Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 30 of the 101 other hiring and applicant tracking tools we grade

Tracker is a recruitment platform for staffing and search agencies that keeps front office (ATS and CRM), middle office (automation, onboarding, compliance) and back office (timesheets, invoicing, payroll connections) on one record. Core is listed at a public per-user price; Professional and Enterprise are quoted.

To get you started, here are **8 things to know about Tracker RMS**, taken from its own pages and our grades.

> "
>
> **Job boards and integrations need connecting before use.**
>
> From our grade for ease of use

1 **Best for an ATS and CRM for staffing agencies**

Timesheets, compliance and the candidate portal sit above Core, and the other tiers are quoted after a demo.

2 **Paid plans start at $99 a month for each person**

As its pricing page puts it: $99 per user / month, billed monthly.

3 **It runs on 3 platforms**

Web, iOS and Android.

4 **ATS and CRM on one record**

Clients, contacts, leads, jobs, candidates, placements and activity sit in one database, with unlimited job and candidate records.

5 **Job board posting and search**

Posts to 1,000+ job boards and searches boards from inside the app. The pricing page notes that board subscriptions are required.

6 **AI ranking and content**

TrackerAI ranks and matches candidates, drafts emails, job posts, screening questions and candidate summaries, and takes voice-dictated messages.

7 **A 1.8 GPA, above 30 of 101**

That is against the other hiring and applicant tracking tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Tracker RMS you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for an ATS and CRM for staffing agencies

Tracker is an ATS and CRM for staffing and search firms, with Core at $99 per user a month billed monthly. Timesheets, compliance and the candidate portal sit above Core, and the other tiers are quoted after a demo.

TOOLGPA REPORT CARD	Tracker RMS	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	Core is $99 per user a month billed monthly, between the $95 middle and $149 dearer-quarter prices for hiring tools. Professional and Enterprise are quoted.
Free plan and trial	F	No free plan and no trial on the listing.
Features	C	ATS and CRM on one record, job board posting, AI ranking, compliance, timesheets and invoicing. Timesheets, compliance, advanced automation, the candidate portal and video tools are not in Core.
Ease of use	C	No store rating on record. Job boards and integrations need connecting before use.
Platforms and integrations	B	Web, iOS and Android, with LinkedIn Recruiter, Indeed, QuickBooks, Xero and DocuSign. No desktop app.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Tracker RMS is for

- ✓ Fits if you run a staffing or executive search agency
- ✓ Works for agencies that want recruiting and invoicing in one system

Who it is not for

- ✕ Skip it if you hire for your own company only; the site is aimed at staffing and search firms
- ✕ Tight if you need timesheets or compliance, as they are not in Core
- ✕ Pricey if you need Professional or Enterprise, since only Core has a published price
- ✕ Watch out: job board posting needs separate board subscriptions
- ✕ Skip it if you want a free trial; none is listed

Good to know

Good for

- ✓ Staffing and recruiting agencies placing contract, temp or direct-hire roles
- ✓ Agencies that want timesheets, invoicing and payroll hand-offs in the same system as the ATS
- ✓ Teams that need credential tracking for placed workers

Worth knowing

- ⓘ Only Core has a published price, and it is billed monthly per user; Professional and Enterprise are quoted after a demo.
- ⓘ Timesheets, compliance tracking, advanced automation, the candidate portal and video tools are not in Core.
- ⓘ Job board posting needs separate board subscriptions.
- ⓘ It is built for agencies; the vendor's own site is aimed at staffing and search firms rather than in-house teams.

Tracker RMS is made by Tracker.

Where it stands

Its grades against its category, and whether to keep it or make your own

30/101

Other hiring and applicant tracking tools it is graded above

Tracker RMS's GPA of 1.8 is higher than 30 of the 101 other hiring and applicant tracking tools we grade, and level with 23.

