Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 49 of the 79 other event ticketing platforms we grade

Ticketebo is a UK online ticketing and event registration service for festivals, shows, club events and charity nights. Organizers pay nothing to set up; a booking fee is added to each order, by default paid by the buyer. Entry scanning runs on ordinary smartphones, and paid extras such as door staff and device hire are quoted separately.

>
> **You build the event page and connect Stripe if you want early payout.**
>
> From our grade for ease of use

To get you started, here are **8 things to know about Ticketebo**, taken from its own pages and our grades.

1 **Best for UK events with no organiser fees**

Money is paid after the event by default, staffing and device hire cost extra, and the listing mentions no seating plans.

2 **It is free**

Ticketebo has no paid plan at all. No set-up, registration or monthly fees. Free events are free for organizers and buyers; on paid events a booking fee of 4.95% of the order (minimum 75p) is charged, normally to the buyer.

3 **It runs on 3 platforms**

Web, iOS and Android.

4 **Custom event pages**

Branded ticket pages that follow the look of the organizer's own website.

5 **Entry scanning app**

A free entry manager app scans tickets on standard smartphones; the site says device hire is available at extra cost.

6 **Booking fee options**

The fee can be shown to buyers or deducted from ticket revenue instead; card processing costs are covered by it.

7 **A 2.6 GPA, above 49 of 79**

That is against the other event ticketing platforms we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

Ticketebo is free, so making your own would save you nothing.

Best for UK events with no organiser fees

Ticketebo is free to use and charges the buyer 4.95% of the order, with a 75p minimum, unless you absorb it. Money is paid after the event by default, staffing and device hire cost extra, and the listing mentions no seating plans.

TOOLGPA REPORT CARD	Ticketebo	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	No set-up or monthly fee, with a 4.95% booking fee (75p minimum) on paid orders, normally paid by the buyer.
Free plan and trial	B	Free events are free for organisers and buyers, and no plan needs paying for. Only paid orders carry a fee.
Features	C	Event pages, a scanning app, live reports and fee options are there, but payout comes after the event and staffing is a paid extra.
Ease of use	C	No store rating on record. You build the event page and connect Stripe if you want early payout.
Platforms and integrations	B	Web with a free scanning app for phones, plus Stripe for early payouts.
Grade point average		Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Ticketebo is for

- ✓ Fits if you run small UK events and want no upfront cost
- ✓ Works for charity, club and community events

Who it is not for

- ✗ Watch out: you are paid after the event by default, unless you set up Stripe
- ✗ Skip it if you want seating plans, as the listing shows none
- ✗ Pricey if you absorb the fee on large orders, at 4.95% of the order
- ✗ Watch out: staffing and device hire cost extra and have no listed price

Good to know

Good for

- ✓ UK organizers of small and mid-size events who want no upfront cost
- ✓ Charity, club and community events
- ✓ Organizers who want to pass the fee to ticket buyers

Worth knowing

- ⓘ Prices are in pounds; the booking fee is 4.95% of the order incl. VAT with a 75p minimum per order, not a per-ticket charge.
- ⓘ Default payout comes after the event, so sales money is not available during the campaign unless the Stripe option is set up.
- ⓘ Premium services such as staffing and device hire cost extra and are priced by contacting the company.
- ⓘ The Stripe early-payout option requires a Stripe account and adds Stripe's own transaction fees.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

49/79

Other event ticketing platforms it is graded above

Ticketebo's GPA of 2.6 is higher than 49 of the 79 other event ticketing platforms we grade, and level with 11.

