Welcome

What it is, who it suits, its grades and the ten things to know first

1.4

GPA, above 0 of the 101 other hiring and applicant tracking tools we grade

Tribepad is an applicant tracking system with a built-in CRM, careers site, interview scheduling, reporting and optional onboarding, background checks and video screening. It sells two products: Gro for teams under 750 people at a published monthly price, and Pro for enterprises on a bespoke quote. Prices are in pounds sterling.

To get you started, here are **8 things to know about TribePad**, taken from its own pages and our grades.

> **A one-year commitment and a set-up fee mean an implementation before anyone is productive.**
>
> From our grade for ease of use

1 **Best for a UK ATS for mid-size employers**

Background checks and video screening are add-ons, and the one-year commitment is the catch.

2 **Paid plans start at about $775.80 a month**

As its pricing page puts it: £579 per month, billed annually (£625 billed monthly), plus £2,000 set-up.

3 It runs on Web

Web.

4 ATS and CRM

Bulk vacancy posting, branded jobs page, talent search, anonymous applications and a candidate self-service portal, with an enhanced CRM as a premium add-on.

5 Onboarding

Onboarding workflows, a dashboard, welcome content, contract and reference management; the pricing page lists parts of it as premium add-ons.

6 Checks and video screening

Background checks and video screening are offered as add-ons, with TrustID and Willo named as partners.

7 A 1.4 GPA, above 0 of 101

That is against the other hiring and applicant tracking tools we grade, on value, the free plan, features, ease of use and platforms.

8 Keep it

To replace TribePad you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for a UK ATS for mid-size employers

Tribepad is an ATS and CRM with onboarding and screening, from £579 a month billed annually plus a £2,000 set-up fee. Background checks and video screening are add-ons, and the one-year commitment is the catch.

TOOLGPA REPORT CARD — **TribePad** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	Gro is £579 a month billed annually (about $735) plus £2,000 set-up, against a $95 middle price for hiring tools. Pro starts at £2,000 a month.
Free plan and trial	F	No free plan and no trial on the listing.
Features	C	ATS and CRM, onboarding, reporting, an AI assistant and multi-brand support. Enhanced CRM, two-way communication, background checks and video screening are premium add-ons.
Ease of use	C	No store rating on record. A one-year commitment and a set-up fee mean an implementation before anyone is productive.
Platforms and integrations	C	Web only, with TrustID and Willo the two named integrations.
Grade point average		Weak, out of 4.0 **1.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who TribePad is for

- ✓ Fits if you are a UK employer with several brands or languages to recruit for
- ✓ Works for in-house teams that can commit to a year

Who it is not for

- ✗ Pricey if you are small, at £579 a month billed annually plus a £2,000 set-up fee
- ✗ Tight if you want monthly terms: £625 a month is still a one-year commitment
- ✗ Watch out: Pro has no price beyond 'from £2,000 per month'
- ✗ Watch out: enhanced CRM, background checks and video screening are premium add-ons
- ✗ Skip it if you want a trial; none is listed

Good to know

Good for

- ✓ UK and European employers that want prices in pounds and a UK-based support team
- ✓ Sectors the vendor targets: health and social care, public sector, education and retail
- ✓ Teams under 750 people that want a fixed monthly cost

Worth knowing

- ⓘ Prices are in GBP and carry a one-year commitment; Gro also has a £2,000 set-up fee.
- ⓘ Pro has no published price beyond 'from £2,000 per month'.
- ⓘ Enhanced CRM, two-way communication, background checks and video screening are marked as premium add-ons.

Where it stands

Its grades against its category, and whether to keep it or make your own

0/101

Other hiring and applicant tracking tools it is graded above

TribePad's GPA of 1.4 is higher than 0 of the 101 other hiring and applicant tracking tools we grade, and level with 5.

