An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Totalmobile is for

- ✓ Fits if you run a large public or social care workforce
- ✓ Works for organisations that need lone worker protection and rostering with scheduling

Who it is not for

- ✗ Not for you if you run a small trade business, as the vendor describes enterprise customers
- ✗ Skip it if you want a price, because none is published
- ✗ Watch out: the mobile app's operating systems are not named
- ✗ Tight if you want to try it yourself, since the route is a demo

Good to know

Good for

- ✓ Councils, housing associations and care-at-home providers running large field workforces
- ✓ Utilities, telecoms and facilities management firms with scheduling and compliance needs
- ✓ Emergency services needing rostering and workforce management

Worth knowing

- ⓘ No prices or plans are published; the vendor directs buyers to book a demo.
- ⓘ The vendor describes enterprise customers; it is not aimed at small owner-run trade businesses.
- ⓘ The pages read do not name the operating systems the mobile working app supports.
- ⓘ The vendor lists offices in the UK, Ireland, Australia, Canada and the Nordics.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

0/87

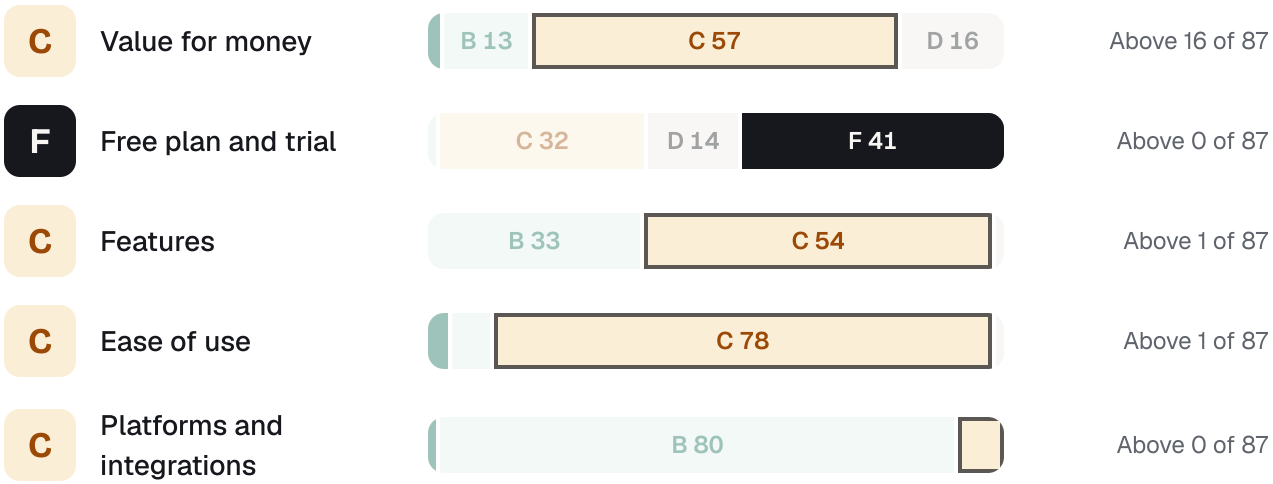

Other field service apps it is graded above

Totalmobile's GPA of 1.6 is higher than 0 of the 87 other field service apps we grade, and level with 5.

It stands best on value for money (C, above 16 of 87) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 88 field service apps we grade, cut by the letter each got. Totalmobile's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Totalmobile you could make: job scheduling, forms and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 82 of the 87 other field service apps grade higher.

What you could make

- Job scheduling, forms and reports: an app builder makes these well.

What you could not

- A rota the whole staff sees on their phones, with swaps and alerts.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Totalmobile's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