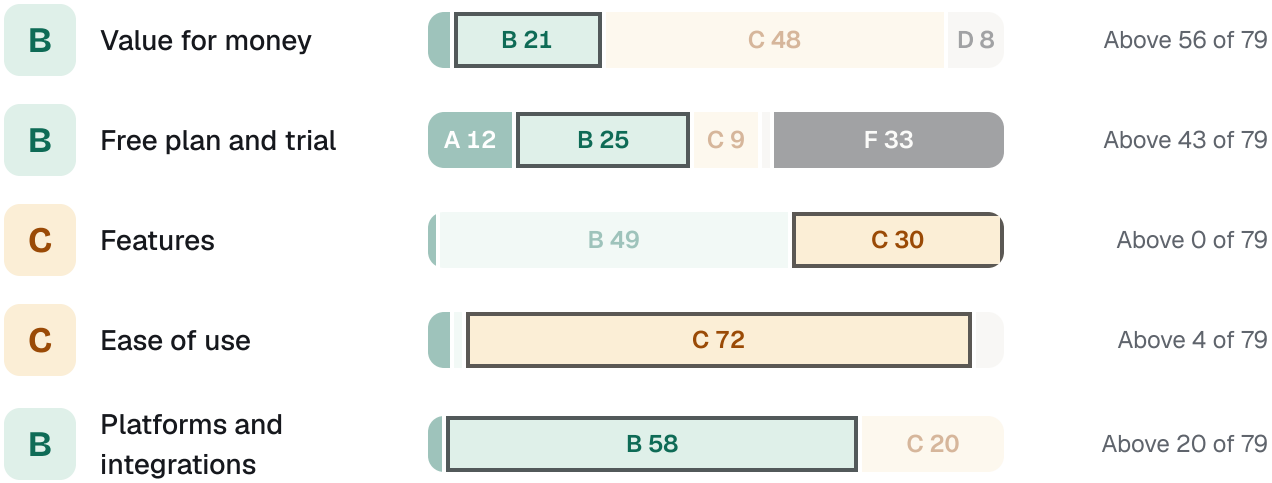

It stands best on value for money (B, above 56 of 79) and worst on features (C, above 0).

Ticketebo has no paid plan.

On features, ease of use and platforms it scores 2.3 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

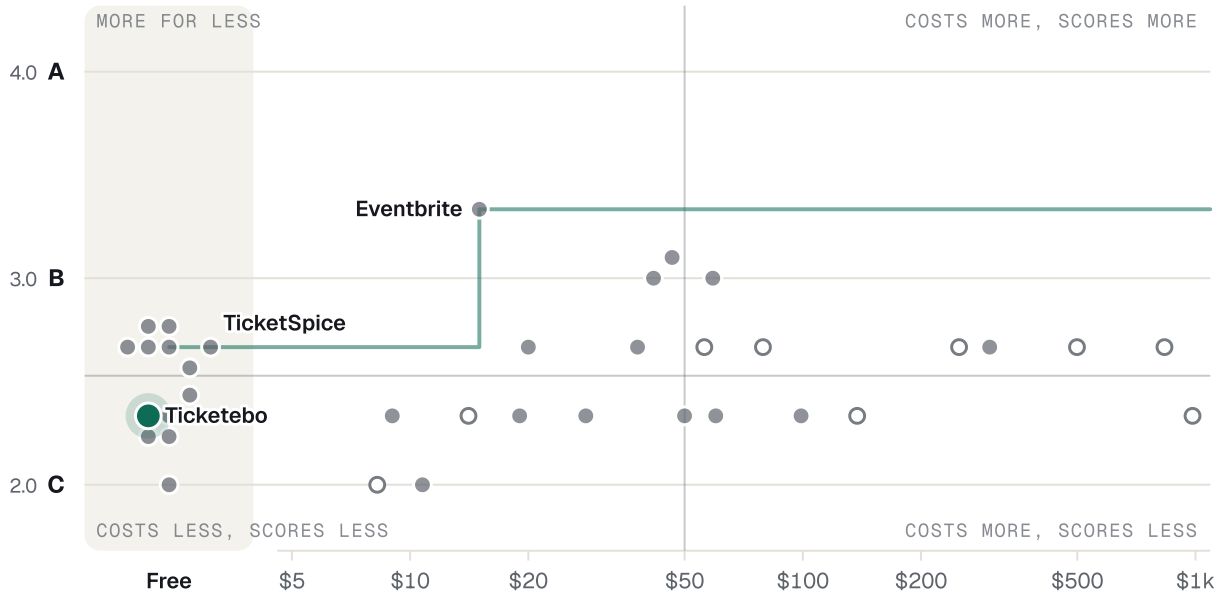

Each grade against the category

Every bar is all 80 event ticketing platforms we grade, cut by the letter each got. Ticketebo's own letter is outlined.

Price against what you get

Each dot is one of 36 event ticketing platforms. Further left costs less; higher up scores better on features, ease of use and platforms. Ticketebo is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Ticketebo is free, so making your own would save you nothing.

And it is not the kind of software a weekend replaces.

What you could make

- QR codes and reports: an app builder makes these well.

What you could not

- Selling tickets and checking them at the door.
- Scanning barcodes with a phone camera or a scanner.

- A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Ticketebo's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
