Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 4 of the 98 other time tracking apps we grade

Timerack is cloud time and attendance software aimed at staffing agencies that manage many workers across clients and assignments. It collects punches from its own time clocks, kiosks and a mobile app, applies pay and bill rules, and passes the results to applicant tracking and payroll systems.

To get you started, here are **7 things to know about Timerack**, taken from its own pages and our grades.

1 **Best for time and attendance for staffing agencies**

Timerack tracks hours by assignment for staffing agencies, with clocks, kiosks and a mobile app.

2 **It runs on Web**

Web.

3 **Assignment-based time tracking**

Employees are managed by assignment, with several pay and bill rates per worker across clients and locations.

4 **Time clocks, kiosk and mobile app**

Punches come from the vendor's hardware clocks, a mobile kiosk or a mobile app with geofencing and photo capture.

5 **Pay and bill rules**

Rules and exception-based workflows calculate pay and billing from the collected hours, aimed at pay and bill errors.

6 **A 1.8 GPA, above 4 of 98**

That is against the other time tracking apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of Timerack you could make: time tracking, time off and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

Best for time and attendance for staffing agencies

Timerack tracks hours by assignment for staffing agencies, with clocks, kiosks and a mobile app. There's no published price or trial, it's built for staffing only, and rollout can mean hardware.

TOOLGPA REPORT CARD	Timerack	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No prices published. The site points to a demo request, so the cost is unverified.
Free plan and trial	F	No free plan or trial on the pages we read.
Features	C	Assignment rates, pay and bill rules, clocks, geofencing and integrations with staffing systems. It covers staffing only.
Ease of use	C	No store rating on record. Clocks, kiosks and staffing-system links mean a real rollout.
Platforms and integrations	B	Web, kiosk and a mobile app, with Aqore, Avionté, Tempworks and other staffing systems. The listing doesn't say which phones the app runs on.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Timerack is for

- ✓ Fits if you run a staffing agency with many pay and bill rates per worker
- ✓ Works for firms that want clocks and kiosks at client sites

Who it is not for

- ✕ Skip it if you aren't a staffing business, as the pages describe nothing else
- ✕ Not for you if you want a price list, since cost needs a demo request
- ✕ Tight if you want to try it free, as no trial is listed
- ✕ Watch out: the vendor's own clocks and kiosks may mean hardware costs, and the phone platforms aren't stated

Good to know

Good for

- ✓ Staffing agencies that bill clients by assignment and pay rate
- ✓ Agencies already on one of the ATS platforms it lists
- ✓ Firms that want clocks, kiosks and software from one vendor

Worth knowing

- ⓘ No prices are published; the site points to a demo request, so the cost is unverified.
- ⓘ It is built for the staffing industry and its pages do not describe use for other kinds of businesses.
- ⓘ The vendor's mobile app page lists features but does not say which phone platforms it supports.
- ⓘ Punch capture leans on the vendor's own clocks and kiosks, so a rollout can involve hardware as well as software.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Timerack's current pricing could not be confirmed from its own site.

Assignment-based time tracking

Employees are managed by assignment, with several pay and bill rates per worker across clients and locations.

Time clocks, kiosk and mobile app

Punches come from the vendor's hardware clocks, a mobile kiosk or a mobile app with geofencing and photo capture.

Pay and bill rules

Rules and exception-based workflows calculate pay and billing from the collected hours, aimed at pay and bill errors.

ATS and payroll integrations

Lists Aqore, Avionté, Carvin Software, COATS, Greenfield and Tempworks as staffing systems it connects to.

Identity checks

Options include biometrics with attestation, intended to deter buddy punching and confirm who clocked in.

Dashboards and analytics

Real-time dashboards and reports show hours at the employee or department level across clients and sites.

Where it stands

Its grades against its category, and whether to keep it or make your own

4/98

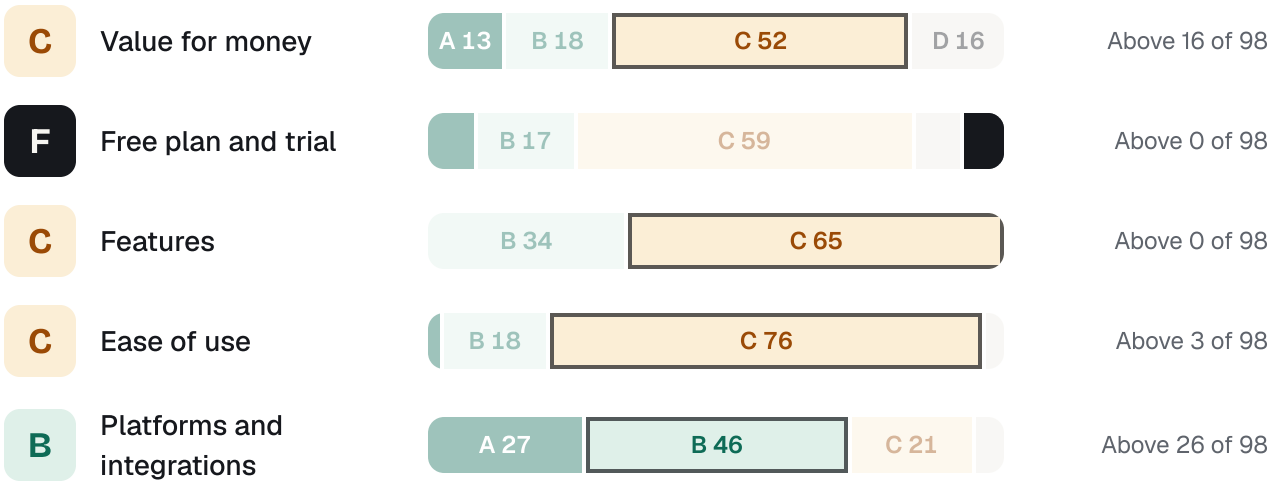

Other time tracking apps it is graded above

Timerack's GPA of 1.8 is higher than 4 of the 98 other time tracking apps we grade, and level with 3.

It stands best on platforms and integrations (B, above 26 of 98) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 99 time tracking apps we grade, cut by the letter each got. Timerack's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Timerack you could make: time tracking, time off and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 91 of the 98 other time tracking apps grade higher.

What you could make

- Time tracking, time off and reports: an app builder makes these well.

What you could not

- Clocking in from a phone, checked against where and when.
- Connections that pull numbers from dozens of other services.
- It plugs into other products, Aqore, Avionté and Carvin Software among them, and has an API.

What this rests on. Timerack's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
