Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 6 of the 168 other AI image and video generators we grade

ThinkDiffusion rents a dedicated cloud machine that runs open-source image and video apps such as Automatic1111, ComfyUI, Fooocus, Forge and Kohya. You pay by the hour for the machine, or take a subscription that adds monthly credit, storage and discounted hourly rates.

To get you started, here are **9 things to know about ThinkDiffusion**, taken from its own pages and our grades.

1 Best for renting a cloud machine for ComfyUI and Automatic1111

ThinkDiffusion rents you a cloud machine that runs open-source image apps such as ComfyUI, Automatic1111 and Kohya, billed by the hour from $0.99, or via a subscription that adds credit and discounts.

2 Paid plans start at $19.99 a month

As its pricing page puts it: $19.99 per month, billed yearly ($29.99 billed monthly).

3 You can try it first

15 minutes of machine time free with every sign-up.

4 It runs on Web

Web.

5 **Dedicated cloud machines**

Each user gets a dedicated GPU with a private drive, started in one click, with no local install or heavy hardware.

6 **Several open-source apps**

Launch Automatic1111, ComfyUI, Fooocus, Forge or Kohya, and run more than one machine at once.

7 **Bring your own models**

Upload checkpoints, LoRAs, embeddings and safetensors from Civitai, Hugging Face or your computer, and install extensions or ComfyUI nodes.

8 **A 1.6 GPA, above 6 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace ThinkDiffusion you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	TD-Pro is $19.99 a month billed yearly, inside the dearer quarter of AI image tools, but machine time is billed by the hour on top, from $0.99, with only 20% off.
Free plan and trial	D	A one-time 15 minutes of machine time at sign-up. Hobby storage lasts 48 hours.
Features	C	Dedicated machines running several open-source apps, your own models, team workspaces and training. It's a rented computer, not a finished tool.
Ease of use	D	No rating on record. You work inside tools like ComfyUI and Kohya, which takes learning.
Platforms and integrations	C	Web access to a cloud machine, with Civitai and Hugging Face links. No apps and no API listed.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who ThinkDiffusion is for

- ✓ Fits if you already know ComfyUI or Automatic1111 and lack a graphics card
- ✓ Makes sense if you need a machine for a few hours, not a monthly plan

Who it is not for

- ✗ Not for you if you want a simple prompt box, as the apps are the open-source ones
- ✗ Watch out: machine time is billed by the hour on every plan
- ✗ Tight on Hobby: storage lasts 48 hours and files are reachable only while a machine runs
- ✗ Pricey if you add people: TD-Teams is $59.99 with 2 members, and $6 for each more
- ✗ Skip it if you want a free allowance, as the 15 minutes is one-time

Good to know

Good for

- ✓ Hobbyists who want ComfyUI or Automatic1111 without a local GPU
- ✓ Teams that need shared, private workspaces for generated assets
- ✓ People who generate in bursts and prefer paying by the hour

Worth knowing

- ⓘ Hobby storage lasts 48 hours and files are reachable only while a machine is running.
- ⓘ Machine time is billed by the hour on every plan; Pro and Teams only discount the rate by 20%.
- ⓘ TD-Teams includes 2 members; each extra member is $6 a month, and extra workspace storage is $10 to $20 a month.
- ⓘ The only free allowance is a one-time 15 minutes at sign-up, not a monthly one.

Where it stands

Its grades against its category, and whether to keep it or make your own

6/168

Other AI image and video generators it is graded above

ThinkDiffusion's GPA of 1.6 is higher than 6 of the 168 other AI image and video generators we grade, and level with 7.

