Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 65 of the 89 other presentation tools we grade

Wayground, formerly Quizizz, is a platform for K-12 teachers to build and deliver assessments, presentations, videos and flashcards, with AI tools and accommodations. Teachers use the Basic plan for free, while schools and districts buy a quoted plan.

To get you started, here are **8 things to know about Wayground**, taken from its own pages and our grades.

> **No store rating is on record and it needs an account and some setup of your own work, so it sits at the ordinary grade.**
>
> From our grade for ease of use

1 **Best for free quizzes and lessons for K-12 teachers**

Wayground, which used to be Quizizz, gives teachers quizzes, presentations and flashcards on a free Basic plan.

2 **There is a free plan**

Basic plan is free for every teacher: assessments, presentations and flashcards with limited question types and 100 students.

3 **It runs on 3 platforms**

Web, iOS and Android, with a browser extension too.

4 **Mixed lesson content**

Build assessments, presentations, interactive videos, flashcards and passages with question sets.

5 **AI tools**

Generate and import content, adapt reading levels and explain answers; AI grading with rubrics is on the school plan.

6 **Accommodations**

Over 20 accommodation options, including Read Aloud text-to-speech, are available.

7 **A 2.6 GPA, above 65 of 89**

That is against the other presentation tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Wayground you would be making a voice model, which you can rent by the minute but not make. That is not a weekend's work, with an AI app builder or without one.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

65/89

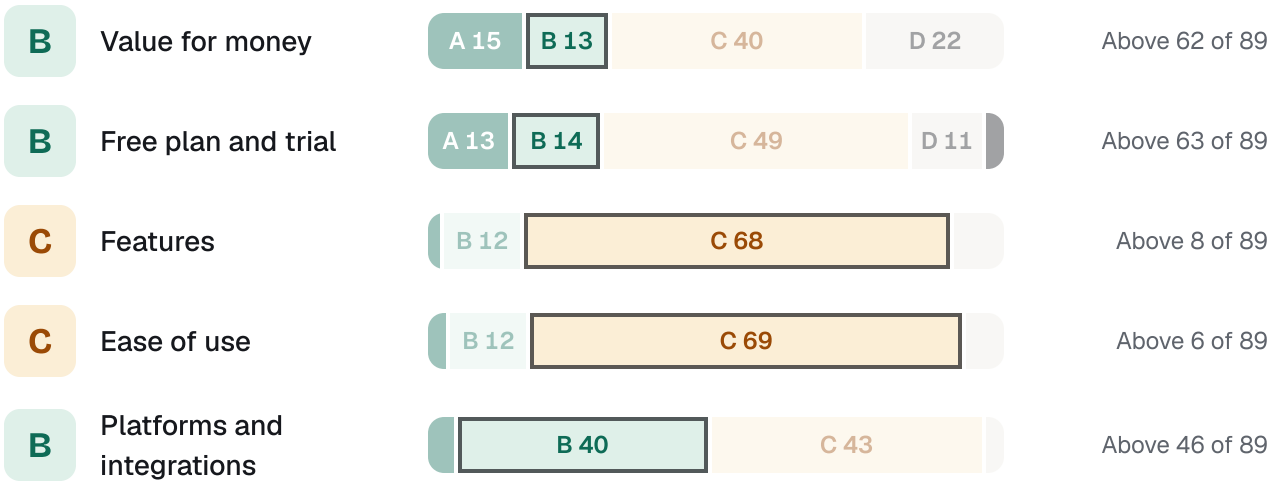

Other presentation tools it is graded above

Wayground's GPA of 2.6 is higher than 65 of the 89 other presentation tools we grade, and level with 12.

It stands best on free plan and trial (B, above 63 of 89) and worst on ease of use (C, above 6).

Each grade against the category

Every bar is all 90 presentation tools we grade, cut by the letter each got. Wayground's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Wayground you would be making a voice model, which you can rent by the minute but not make. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 65 of the 89 other presentation tools we grade.

What you could not

- A voice model, which you can rent by the minute but not make.
- A slide editor.
- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, Google Classroom, Canvas and Schoology among them.
- AI features, unless you pay a model provider for each request yourself.
- What a company asks for before it lets staff use something: single sign-on.

What this rests on. Wayground's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
