PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

33/70

Other print-on-demand and dropshipping services it is graded above

Trendsi's GPA of 2.4 is higher than 33 of the 70 other print-on-demand and dropshipping services we grade, and level with 11.

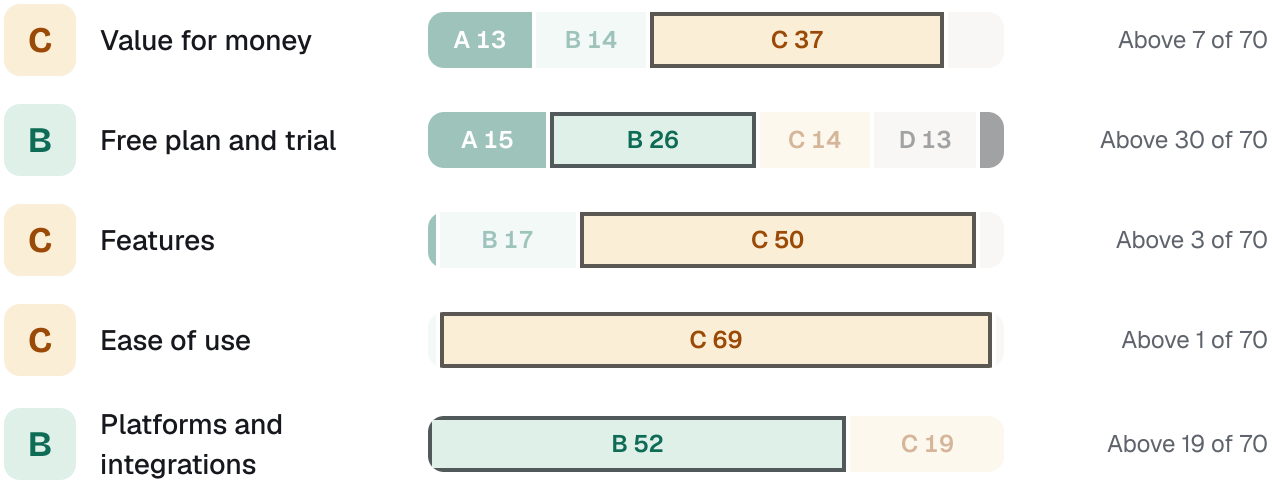

It stands best on free plan and trial (B, above 30 of 70) and worst on ease of use (C, above 1).

Its paid plans start at $29.90 a month, against a middle price of $25 for the category: 21 of the 36 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 11 tools score higher and cost less.

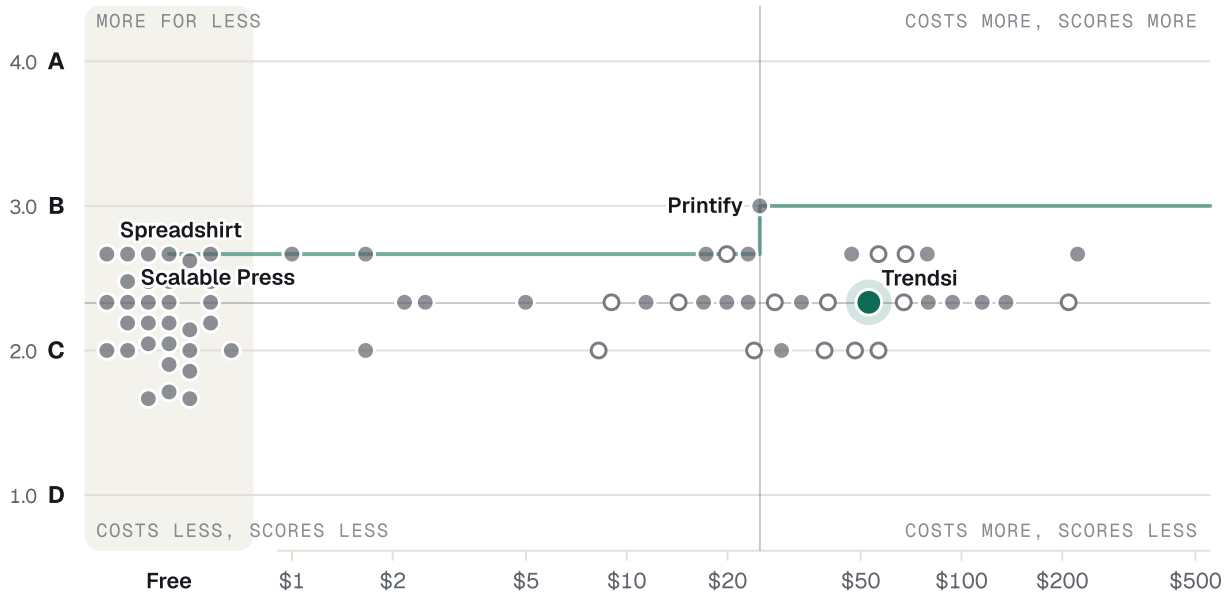

Each grade against the category

Every bar is all 71 print-on-demand and dropshipping services we grade, cut by the letter each got. Trendsi's own letter is outlined.

Price against what you get

Each dot is one of 68 print-on-demand and dropshipping services. Further left costs less; higher up scores better on features, ease of use and platforms. Trendsi is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Trendsi you would be making suppliers who ship each order for you. That is not a weekend's work, with an AI app builder or without one.

It costs $358.80 a year.

What you could make

- Inventory: an app builder makes this well.

What you could not

- Suppliers who ship each order for you.

- AI features, unless you pay a model provider for each request yourself.
- People on the other end: coaches. No app builder makes those.

What this rests on. Trendsi's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
