Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 9 of the 60 other webinar and live streaming tools we grade

WebinarFuel is a platform for automated (pre-recorded) webinars aimed at marketers and course sellers. Attendees can watch in a browser or in a desktop, iOS or Android app, and the hosts get registration widgets, split tests, reminders by email, SMS and push, and closeout campaigns. A higher plan adds automated challenges and unlimited AI credits.

To get you started, here are **9 things to know about WebinarFuel**, taken from its own pages and our grades.

> "
>
> **You build the webinar, widgets and follow-up sequences yourself.**
>
> From our grade for ease of use

1 **Best for automated webinars with split testing**

WebinarFuel plays automated webinars inside your own pages, with split tests, reminders and chat automations.

2 **Paid plans start at $167 a month**

As its pricing page puts it: $167 per month, billed annually ($197 billed monthly).

3 **You can try it first**

14-day free trial, cancel anytime

4 **It runs on 3 platforms**

Web, iOS and Android.

5 **In-app playback**

Automated webinars can play in a desktop, iOS or Android app as well as in a browser, and traffic can be split between the two to compare results.

6 **Registration widgets and split tests**

Two-step and multi-step registration widgets, and split tests on widgets, schedules, video, price points and call-to-action timing.

7 **Reminders and follow-up**

Notifications by email, SMS and push, filters by behavior or tag, abandoned-registration recovery and AI-written emails.

8 **A 1.8 GPA, above 9 of 60**

That is against the other webinar and live streaming tools we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace WebinarFuel you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for automated webinars with split testing

WebinarFuel plays automated webinars inside your own pages, with split tests, reminders and chat automations. It costs $167 a month on yearly billing, caps the base plan, and has no live broadcasting on the pages read.

TOOLGPA REPORT CARD

WebinarFuel

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	$167 a month billed annually ($197 monthly), at the start of the dearest tenth for webinar tools, which is $167.
Free plan and trial	D	14-day trial, cancel anytime, and no free plan.
Features	C	Playback, registration widgets, split tests and reminders. The pages read describe pre-recorded playback only, and challenges and VIP gating need FuelSuite Pro.
Ease of use	C	No store rating on record. You build the webinar, widgets and follow-up sequences yourself.
Platforms and integrations	B	Web with phone playback and a long integration list: Zapier, ClickFunnels, ActiveCampaign, HubSpot, Mailchimp and more.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who WebinarFuel is for

- ✓ Fits if you run pre-recorded webinars and want to split-test registration pages
- ✓ Works for marketers already on ClickFunnels, HubSpot or ActiveCampaign

Who it is not for

- ✗ Pricey if you are starting out: $197 a month or more, well above most automated webinar tools
- ✗ Tight if you run many sessions: the base plan caps 10 webinars, 30 videos and 1,000 email credits
- ✗ Watch out: unlimited AI credits and automated challenges are on FuelSuite Pro at $208 to $297
- ✗ Not for you if you need live broadcasting

Good to know

Good for

- ✓ Marketers who sell through evergreen webinars and want to split-test every step
- ✓ Course creators and coaches running automated challenges on the FuelSuite plan
- ✓ Teams that want attendees in an app rather than a browser tab

Worth knowing

- ⓘ Priced at $197 a month or more, well above most automated webinar tools.
- ⓘ The base plan caps usage at 10 webinars, 30 videos and 1,000 email credits a month; the page does not say what happens beyond those.
- ⓘ Unlimited AI credits, automated challenges and VIP gating are only on FuelSuite Pro.
- ⓘ Built for automated webinars; the pages read describe pre-recorded playback rather than live broadcasting.

WebinarFuel is made by WebinarFuel.

Where it stands

Its grades against its category, and whether to keep it or make your own

9/60

Other webinar and live streaming tools it is graded above

WebinarFuel's GPA of 1.8 is higher than 9 of the 60 other webinar and live streaming tools we grade, and level with 16.