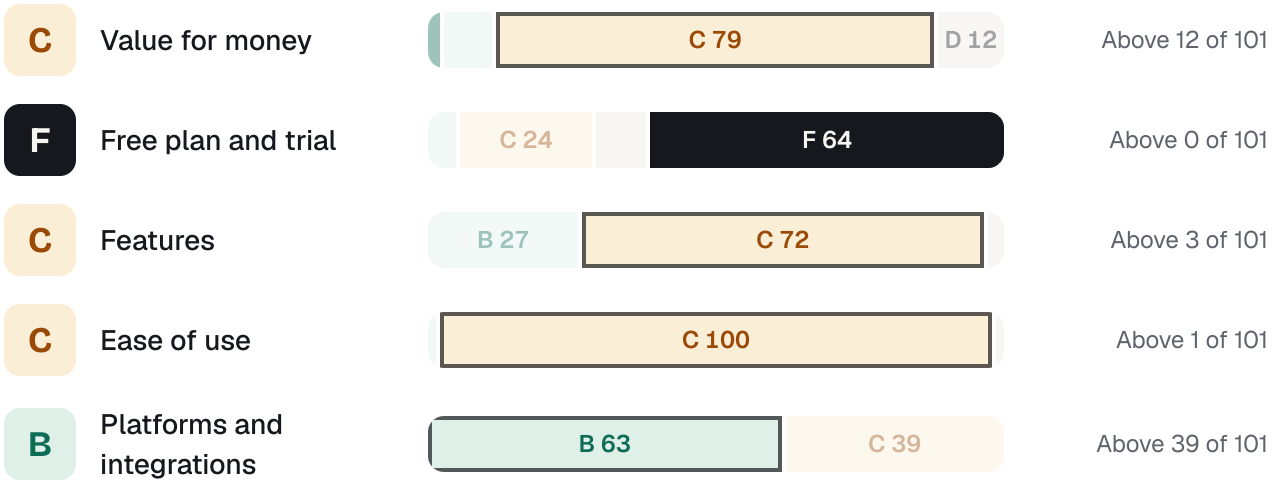

It stands best on platforms and integrations (B, above 39 of 101) and worst on free plan and trial (F, above 0).

Its paid plans start at $99 a month for each person, against a middle price of $99 for the category: 21 of the 42 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 6 tools score higher and cost less.

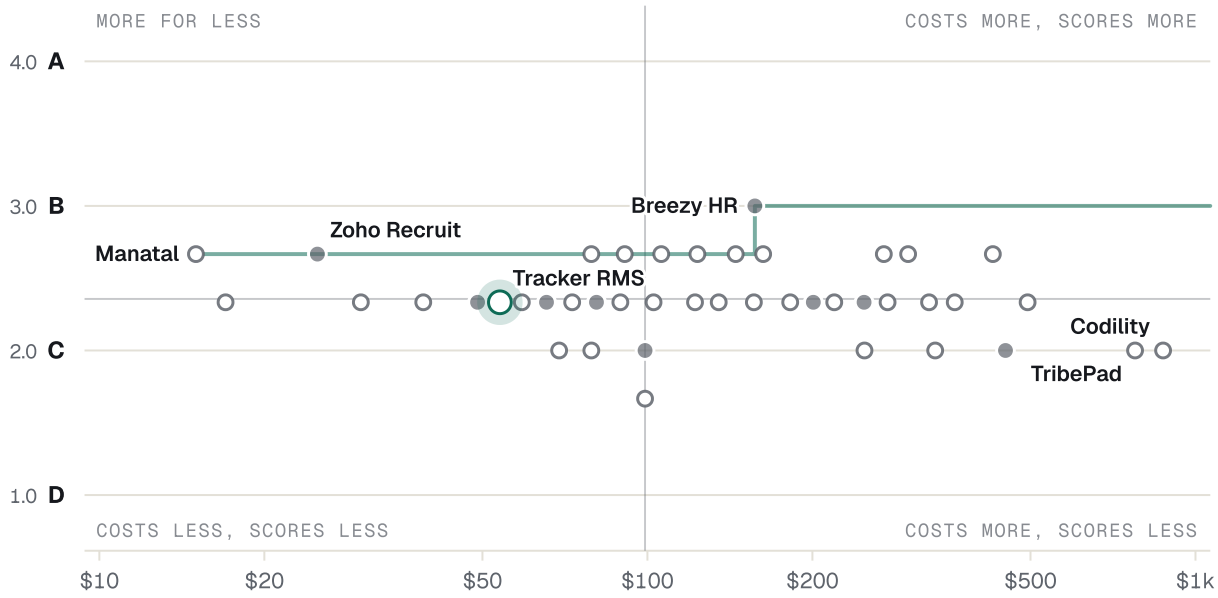

Each grade against the category

Every bar is all 102 hiring and applicant tracking tools we grade, cut by the letter each got. Tracker RMS's own letter is outlined.

Price against what you get

Each dot is one of 43 hiring and applicant tracking tools. Further left costs less; higher up scores better on features, ease of use and platforms. Tracker RMS is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Tracker RMS you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 48 of the 101 other hiring and applicant tracking tools grade higher. It costs $1,188 a year.

What you could make

- Applicant tracking, sales pipeline and reports: an app builder makes these well.

What you could not

- Jobs posted to dozens of job boards at once, which takes an agreement with each board.
- Connections to other products, each kept working as those products change.
- A real app for iOS and Android. Something home-made would be a web page.
- It is priced for each person, which means accounts and billing for a team.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Tracker RMS's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
