Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 106 of the 168 other AI image and video generators we grade

Figma Weave, the product formerly known as Weavy, is a node-based browser platform that connects many AI image, video, 3D and audio models with editing tools such as inpaint, outpaint, relight, upscale and compositing. Workflows can be turned into simpler tools for teammates. It is a separate product and subscription from Figma, with its own credit system.

To get you started, here are **9 things to know about Figma Weave**, taken from its own pages and our grades.

> **Credits are separate from Figma's own, there's no rollover before Professional, and fees aren't refundable.**
>
> From our report card of Figma Weave

1 **Best for chaining AI models in a node-based canvas**

Figma Weave, formerly Weavy, connects image, video and audio models and editing steps in a node-based workflow on the web.

2 **Paid plans start at $24 a month**

As its pricing page puts it: $24 per month ($202 billed annually).

3 There is a free plan

150 monthly credits (about 375 images), most image models, editing tools, a commercial license and 5 workflows.

4 It runs on Web

Web.

5 Node-based workflows

Models and editing steps are chained as nodes on a canvas, so a workflow can be reused and run again.

6 Many models in one place

Lists image, video, 3D and audio models from vendors such as Google, OpenAI, Black Forest Labs, Kling, Runway and Luma.

7 Professional editing nodes

Inpaint, outpaint, crop, relight, upscale, mask extraction, z-depth extraction and a painter node are shown.

8 A 2.4 GPA, above 106 of 168

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Figma Weave you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for chaining AI models in a node-based canvas

Figma Weave, formerly Weavy, connects image, video and audio models and editing steps in a node-based workflow on the web. The free plan gives 150 credits a month and 5 workflows. Credits are separate from Figma's own, there's no rollover before Professional, and fees aren't refundable.

TOOLGPA REPORT CARD — **Figma Weave** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Starter is $24 a month, or $202 billed annually, about $16.83 a month. That's between the middle and the dearer quarter of AI image tools.
Free plan and trial	B	150 credits a month, most image models, a commercial licence and 5 workflows, free. One person could live on that, though video models aren't included.

SUBJECT	GRADE	COMMENT
Features	B	Node workflows, many models in one place, editing nodes and turning a workflow into a simple tool. The listing names no gap in the core job.
Ease of use	C	No store rating on record. Building node workflows is the work, so expect a learning curve.
Platforms and integrations	C	Web only. An API for workflow runs is listed under Enterprise.
Grade point average		Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Figma Weave is for

- ✓ Fits if you want to chain several AI models into a repeatable pipeline
- ✓ Works for designers already in Figma who want a node-based way to generate and edit images

Who it is not for

- ✗ Skip it if you expect a paid Figma plan to cover it, as Weave credits are separate
- ✗ Tight if you stay free: 5 workflows, no top-ups and no video models
- ✗ Watch out: credits don't roll over on Free or Starter, only from Professional
- ✗ Not for you if you need refunds, because fees are non-refundable
- ✗ Skip it if you want a desktop or phone app, since it's web only

Good to know

Good for

- ✓ Creative teams building repeatable multi-model image and video pipelines
- ✓ Designers who want compositing-style controls beside AI models
- ✓ Studios that need a shared credit pool

Worth knowing

- ⓘ Figma Weave credits and Figma credits are separate; a paid Figma plan does not include Weave.
- ⓘ Starter and Free have no credit rollover; it starts at Professional.
- ⓘ Free allows 5 workflows and has no credit top-ups; video models are not available on Free.
- ⓘ Fees are non-refundable and cancellation takes effect at the end of the term.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

106/168

Other AI image and video generators it is graded above

Figma Weave's GPA of 2.4 is higher than 106 of the 168 other AI image and video generators we grade, and level with 25.

