07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from WebPT's own pages, its app-store listings and our grades. Every fact in it is on WebPT's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 1 of the 38 other therapy and clinic software we grade

WebPT is a practice platform for physical, occupational and speech-language therapy clinics. It covers documentation, billing, scheduling and intake, patient marketing and reporting, with AI tools for notes and coding guidance. Pricing is quoted per provider and the plans are sold through its sales team.

To get you started, here are **8 things to know about WebPT**, taken from its own pages and our grades.

1 **Best for rehab therapy clinics**

WebPT is an EMR with billing and front-office tools for rehab therapy, with outcomes, AI documentation, marketing and specialty modules.

2 **Paid plans start at $79 a month**

As its pricing page puts it: $79 per provider / month and up.

3 **It runs on Web**

Web.

4 **Documentation and outcomes**

More than 20 note templates across 15-plus specialties, built-in standardized tests, outcomes tracking and a home exercise program with a patient portal.

5 **Rehab-specific billing**

Claim scrubbing, batch billing, rehab modifiers, automated posting and editable 835s, with clearinghouse fees included. Medicare tools include KX modifier tracking and the 8-minute rule.

6 **Front office tools**

Schedule management, automated appointment reminders, custom digital intake, electronic benefits verification, digital faxing and direct secure messaging.

7 **A 1.6 GPA, above 1 of 38**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace WebPT you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE 1.6 GPA, weak	

The report card

Best for rehab therapy clinics

WebPT is an EMR with billing and front-office tools for rehab therapy, with outcomes, AI documentation, marketing and specialty modules. Only a range is published, $79 to $249 a provider a month, and what each tier includes needs a call with sales. No free plan or trial is listed.

TOOLGPA REPORT CARD	WebPT	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	D	$79 to $249 a provider a month, which starts at the dearest tenth of therapy-clinics tools.
Free plan and trial	F	No free plan or trial is listed, and the page asks you to book a demo.
Features	B	Documentation, outcomes, rehab billing, front office, AI notes and modules. It covers the rehab job, but sits poorly outside it.
Ease of use	C	No store rating on record. A rehab EMR takes onboarding.
Platforms and integrations	C	A web service with no integrations or apps listed.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who WebPT is for

- ✓ Fits if you run a physical or occupational therapy clinic
- ✓ Makes sense if you want billing built for rehab

Who it is not for

- ✗ Pricey if you are a small clinic: plans run $79 to $249 per provider a month
- ✗ Not for you if you do mental health or primary care, as it is built for rehab
- ✗ Watch out: tiers and what they include need a call with sales
- ✗ Skip it if you want to try first, as no free plan or trial is listed

Good to know

Good for

- ✓ Physical, occupational and speech therapy clinics billing insurance and Medicare
- ✓ Multi-provider clinics that want charting, billing and marketing from one vendor
- ✓ Practices that want billing handled by the vendor's own team

Worth knowing

- ⓘ Only a price range ($79 to $249 per provider a month) is published; the tiers and what each includes require talking to sales.
- ⓘ It is built for rehab therapy, so a mental health or primary care practice would be using a poor fit.
- ⓘ No free plan or free trial is listed; the pricing page asks visitors to book a demo.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$79

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Rehab therapy EMR, billing and front-office software. Here is what it does, as its own site describes it, and what it covers: AI features, reports, clinical notes, insurance billing, appointment booking.

"

Documentation, outcomes, rehab billing, front office, AI notes and modules.

From our grade for features

Documentation and outcomes

More than 20 note templates across 15-plus specialties, built-in standardized tests, outcomes tracking and a home exercise program with a patient portal.

Rehab-specific billing

Claim scrubbing, batch billing, rehab modifiers, automated posting and editable 835s, with clearinghouse fees included. Medicare tools include KX modifier tracking and the 8-minute rule.

Front office tools

Schedule management, automated appointment reminders, custom digital intake, electronic benefits verification, digital faxing and direct secure messaging.

AI documentation

A voice-to-text scribe, smart templates, CPT coding guidance and an AI chatbot, plus the Aera assistant announced on the homepage.

Marketing and patient engagement

Search engine optimization, review generation, reputation management, custom web pages and automated campaigns for attracting patients.

Specialty modules

Documentation modules for speech-language pathology, pediatrics, feeding, counseling, occupational therapy, vestibular, neuro, ortho and pelvic health.

Where it runs

Web

What it works with

Its own pages name no integrations.

WebPT is made by WebPT, and has been around since 2008.

Where it stands

Its grades against its category, and whether to keep it or make your own

1/38

Other therapy and clinic software it is graded above

WebPT's GPA of 1.6 is higher than 1 of the 38 other therapy and clinic software we grade, and level with 2.

