Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Vitara's own pages, its app-store listings and our grades. Every fact in it is on Vitara's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 10 of the 89 other AI app builders we grade

Vitara builds apps from a chat prompt or from a ready-made template, with screens, API and database generated together. It offers fullstack, frontend-only and React Native mobile builds, and the code it generates can be downloaded on paid plans. Templates cover business apps such as CRM, billing, HR and booking.

> "
>
> **A browser app where you build by chatting.**
>
> From our grade for ease of use

To get you started, here are **9 things to know about Vitara**, taken from its own pages and our grades.

1 **Best for trying an app idea from a template and a chat**

Vitara builds apps from a chat prompt or a template, as a full stack, front end only or React Native build.

2 **Paid plans start at $20 a month**

As its pricing page puts it: $20 per month for 100 credits (Build).

3 **You can try it first**

Starter: 10 credits in total, one time only, with free templates and the Economy agent; no card required.

4 **It runs on Web**

Web.

5 **Templates as a starting point**

Complete starter apps with screens, backend, database and login, such as CRM, job portal, billing, HRMS, appointment booking and event ticketing.

6 **Chat-driven changes**

Each message updates the screens, API and database together, in plain language.

7 **Fullstack, frontend or mobile**

Choose a fullstack build with a Node.js or Python backend, a React frontend, or a React Native mobile app, previewed on a phone with Expo Go.

8 **A 2.0 GPA, above 10 of 89**

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Vitara you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE
2.0 GPA, fair

The report card

Best for trying an app idea from a template and a chat

Vitara builds apps from a chat prompt or a template, as a full stack, front end only or React Native build. The free allowance is a one-time handful of credits, the site gives two different sizes for it, and code download and a custom domain wait on Build at $20 a month for 100 credits.

TOOLGPA REPORT CARD — **Vitara** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Build is $20 a month for 100 credits, the middle of the category. Scale is $50 for 250 credits, and the better templates sit on the dearer plans.
Free plan and trial	C	Starter is a one-time grant with no card needed, but the pricing page says 20 credits at 5 a day while the home page says 10. It is a taste, not a plan you can stay on.
Features	C	Chat-built apps with a database and API, plus a template library. Mobile apps are only previewed in Expo Go, and visual edits and code download are paid.
Ease of use	C	A browser app where you build by chatting. No store rating on record.
Platforms and integrations	C	Browser only. Its listing names Expo Go, React Native, Node.js and Python and not much else.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Vitara is for

- ✓ Fits if you want to start from a ready-made template such as a CRM or HR app
- ✓ Works for people who want to try a React Native app before paying

Who it is not for

- ✕ Skip it if you want a free plan to build on, as the credits are a one-time grant
- ✕ Tight if you are watching credits: Build is 100 a month and each change draws on them
- ✕ Pricey if you need Premium templates or team collaboration, both on Scale at $50 a month
- ✕ Watch out: the home page and the pricing page disagree on the free credits, 10 against 20

Good to know

Good for

- ✓ Small businesses that want a ready-made CRM, booking or HR app to customize
- ✓ Founders who need a web app and a mobile app on one backend
- ✓ Builders watching credit spend who can use templates and Economy mode

Worth knowing

- ⓘ The free Starter allowance is a one-time grant, and the homepage (10 credits) and the pricing page (20 credits, 5 a day) disagree on its size.
- ⓘ Standard templates need the Build plan and Premium templates need Scale.
- ⓘ Visual edits, code download and a custom domain are not on the free plan; team collaboration is listed only on Scale.
- ⓘ Browser-based only; mobile apps are previewed through Expo Go rather than a Vitara mobile app.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$20
A month to start

Vitara is a paid product with a free trial, starting at $20 per month for 100 credits (Build).

> **It is a taste, not a plan you can stay on.**
>
> From our grade for free plan and trial

STARTER

$0

10 credits in total on the homepage plan card (the separate pricing page says 20 credits, 5 a day). Free templates and the Economy agent.

BUILD

$20

per month for 100 credits

100 credits a month with no daily limit, free and Standard templates, Advanced agents, visual edits, code download and custom domain.

SCALE

$50

per month for 250 credits

Everything in Build plus 250 credits a month, all templates including Premium, and team collaboration.

Trying it first

Starter: 10 credits in total, one time only, with free templates and the Economy agent; no card required.

Read from vitara.ai on Nov 13, 2026.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI app builder for full-stack web and mobile apps from templates. Here is what it does, as its own site describes it, and what it covers: AI features, databases, templates, AI agents, app builder.

> **Chat-built apps with a database and API, plus a template library.**

From our grade for features

Templates as a starting point

Complete starter apps with screens, backend, database and login, such as CRM, job portal, billing, HRMS, appointment booking and event ticketing.