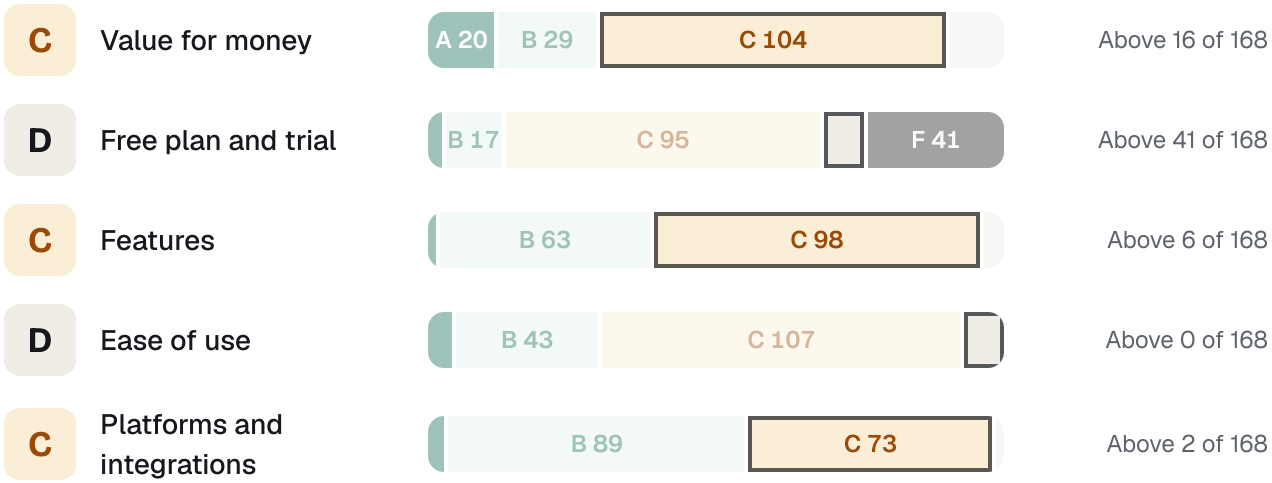

It stands best on value for money (C, above 16 of 168) and worst on ease of use (D, above 0).

Its paid plans start at $19.99 a month, against a middle price of $11.88 for the category: 96 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 1.7 out of 4. 98 tools score higher and cost less.

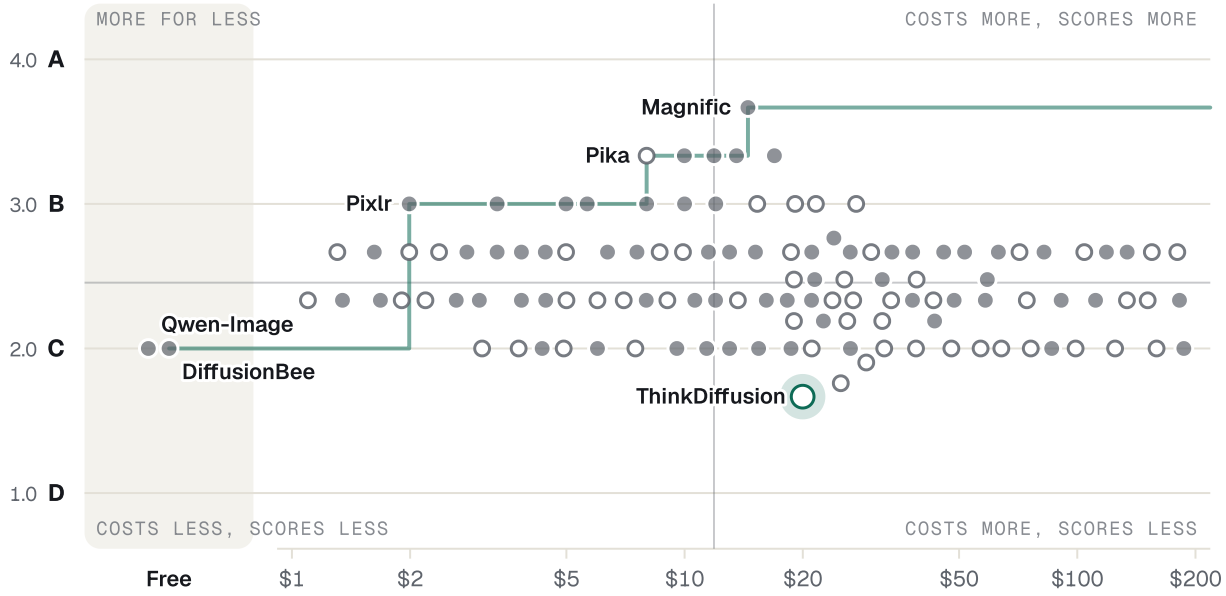

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. ThinkDiffusion's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. ThinkDiffusion is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace ThinkDiffusion you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 155 of the 168 other AI image and video generators grade higher. It costs $239.88 a year.

What you could not

- An image model, which you can rent by the picture but not make.
- A video model, which you can rent by the second but not make.

× People on the other end: coaches. No app builder makes those.

What this rests on. ThinkDiffusion's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
