Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 43 of the 127 other accounting and invoicing tools we grade

Vencru combines stock tracking, invoicing, a point-of-sale app, purchasing and double-entry accounting for retailers and wholesalers. Plans are sized by how many invoices and POS receipts a business issues each month, and by users and products. It is sold with a trial and a free plan.

To get you started, here are **9 things to know about Vencru**, taken from its own pages and our grades.

7 Purchasing

Create purchase orders, record vendor bills and receive stock into inventory. Purchase orders and vendor bills start on Growth.

8 A 2.2 GPA, above 43 of 127

That is against the other accounting and invoicing tools we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Vencru you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Vencru you would be making live feeds from your bank, which take an agreement with each bank or a service that has them. That is not a weekend's work, with an AI app builder or without one.

It costs $60 a year.

What you could make

- Invoicing, inventory, reports and quotes and estimates: an app builder makes these well.

What you could not

- × Live feeds from your bank, which take an agreement with each bank or a service that has them.

- ✕ Scanning barcodes with a phone camera or a scanner.
- ✕ Apps for macOS, iOS and Android that stay in step with each other.

What this rests on. Vencru's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
