07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from VoIPstudio's own pages, its app-store listings and our grades. Every fact in it is on VoIPstudio's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 55 of the 77 other business phone systems we grade

VoIPstudio is a cloud business phone system priced per user, either with pay-per-minute outbound calling or a bundle that includes a number and minutes. Plans include a drag-and-drop call flow designer, CRM integrations and apps for desktop, mobile and Chrome. A CX add-on layers AI call summaries and a dialer on top.

To get you started, here are **9 things to know about VoIPstudio**, taken from its own pages and our grades.

> **No store rating on record, and phone systems mean numbers, call flows and handsets to set up.**
>
> From our grade for ease of use

1 **Best for a low per-seat cloud phone for inbound calls**

VoIPstudio is a cloud phone system at $6 a user a month, with a 30-day trial.

2 **Paid plans start at $6 a month for each person**

As its pricing page puts it: $6 per user / month (Pay as you go), plus call charges.

3 **You can try it first**

30-day free trial, cancel anytime with no commitment

4 **It runs on 6 platforms**

Web, Windows, macOS, Linux, iOS and Android, with a browser extension too.

5 **40+ call features**

Every plan carries the full set of call and collaboration features, plus unlimited inbound calls and free number porting.

6 **Call flow designer**

A drag-and-drop editor for call flows and IVR menus. Single-level IVR is on all plans; multi-instance and chained IVR need the CX add-on.

7 **CX add-on**

$14 per user a month adds AI call transcriptions and summaries, call analysis, an auto dialer, complex IVR and 5-year data retention.

8 **A 2.4 GPA, above 55 of 77**

That is against the other business phone systems we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace VoIPstudio you would be making phone numbers and calls carried over the phone network. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE
2.4 GPA, fair

The report card

Best for a low per-seat cloud phone for inbound calls

VoIPstudio is a cloud phone system at $6 a user a month, with a 30-day trial. But that price includes no outbound minutes and no number, so calls from 1.3 cents a minute and numbers from $6.23 come on top, and the AI summaries and complex IVR sit in a $14 add-on.

TOOLGPA REPORT CARD — **VoIPstudio** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$6 a user a month is under what the cheaper quarter of business phones charges ($12), but outbound calls and numbers are billed on top. The bundle with a number and 2,000 minutes is $20.
Free plan and trial	D	A 30-day trial, but the listing does not say whether a card is needed. There is no free plan.
Features	C	Call flows, 40+ call features and CRM links, with AI summaries, the dialer, 5-year retention and complex IVR locked behind the $14 CX add-on.
Ease of use	C	No store rating on record, and phone systems mean numbers, call flows and handsets to set up.
Platforms and integrations	A	Windows, Mac, Linux, iPhone, Android and a Chrome extension, with Salesforce, HubSpot, Zendesk, Zapier and webhooks.

Grade point average — Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who VoIPstudio is for

- ✓ Fits if your team mostly takes inbound calls and wants a low per-seat price
- ✓ Works for teams that fit inside the 2,000-minute monthly bundle

Who it is not for

- ✕ Pricey if you call out a lot on Pay as you go: no minutes or number are included
- ✕ Tight if you want AI summaries or complex IVR, which need the $14 per user CX add-on
- ✕ Watch out: taxes and fees are added to the bill, and the listed data retention is 12 months
- ✕ Not for you if you want a free plan, as there isn't one

Good to know

Good for

- ✓ Teams that mostly take inbound calls and want a low per-seat price
- ✓ Outbound sales or support teams that fit a 2,000-minute monthly bundle
- ✓ Businesses with offices in several countries needing numbers in 70+ countries

Worth knowing

- ⓘ Pay as you go includes no outbound minutes or number: outbound calls cost from 1.3 cents a minute and numbers from $6.23 a month.
- ⓘ AI summaries, 5-year retention, complex IVR and the dialer need the $14 per user CX add-on.
- ⓘ Taxes and fees are added to the bill where they apply, and the listed data retention is 12 months.

- Dynamics 365

VoIPstudio is made by VoIPstudio.

Where it stands

Its grades against its category, and whether to keep it or make your own

55/77

Other business phone systems it is graded above

VoIPstudio's GPA of 2.4 is higher than 55 of the 77 other business phone systems we grade, and level with 12.