Chat-driven changes

Each message updates the screens, API and database together, in plain language.

Fullstack, frontend or mobile

Choose a fullstack build with a Node.js or Python backend, a React frontend, or a React Native mobile app, previewed on a phone with Expo Go.

Economy mode

A switch that builds changes with a smaller, lower-cost model so each message uses fewer credits.

Code download and ownership

The vendor says you own your code and data; code download is a Build-plan feature and the app can be deployed elsewhere.

Team collaboration

Inviting teammates to build together is listed under the Scale plan.

Where it runs

Web

What it works with

Expo Go

React Native

Node.js

Python

Vitara is made by Blue Fusion Enterprise LLC.

Where it stands

Its grades against its category, and whether to keep it or make your own

10/89

Other AI app builders it is graded above

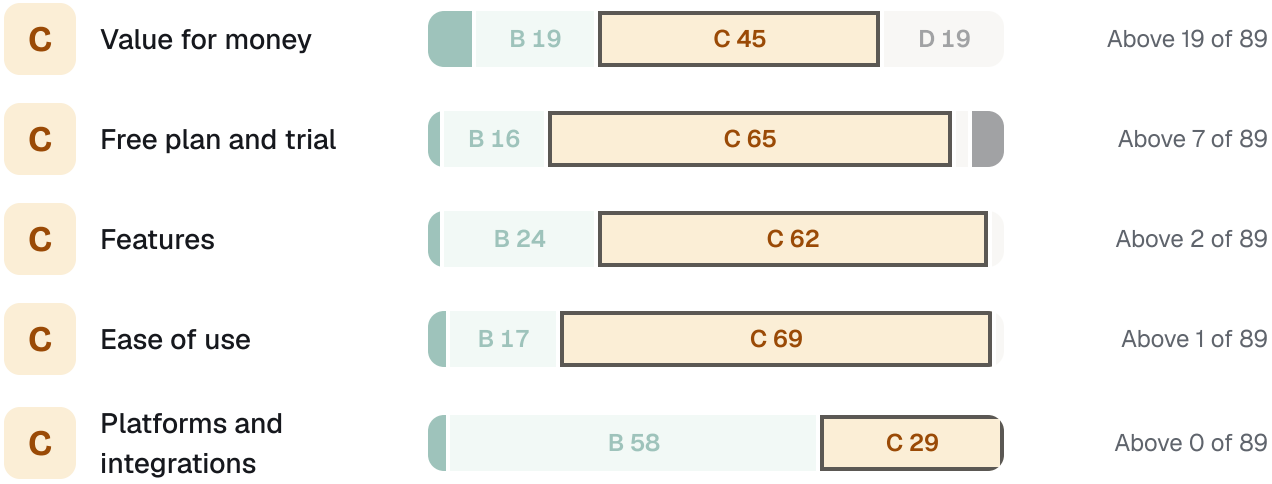

Vitara's GPA of 2.0 is higher than 10 of the 89 other AI app builders we grade, and level with 12.

Its paid plans start at $20 a month, against a middle price of $20 for the category: 38 of the 82 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 28 tools score higher and cost less.

