Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 3 of the 76 other spend and bill pay tools we grade

Tradeshift is a platform for accounts payable automation and e-invoicing compliance, with a supplier network that lets buyers and sellers exchange invoices. It also lists virtual credit cards, procure-to-pay and EDI integration. The site publishes no prices; buyers request a demo.

To get you started, here are **7 things to know about Tradeshift**, taken from its own pages and our grades.

1 **Best for e-invoicing compliance and AP automation**

Tradeshift automates accounts payable and e-invoicing compliance and runs a network that connects buyers and suppliers.

2 **It runs on Web**

Web.

3 **AP automation**

Supplier invoices are captured and routed for approval, and the site says 96.9% of invoices are processed with no manual touch.

4 **E-invoicing compliance**

Pre-configured connectors handle e-invoicing mandates, with compliance covered in 70+ countries and a registered platform for France's mandate.

5 **Tradeshift Network**

Buyers and sellers sit on one network, so suppliers are onboarded with their first invoice without needing to sign up separately.

6 **A 1.6 GPA, above 3 of 76**

That is against the other spend and bill pay tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Tradeshift you would be making money moved between bank accounts, which takes a licensed payments partner. That is not a weekend's work, with an AI app builder or without one.

Tradeshift

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the site asks you to request a demo or contact sales. Suppliers may be charged separately too, per a Supplier Subscriptions topic in its support centre.
Free plan and trial	F	No free plan and no trial on the listing; the way in is a demo request.
Features	C	AP automation, e-invoicing compliance, a supplier network, virtual cards and EDI. It covers invoices and payables, not receipts or employee expense reports.
Ease of use	C	No store rating on record. The site says most customers need extensive customization, so rollout is a project.
Platforms and integrations	C	Web only on the listing, with no integrations named.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Tradeshift is for

- ✓ Fits if you run a large accounts payable team that needs e-invoicing compliance
- ✓ Works for companies that want suppliers on one invoicing network

Who it is not for

- ✗ Skip it if you need employee expense reports or receipt capture, as it handles neither
- ✗ Not for you if you want a quick sign-up, since rollout is a customization project
- ✗ Pricey if you hope to learn the cost up front, because no price is published
- ✗ Watch out: suppliers can be charged separately; the support centre has a Supplier Subscriptions topic, details not read

Good to know

Good for

- ✓ Companies facing e-invoicing mandates in several countries
- ✓ Finance teams automating high invoice volumes
- ✓ Sellers that must send compliant invoices to large buyers

Worth knowing

- ⓘ No prices are published; the site asks visitors to request a demo or contact sales.
- ⓘ It handles invoices and payables, not employee expense reports or receipt capture.
- ⓘ The site says most customers need extensive customization, so rollout is a project rather than a sign-up.
- ⓘ Suppliers can be charged separately: the support center lists a Supplier Subscriptions topic, details not read.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

3/76

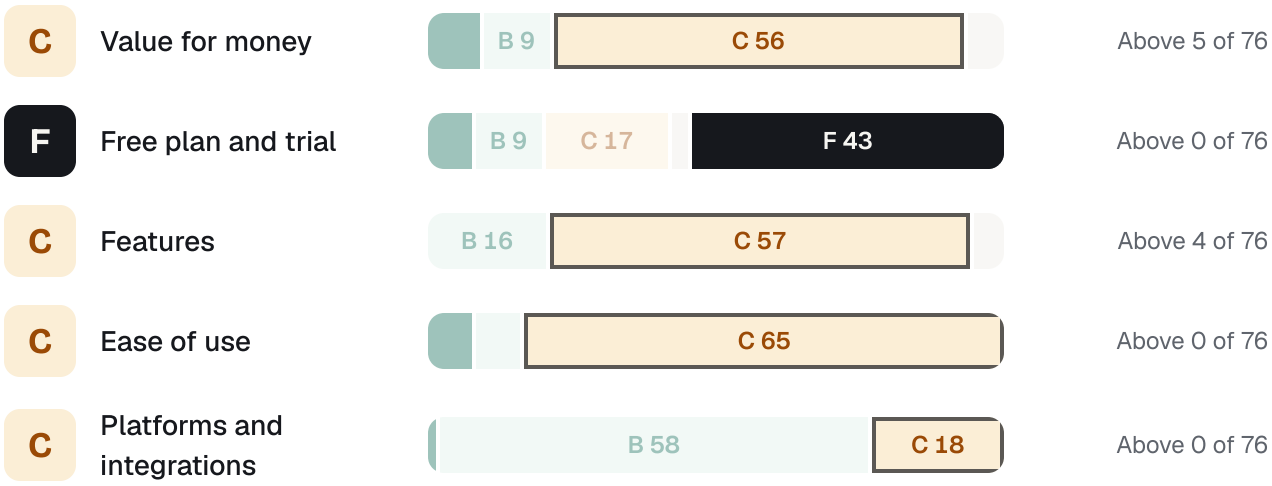

Other spend and bill pay tools it is graded above

Tradeshift's GPA of 1.6 is higher than 3 of the 76 other spend and bill pay tools we grade, and level with 13.

It stands best on value for money (C, above 5 of 76) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 77 spend and bill pay tools we grade, cut by the letter each got. Tradeshift's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Tradeshift you would be making money moved between bank accounts, which takes a licensed payments partner. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 60 of the 76 other spend and bill pay tools grade higher.

What you could make

- Invoicing: an app builder makes this well.

What you could not

- Money moved between bank accounts, which takes a licensed payments partner.
- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Tradeshift's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