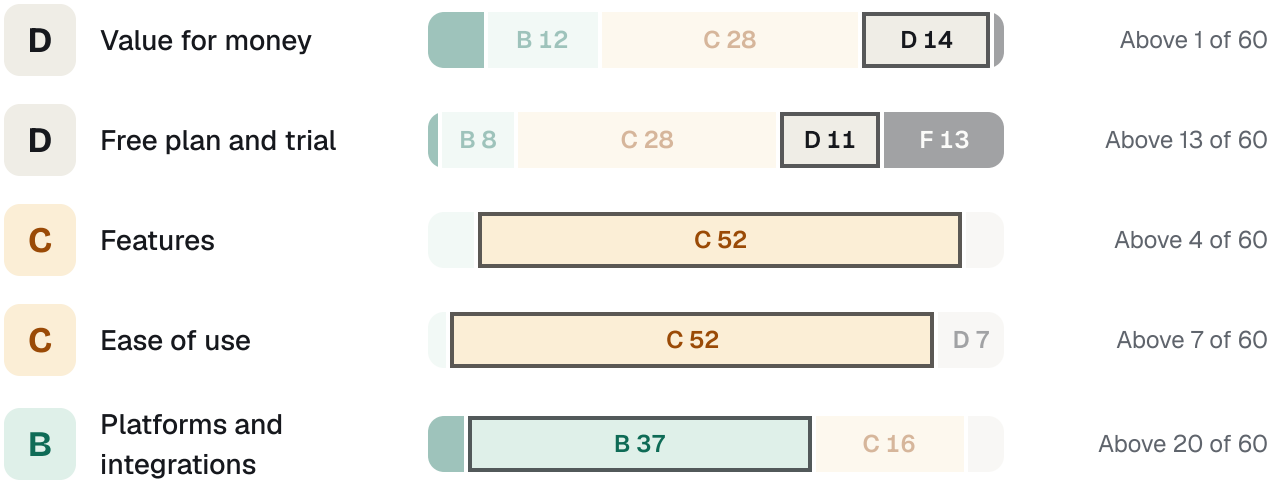

It stands best on platforms and integrations (B, above 20 of 60) and worst on value for money (D, above 1).

Its paid plans start at $167 a month, against a middle price of $47 for the category: 39 of the 45 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 6 tools score higher and cost less.

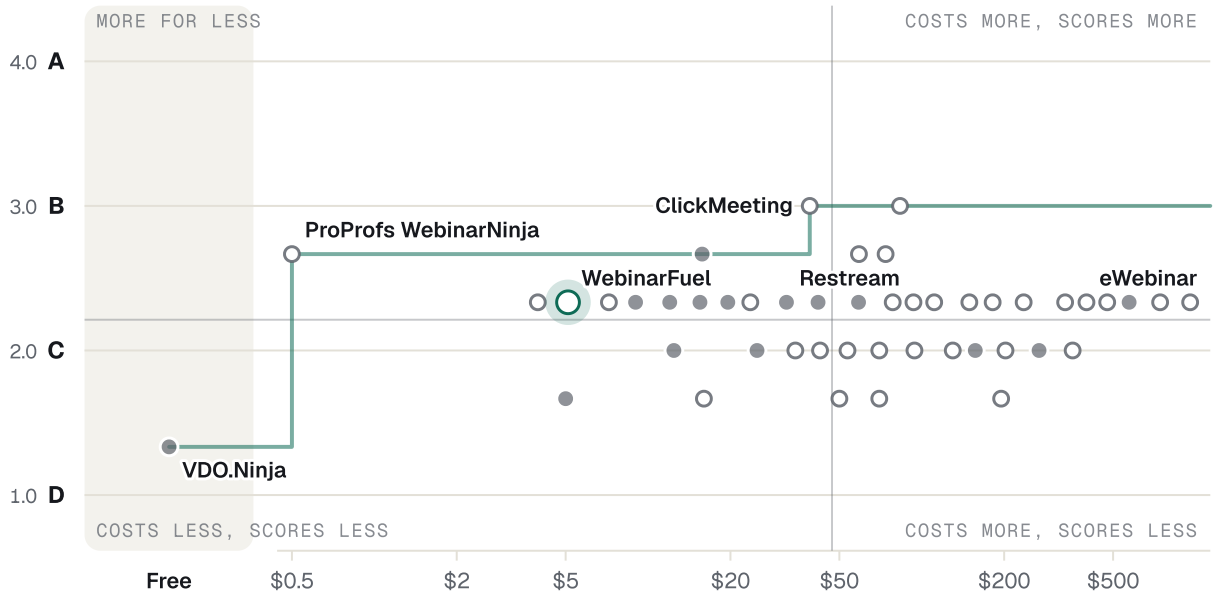

Each grade against the category

Every bar is all 61 webinar and live streaming tools we grade, cut by the letter each got. WebinarFuel's own letter is outlined.

Price against what you get

Each dot is one of 47 webinar and live streaming tools. Further left costs less; higher up scores better on features, ease of use and platforms. WebinarFuel is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace WebinarFuel you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 35 of the 60 other webinar and live streaming tools grade higher. It costs $2,004 a year.

What you could not

- ✕ Live video to hundreds of people at once.
- ✕ Email sent in volume that still reaches the inbox.

- ✕ Splitting visitors between versions and telling you which won.
- ✕ A real app for iOS and Android. Something home-made would be a web page.
- ✕ It plugs into other products, Zapier, ClickFunnels and ActiveCampaign among them, and has an API.
- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ Hooks into the device itself: widgets.

What this rests on. WebinarFuel's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
