1.6

GPA, above 1 of the 101 other HR software we grade

To get you started, here are **7 things to know about TINYpulse**, taken from its own pages and our grades.

1 **Best for short employee feedback surveys**

TINYpulse is a set of employee feedback surveys, now part of WebMD Health Services, and the old tinypulse.com address redirects there.

2 **It runs on Web**

Web.

3 **Engagement feedback surveys**

Surveys and reports meant to show what drives engagement, with analytics on the results.

4 **Anonymous two-way communication**

Employees can send candid feedback anonymously and managers can reply within the platform.

5 **Cheers for Peers**

Peer recognition built into the platform.

6 **A 1.6 GPA, above 1 of 101**

That is against the other HR software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of TINYpulse you could make: surveys and reports. What surrounds it you could not. The 1 things listed below take a company, not a weekend.

The report card

Best for short employee feedback surveys

TINYpulse is a set of employee feedback surveys, now part of WebMD Health Services, and the old tinypulse.com address redirects there. The page gives no price, plan or trial, only a demo request form. It's a feedback tool, and nothing on the page shows more than that.

TOOLGPA REPORT CARD	TINYpulse	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there's nothing to set against the $2 to $9 a seat a month this category charges. That leaves it at C.
Free plan and trial	F	No free plan or trial, only a demo request form.
Features	C	Surveys and feedback, with a customer success manager named. It's a smaller job than a full engagement suite, and we say so rather than mark it up.
Ease of use	C	No store rating on record, and you'd set it up with your own people data first, so it's an ordinary C.
Platforms and integrations	C	Web only on record, and no integrations are listed.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

1/101

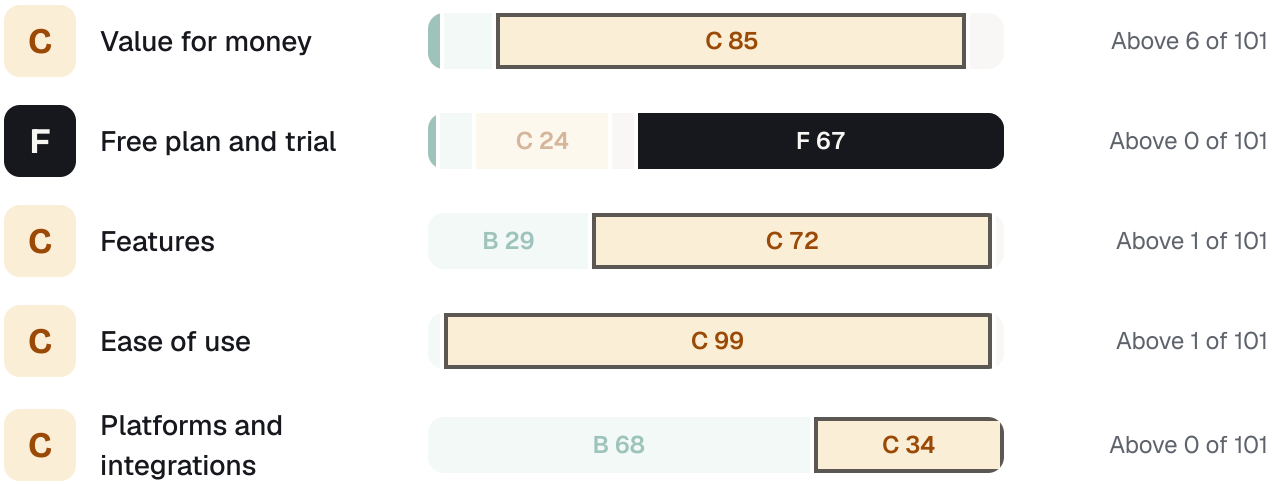

Other HR software it is graded above

TINYpulse's GPA of 1.6 is higher than 1 of the 101 other HR software we grade, and level with 20.

It stands best on value for money (C, above 6 of 101) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 102 HR software we grade, cut by the letter each got. TINYpulse's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of TINYpulse you could make: surveys and reports. What surrounds it you could not. The 1 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 80 of the 101 other HR software grade higher.

What you could make

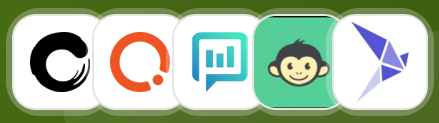

- Surveys and reports: an app builder makes these well.

What you could not

- People on the other end: coaches. No app builder makes those.

What this rests on. TINYpulse's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
