Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 12 of the 80 other shipping software we grade

Vamaship is a shipping aggregator for online sellers in India. One dashboard compares rates, books and tracks shipments across more than 15 courier partners, and it handles cash-on-delivery remittance and reverse pickups. There is no platform fee; sellers pay a per-shipment rate that falls as monthly volume rises.

To get you started, here are **8 things to know about Vamaship**, taken from its own pages and our grades.

> "
>
> **Courier mapping, rules and store integrations need setting up.**
>
> From our grade for ease of use

1 **Best for per-shipment couriers in India**

It ships inside India only, the price drops with monthly volume rather than with extra features, and a free option does not exist.

2 **Paid plans start at about $0.37 a month**

As its pricing page puts it: ₹35 per shipment (Starter, under 1,500 shipments a month).

3 **It runs on Web**

Web.

4 **Multi-courier booking**

Compare rates and book shipments with 15+ couriers, including Delhivery, Blue Dart, XpressBees and Amazon Shipping, covering 27,000+ pincodes.

5 **Routing rules**

Partner preference rules read shipping mode, payment type, weight and destination pincode and choose the courier for each order automatically.

6 **COD and RTO tools**

Cash-on-delivery money is remitted within hours of delivery, and WhatsApp-based NDR follow-up aims to cut returns to origin.

7 **A 1.8 GPA, above 12 of 80**

That is against the other shipping software we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Vamaship you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

Who Vamaship is for

- ✓ Fits if you ship under 1,500 parcels a month within India

Who it is not for

- ✕ Skip it if you ship outside India, as it focuses on domestic shipping
- ✕ Not for you if you want a free plan or trial, since none is listed
- ✕ Pricey if your volume is low, as ₹35 a shipment is the starting rate, not the final one
- ✕ Watch out: prices are in rupees only
- ✕ Watch out: plans change with monthly volume, not with features

Good to know

Good for

- ✓ Indian D2C brands and social sellers shipping within India
- ✓ Sellers who want cash-on-delivery remitted quickly
- ✓ Shops that prefer a per-shipment rate over a monthly subscription

Worth knowing

- ⓘ Domestic only: the FAQ says Vamaship currently focuses on shipping within India.

Where it stands

Its grades against its category, and whether to keep it or make your own

12/80

Other shipping software it is graded above

Vamaship's GPA of 1.8 is higher than 12 of the 80 other shipping software we grade, and level with 18.

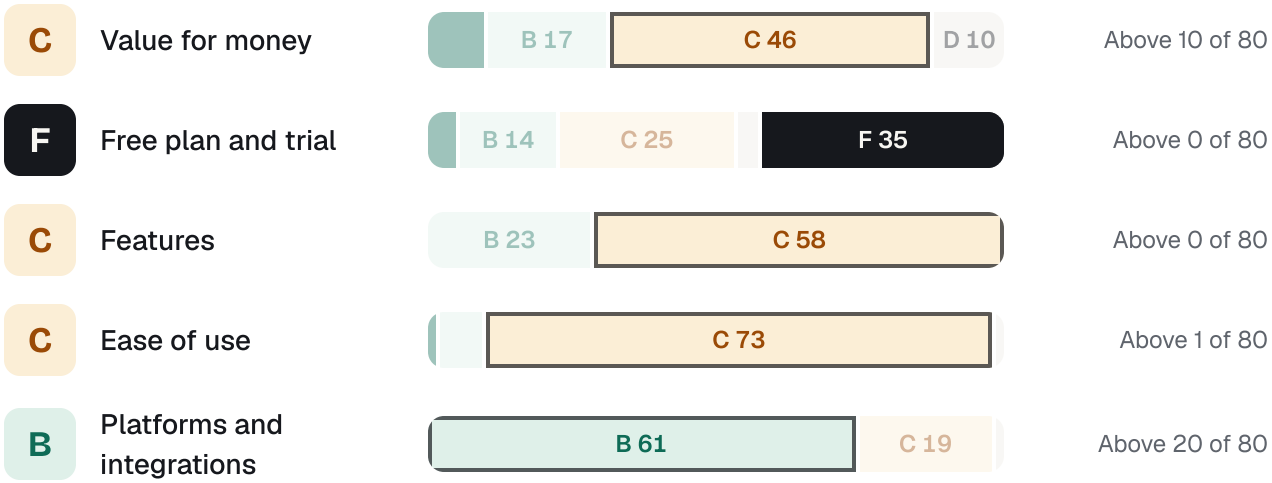

It stands best on platforms and integrations (B, above 20 of 80) and worst on free plan and trial (F, above 0).

Its paid plans start at about $0.37 a month, against a middle price of $19.99 for the category: 0 of the 35 others that charge start lower.

Each grade against the category

Every bar is all 81 shipping software we grade, cut by the letter each got. Vamaship's own letter is outlined.

Price against what you get

Each dot is one of 43 shipping software. Further left costs less; higher up scores better on features, ease of use and platforms. Vamaship is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Vamaship you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 50 of the 80 other shipping software grade higher. It costs $4.42 a year.

What you could not

- ✕ Discounted carrier rates and labels, which take an agreement with each carrier.
- ✕ Connections to other products, each kept working as those products change.

What this rests on. Vamaship's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