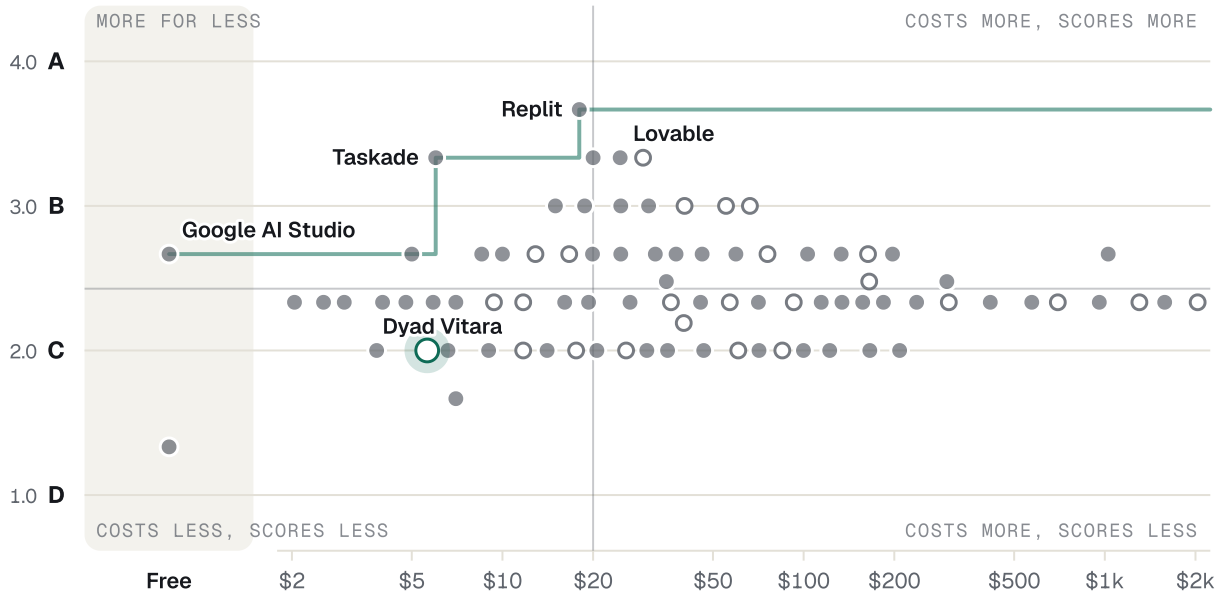

Each grade against the category

Every bar is all 90 AI app builders we grade, cut by the letter each got. Vitara's own letter is outlined.

Price against what you get

Each dot is one of 85 AI app builders. Further left costs less; higher up scores better on features, ease of use and platforms. Vitara is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Vitara you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 67 of the 89 other AI app builders grade higher. It costs $240 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- A tool that builds and hosts other apps.

- An AI agent, with the models and the safeguards behind it.
- Databases with views, filters and links between them.
- Sharing with other people, which means accounts and invitations.

What this rests on. Vitara's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Lovable, Bolt, Base44, Emergent and Rork

The 5 tools Vitara is most often weighed against, with where each one differs from it.

2.8 GPA

Lovable

Free plan · from $21/mo

Chat-based AI builder for full-stack web apps and websites.

- Lovable has a free plan. Vitara does not, though it has a free trial.
- Only Lovable lists macOS, Windows, iOS and Android apps.
- Vitara also covers databases, templates and AI agents.

Vitara and Lovable compared in full

2.6 GPA

Bolt

Free plan · from $18/mo

Browser-based AI builder for websites, web apps and mobile apps.

- Bolt has a free plan. Vitara does not, though it has a free trial.
- Vitara also covers databases, templates and AI agents.
- Bolt also covers no-code.

Vitara and Bolt compared in full

2.8 GPA

Base44

Free plan · from $16/mo

No-code AI builder with a database, login and hosting included.

- Base44 has a free plan. Vitara does not, though it has a free trial.
- Only Base44 lists iOS and Android apps.
- Vitara also covers databases, templates and AI agents.

Vitara and Base44 compared in full

2.4 GPA

Emergent

Free plan · from $17/mo

AI agents that build and deploy full-stack web and mobile apps.

- Emergent has a free plan. Vitara does not, though it has a free trial.
- Vitara also covers databases and templates.
- Emergent also covers no-code.

Vitara and Emergent compared in full

2.8 GPA

Rork

Free plan · from $20/mo

AI builder for native iPhone, Android and web apps from a prompt.

- Rork has a free plan. Vitara does not, though it has a free trial.
- Only Rork lists an iOS app.
- Vitara also covers databases and templates.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

12

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Vitara free?

No, Vitara is a paid product, but you can try it first. Starter: 10 credits in total, one time only, with free templates and the Economy agent; no card required.

How much does Vitara cost?

Vitara lists 3 plans. Starter: $0.

What platforms does Vitara work on?

Vitara is available on Web.

Does Vitara have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Vitara is listed for Web.

Does Vitara have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Vitara is listed for Web.

Is Vitara open source?

Vitara is not described as open source on its own site, as read on Nov 13, 2026.

What does Vitara integrate with?

Vitara's listing names Expo Go, React Native, Node.js and Python. A listing names up to eight integrations, so it may connect to more.

Who makes Vitara?

Vitara is made by Blue Fusion Enterprise LLC.

What are the alternatives to Vitara?

The closest alternatives to Vitara in our directory are Lovable, Bolt, Base44, Emergent and Rork.

How does Vitara compare with other AI app builders?

Vitara's GPA of 2.0 is higher than 10 of the 89 other AI app builders we grade, and level with 12.

Is Vitara good value for money?

ToolGPA grades Vitara C for value for money. On features, ease of use and platforms it scores 2.0 out of 4.

Could I make my own version of Vitara?

To replace Vitara you would be making a tool that builds and hosts other apps.

Where this guide comes from

The prices, plans, platforms and features were read from Vitara's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Vitara's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Blue Fusion Enterprise LLC. Prices change, so check vitara.ai before you buy.
