Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 14 of the 133 other screen recording and video tools we grade

Vbrick is an enterprise video platform that stores, secures, searches and streams company video, with live webcasting to large audiences and an enterprise content delivery network (eCDN) to protect internal networks. It also applies AI to turn video into searchable data and exposes it through APIs and an MCP server. Pricing is by quote.

To get you started, here are **7 things to know about Vbrick**, taken from its own pages and our grades.

1 **Best for enterprise video and large live webcasts**

Pricing is by quote, there is no free tier, and it is aimed at the world's largest organizations.

2 **It runs on Web**

Web.

3 **Video management**

Centralize video content in one place, manage access and automate video workflows.

4 **AI-powered intelligence**

Uses AI to turn video into searchable, accessible data that can feed AI agents, workflows and enterprise systems.

5 **Live streaming and eCDN**

Live webcasting to very large audiences, with an eCDN (peer-to-peer, edge caching and multicast technologies) to limit network load.

6 **A 2.0 GPA, above 14 of 133**

That is against the other screen recording and video tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Vbrick you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Vbrick is for

- ✓ Fits if you need to stream live to thousands of employees without choking the network
- ✓ Works for government and regulated teams that need a FedRAMP-certified platform, per the vendor

Who it is not for

- ✗ Skip it if you want a price on the page, because pricing is by quote
- ✗ Not for you if you are a small team, since the homepage is aimed at large organizations
- ✗ Skip it if you want to try it first: no free tier or trial is listed
- ✗ Watch out: the eCDN and Video Platform as a Service are described as separate offerings

Good to know

Good for

- ✓ Large organizations streaming live to employees at scale
- ✓ Regulated industries such as finance, government and healthcare
- ✓ IT teams that need an eCDN for Teams or Webex webinars

Worth knowing

- ⓘ No prices are published; the site routes visitors to a demo or contact form.
- ⓘ Aimed at enterprises: the homepage describes serving the world's largest organizations.
- ⓘ Separate offerings such as the eCDN and Video Platform as a Service are described apart from the main platform.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

14/133

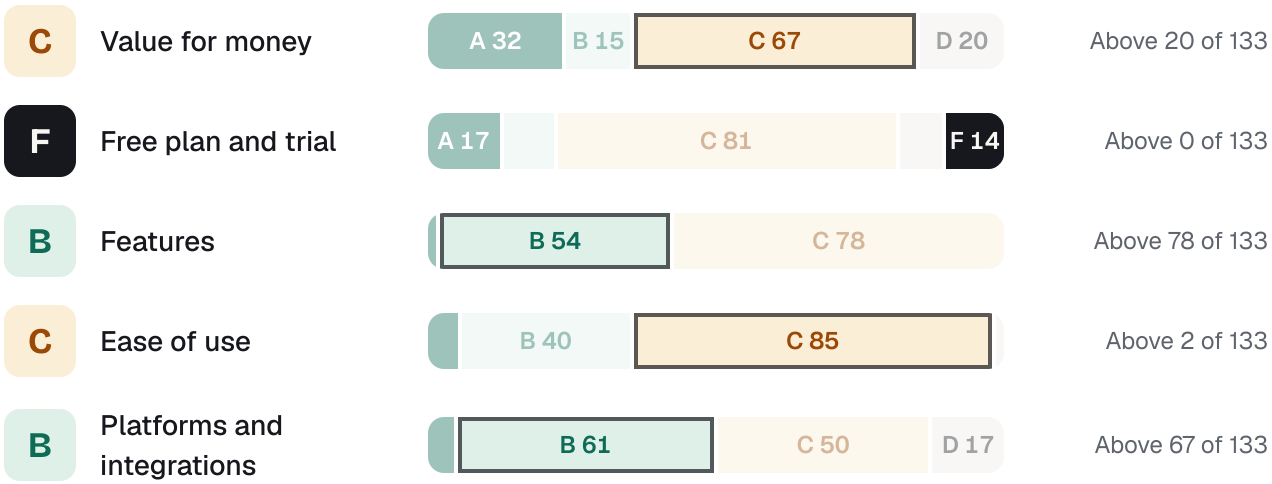

Other screen recording and video tools it is graded above

Vbrick's GPA of 2.0 is higher than 14 of the 133 other screen recording and video tools we grade, and level with 27.

It stands best on features (B, above 78 of 133) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 134 screen recording and video tools we grade, cut by the letter each got. Vbrick's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Vbrick you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 92 of the 133 other screen recording and video tools grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- Live video to hundreds of people at once.
- It plugs into other products, Microsoft Teams, Webex and ServiceNow among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Vbrick's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