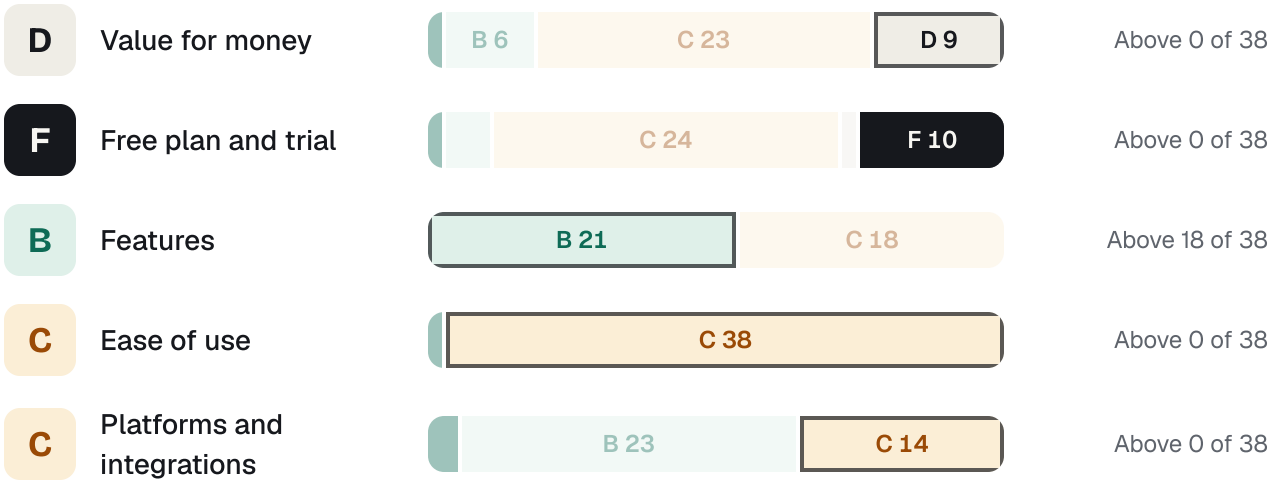

It stands best on features (B, above 18 of 38) and worst on free plan and trial (F, above 0).

Its paid plans start at $79 a month, against a middle price of $39 for the category: 22 of the 26 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 12 tools score higher and cost less.

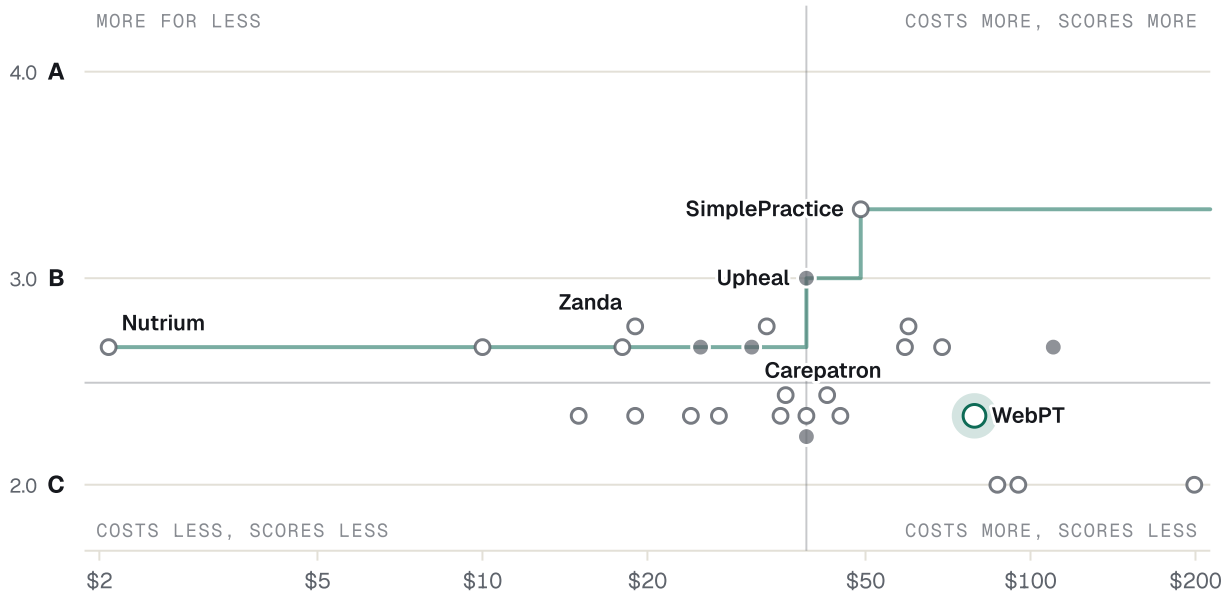

Each grade against the category

Every bar is all 39 therapy and clinic software we grade, cut by the letter each got. WebPT's own letter is outlined.

Price against what you get

Each dot is one of 27 therapy and clinic software. Further left costs less; higher up scores better on features, ease of use and platforms. WebPT is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace WebPT you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 35 of the 38 other therapy and clinic software grade higher. It costs $948 a year.

What you could make

- Clinical notes, appointment booking and reports: an app builder makes these well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. WebPT's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Prompt Health, Physitrack, Jane, Cliniko and ChiroTouch

The 5 tools WebPT is most often weighed against, with where each one differs from it.
