Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 31 of the 168 other AI image and video generators we grade

Virtual Staging AI is a browser tool for real estate listings. You upload a photo of a vacant or furnished room, pick a style, and it adds or removes furniture in about ten to fifteen seconds. Plans are priced by the number of photos staged each month, with regenerations of the same photo included.

> "
>
> **It is a web app where you upload photos and choose styles.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about Virtual Staging AI**, taken from its own pages and our grades.

1 **Best for furnishing empty rooms in listing photos**

Virtual Staging AI adds furniture to photos of empty rooms and removes furniture, with a 10-second turnaround.

2 **Paid plans start at $16 a month**

As its pricing page puts it: $16 per month for 6 photos, billed yearly ($192 a year).

3 **You can try it first**

Upload an image for free without signing up or entering a card.

4 **It runs on Web**

Web.

5 Furniture added by AI

Upload a photo of an empty or furnished room and the tool places furniture in it, with 50+ design styles listed on the homepage.

6 Furniture removal

Existing furniture can be removed from a photo; the pricing page lists this on every plan.

7 Unlimited regenerations

The pricing page says renders and downloads are unlimited, so a photo can be re-staged in other styles without using more of the monthly photo allowance.

8 A 2.0 GPA, above 31 of 168

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Virtual Staging AI you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for furnishing empty rooms in listing photos

Virtual Staging AI adds furniture to photos of empty rooms and removes furniture, with a 10-second turnaround. You can upload an image to try it without signing up, but plans are capped by photos a month, from 6 at $16 to 150 at $79, and shown prices are yearly-billed.

TOOLGPA REPORT CARD — **Virtual Staging AI** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$16 a month billed yearly for 6 photos, which is $2.67 a photo. It sits in the ordinary range, and the monthly-billing price is not shown.
Free plan and trial	C	You can upload an image free with no signup or card. It is a taste rather than a plan, so it stays a C.
Features	C	Adds furniture, removes it and allows unlimited regenerations. It does that job and it is a smaller job than most of the category.
Ease of use	C	No store rating is on record. It is a web app where you upload photos and choose styles.
Platforms and integrations	C	Web only, with API access on the $79 plan.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Virtual Staging AI is for

- ✓ Fits if you stage a handful of listings a month
- ✓ Works for agents who want results in about 10 seconds

Who it is not for

- ✕ Tight if you list a lot, as Basic stages only 6 photos a month
- ✕ Watch out: unlimited image storage starts on Standard, not Basic
- ✕ Watch out: the prices are yearly-billed rates, and the monthly-billing price is not shown
- ✕ Not for you if you want a free plan, since there is only the one-off upload

Good to know

Good for

- ✓ Real estate agents who need staged photos for vacant listings
- ✓ Photographers and brokerages staging many listings a month

Worth knowing

- ⓘ Plans are capped by photos staged per month, from 6 on Basic to 150 on Enterprise.
- ⓘ The prices shown are the yearly-billed rates; the page does not show the monthly-billing price for the same plans.
- ⓘ Image storage with no time limit starts on the Standard plan.
- ⓘ The site links an affiliate program and a white-label program.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

31/168

Other AI image and video generators it is graded above

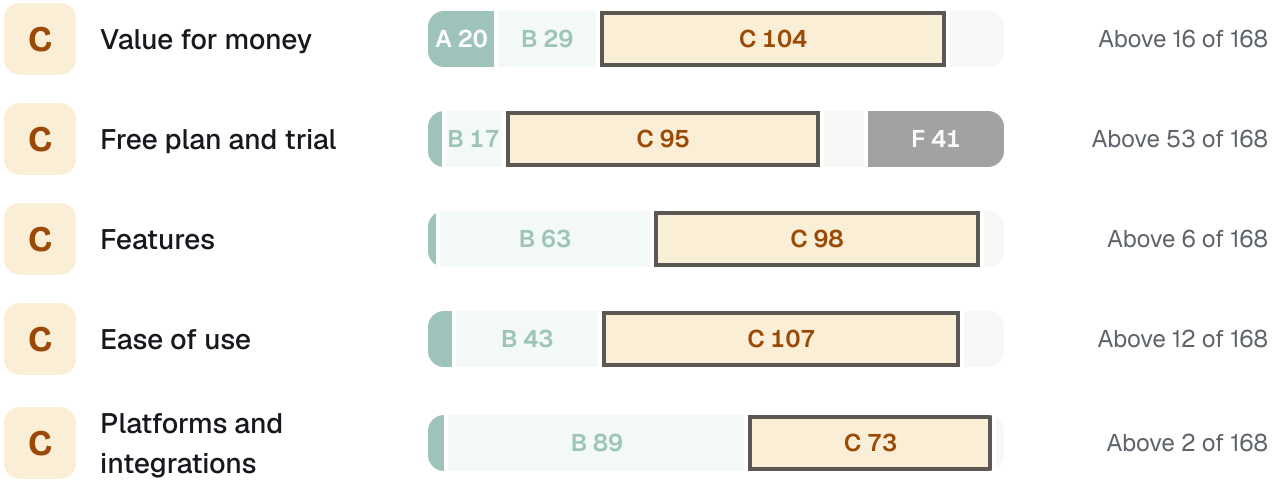

Virtual Staging AI's GPA of 2.0 is higher than 31 of the 168 other AI image and video generators we grade, and level with 31.

Its paid plans start at $16 a month, against a middle price of $11.88 for the category: 85 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 71 tools score higher and cost less.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Virtual Staging AI you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 106 of the 168 other AI image and video generators grade higher. It costs $192 a year.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ An API that other software can build on.

- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Virtual Staging AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
