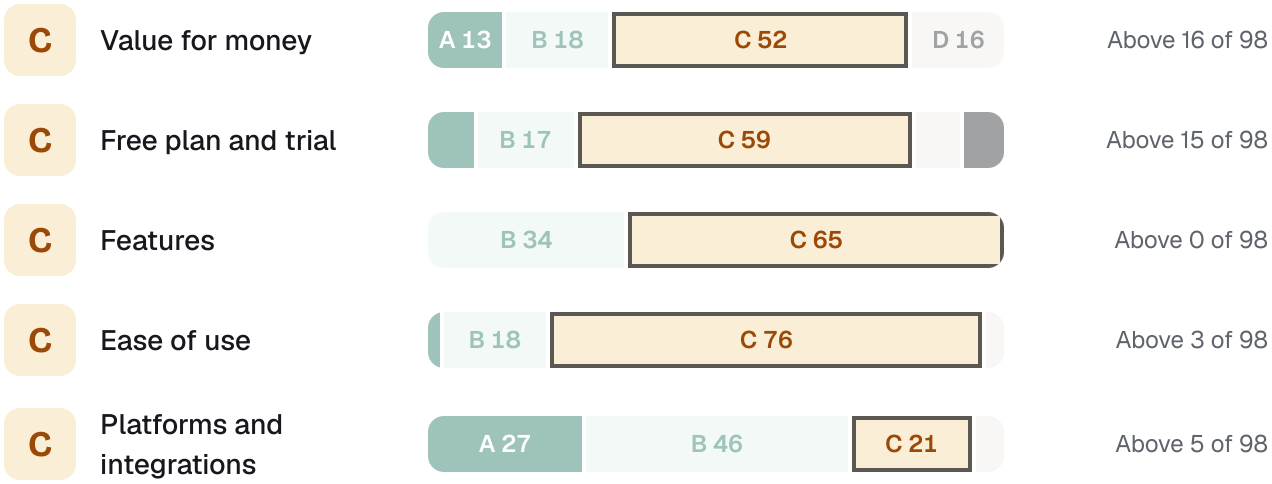

8/98

Other time tracking apps it is graded above

Teramind's GPA of 2.0 is higher than 8 of the 98 other time tracking apps we grade, and level with 14.

Each grade against the category

Every bar is all 99 time tracking apps we grade, cut by the letter each got. Teramind's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

A time tracker at its plainest is a start button, a stop button and a table of hours.

You could make the core of Teramind for yourself: time tracking and reports. What you would give up is listed below. Whether that is worth the price is your call.

What you could make

- Time tracking and reports: an app builder makes these well.

What you could not

- × Connections that pull numbers from dozens of other services.
- × A real app for macOS and Windows. Something home-made would be a web page.

What this rests on. Teramind's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

Hubstaff, Time Doctor, ActivTrak, DeskTime and KeepActive (formerly Kickidler)

The tools it is most often weighed against, side by side

The 5 tools Teramind is most often weighed against, with where each one differs from it.

2.6 GPA

Hubstaff

Free trial · from $4.99/mo

Time tracking with screenshots, activity levels and payroll.

- Only Hubstaff lists Linux, iOS and Android apps.
- Only Hubstaff lists a browser extension.
- Teramind also covers dashboards.

Teramind and Hubstaff compared in full

2.4 GPA

Time Doctor

Free trial · from $6.67/mo

Employee time tracking and workforce analytics for remote teams.

- Only Time Doctor lists Linux, iOS and Android apps.
- Only Time Doctor lists a browser extension.
- Teramind also covers dashboards.

Teramind and Time Doctor compared in full

2.2 GPA

ActivTrak

Free plan · from $10/mo

Workforce analytics that tracks activity and work time automatically.

- ActivTrak has a free plan. Teramind does not, though it has a free trial.
- Only Teramind lists Windows and macOS apps.
- ActivTrak also covers site & app blocker.

Teramind and ActivTrak compared in full

2.6 GPA

DeskTime

Free trial · from $6.42/mo

Automatic time tracking and productivity monitoring for teams.

- Only DeskTime lists Linux, iOS and Android apps.
- Teramind also covers dashboards.

Teramind and DeskTime compared in full

2.0 GPA

KeepActive (formerly Kickidler)

Free trial · from $4.17/mo

Employee monitoring and time tracking with screenshots and recordings.

- Only Teramind lists a web app.
- Only KeepActive (formerly Kickidler) lists a Linux app.
- KeepActive (formerly Kickidler) is self-hostable, according to its own site.

Teramind and KeepActive (formerly Kickidler) compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

9

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Teramind free?

No, Teramind is a paid product, but you can try it first. Free trial offered, no credit card required; length not stated.

What platforms does Teramind work on?

Teramind is available on Web, Windows and macOS.

Does Teramind have an Android app?

No Android app was listed when its pages were read on Nov 12, 2026. Teramind is listed for Web, Windows and macOS.

Does Teramind have an iPhone app?

No iPhone app was listed when its pages were read on Nov 12, 2026. Teramind is listed for Web, Windows and macOS.

Is Teramind open source?

Teramind is not described as open source on its own site, as read on Nov 12, 2026.

Who makes Teramind?

Teramind is made by Teramind Inc.

What are the alternatives to Teramind?

The closest alternatives to Teramind in our directory are Hubstaff, Time Doctor, ActivTrak, DeskTime and KeepActive (formerly Kickidler).

How does Teramind compare with other time tracking apps?

Teramind's GPA of 2.0 is higher than 8 of the 98 other time tracking apps we grade, and level with 14.

Could I make my own version of Teramind?

A time tracker at its plainest is a start button, a stop button and a table of hours.

Where this guide comes from

The prices, plans, platforms and features were read from Teramind’s own pages on Nov 12, 2026, and the grades were given on Nov 12, 2026. Graded from this listing, whose facts were read from Teramind's own pages on 12 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA’s own work; it is not made, paid for or approved by Teramind Inc. Prices change, so check teramind.co before you buy.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
