PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

29/80

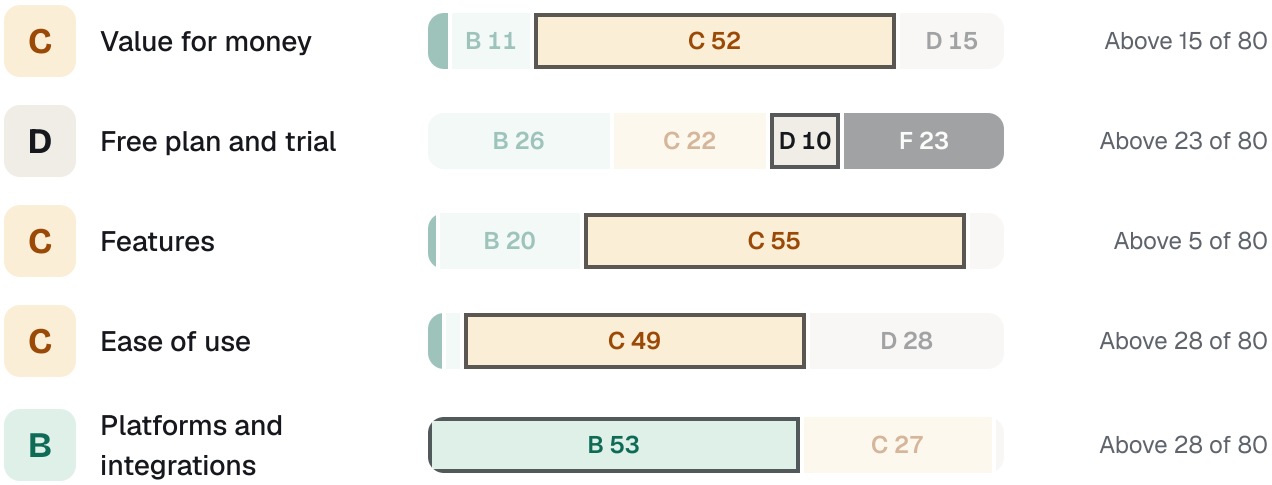

Other online store builders it is graded above

Ueeshop's GPA of 2.0 is higher than 29 of the 80 other online store builders we grade, and level with 13.

It stands best on platforms and integrations (B, above 28 of 80) and worst on free plan and trial (D, above 23).

Each grade against the category

Every bar is all 81 online store builders we grade, cut by the letter each got. Ueeshop's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Ueeshop you would be making checkout, card payments and sales tax handled for you. That is not a weekend's work, with an AI app builder or without one.

What you could make

- Inventory: an app builder makes this well.

What you could not

- Checkout, card payments and sales tax handled for you.
- Every click and sale traced back to the right partner.
- It plugs into other products, PayPal, Stripe and Google among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Ueeshop's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