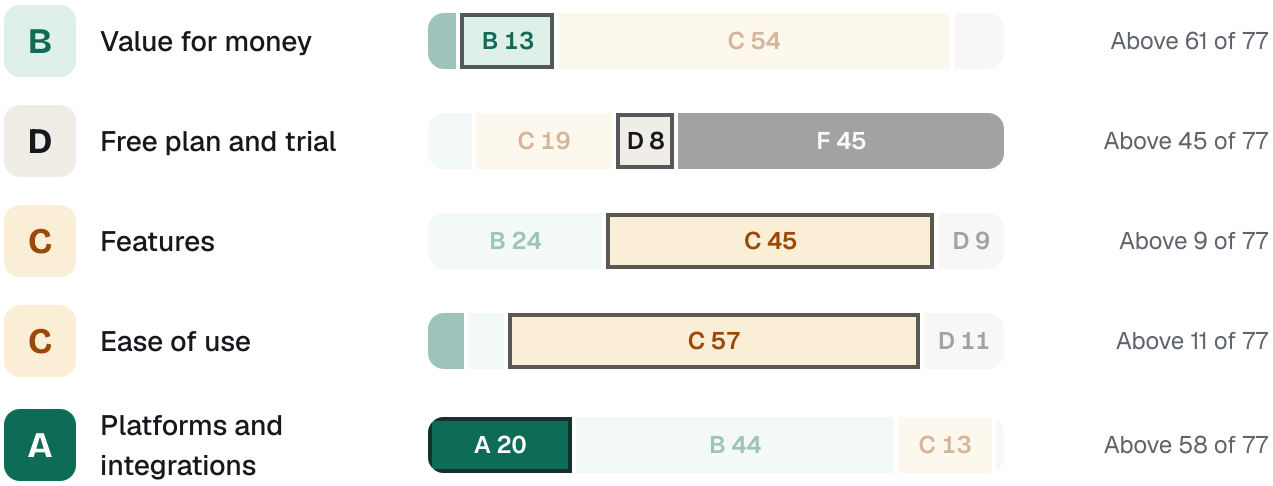

It stands best on platforms and integrations (A, above 58 of 77) and worst on free plan and trial (D, above 45).

Its paid plans start at $6 a month for each person, against a middle price of $19 for the category: 3 of the 49 others that charge start lower.

On features, ease of use and platforms it scores 2.7 out of 4, and no tool on the category's chart scores higher without costing more.

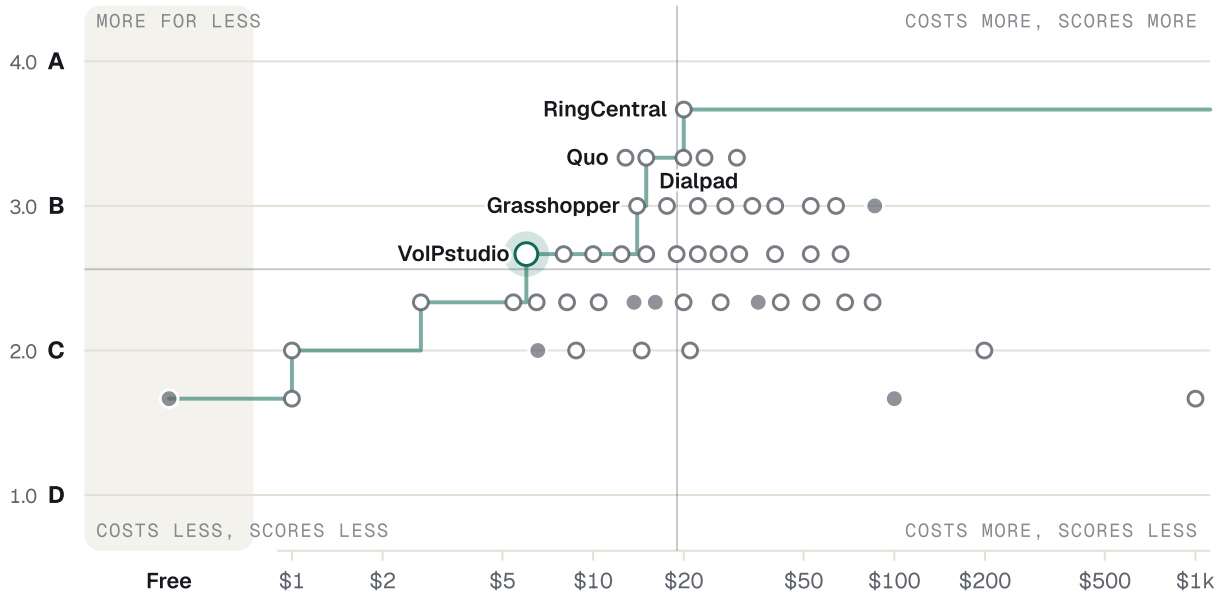

Each grade against the category

Every bar is all 78 business phone systems we grade, cut by the letter each got. VoIPstudio's own letter is outlined.

Price against what you get

Each dot is one of 51 business phone systems. Further left costs less; higher up scores better on features, ease of use and platforms. VoIPstudio is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace VoIPstudio you would be making phone numbers and calls carried over the phone network. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.4 is higher than 55 of the 77 other business phone systems we grade. It costs $72 a year.

What you could not

- ✕ Phone numbers and calls carried over the phone network.
- ✕ Phone numbers that change for each visitor so every call is traced to its source.

- ✕ Speech turned into text you can trust.
- ✕ Apps for macOS, Windows, Linux, iOS and Android that stay in step with each other.
- ✕ It is priced for each person, which means accounts and billing for a team.
- ✕ It plugs into other products, Salesforce, Zoho CRM and HubSpot among them, and has an API.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. VoIPstudio's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Voipfone, Gradwell, Yay.com and Ringover

The 4 tools VoIPstudio is most often weighed against, with where each one differs from it.