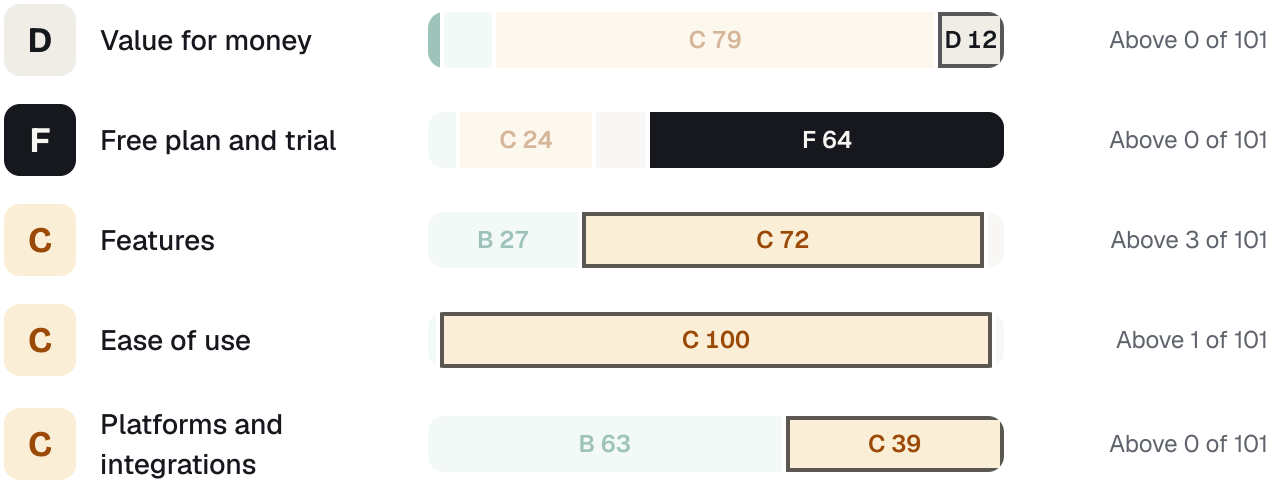

It stands best on features (C, above 3 of 101) and worst on free plan and trial (F, above 0).

Its paid plans start at about $775.80 a month, against a middle price of $99 for the category: 41 of the 42 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 34 tools score higher and cost less.

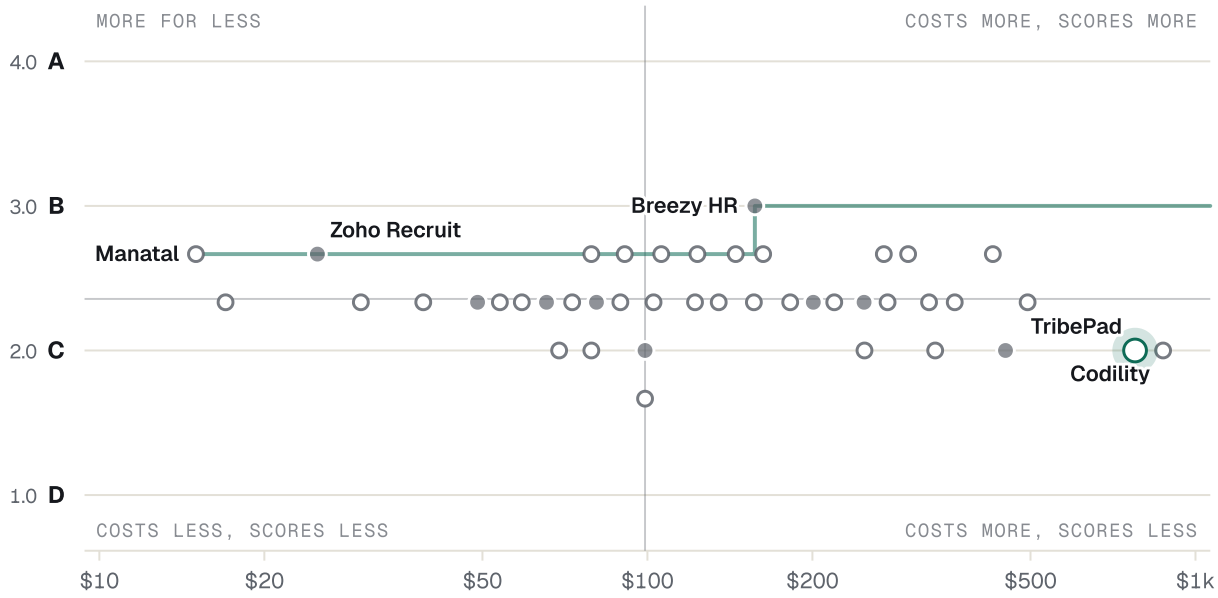

Each grade against the category

Every bar is all 102 hiring and applicant tracking tools we grade, cut by the letter each got. TribePad's own letter is outlined.

Price against what you get

Each dot is one of 43 hiring and applicant tracking tools. Further left costs less; higher up scores better on features, ease of use and platforms. TribePad is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace TribePad you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 96 of the 101 other hiring and applicant tracking tools grade higher. It costs $9,309.55 a year.

What you could make

- Applicant tracking: an app builder makes this well.

What you could not

- Jobs posted to dozens of job boards at once, which takes an agreement with each board.
- Connections to other products, each kept working as those products change.
- Connections that pull numbers from dozens of other services.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. TribePad's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