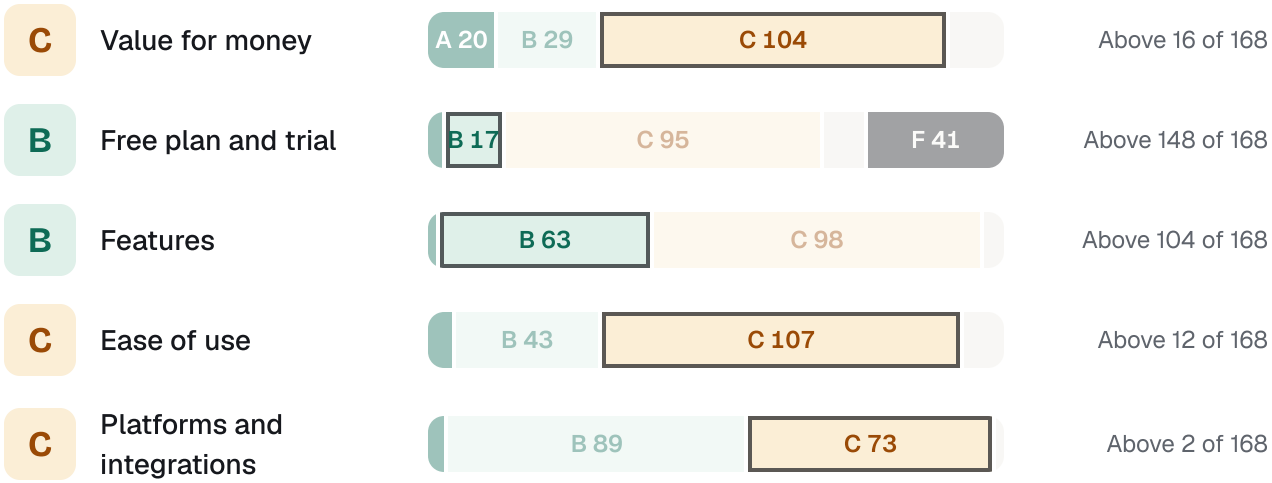

It stands best on free plan and trial (B, above 148 of 168) and worst on platforms and integrations (C, above 2).

Its paid plans start at $24 a month, against a middle price of $11.88 for the category: 104 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 45 tools score higher and cost less.

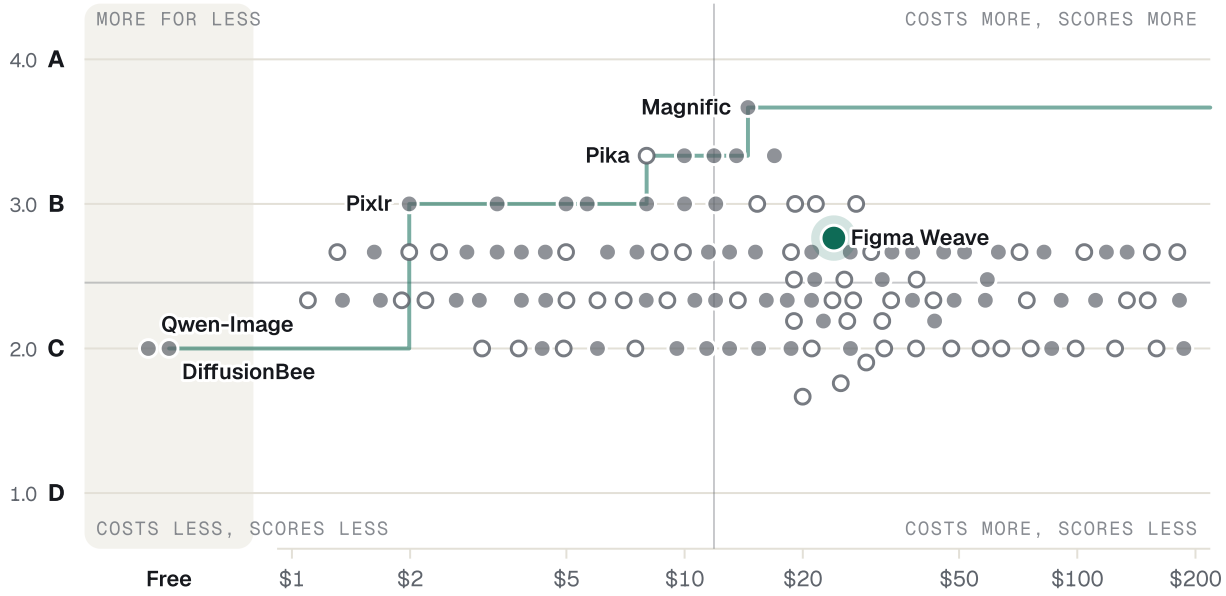

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Figma Weave's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. Figma Weave is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Figma Weave you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

It costs $288 a year.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.

- ✕ Connections to other products, each kept working as those products change.
- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. Figma Weave's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
