Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 11 of the 72 other inventory management tools we grade

WISK is inventory software for bars, restaurants and hotels. It covers counts with a mobile app and Bluetooth scale, invoice capture, recipe costing and ordering, and connects to POS systems. Venues pick beverage, food or a bundle, and the price follows the number of outlets.

To get you started, here are **8 things to know about WISK**, taken from its own pages and our grades.

> **Counting needs the app and scale, and recipes and POS connections to set up.**
>
> From our grade for ease of use

1 **Best for bar and restaurant stock counts with a scale**

WISK covers counts with a mobile app and Bluetooth scale, invoice capture, recipe costing and ordering for bars, restaurants and hotels.

2 **Paid plans start at $249 a month**

As its pricing page puts it: $249 per location / month, billed annually.

3 **It runs on Web**

Web.

4 **Counts with mobile app and scale**

Inventory counts on the mobile app, with a Bluetooth scale listed in every tier.

5 **AI invoice processing**

Invoices are read automatically. Monthly caps run from 75 on Single Venue to unlimited on Enterprise.

6 **Recipe costing and batch recipes**

Costs recipes, including batch recipes, and raises cost and stock alerts.

7 **A 1.8 GPA, above 11 of 72**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

The plain part of WISK you could make: inventory and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

Best for bar and restaurant stock counts with a scale

WISK covers counts with a mobile app and Bluetooth scale, invoice capture, recipe costing and ordering for bars, restaurants and hotels. Single Venue is $249 a location a month, limited to 1,000 SKUs, 5 users and 75 invoices a month.

TOOLGPA REPORT CARD	WISK	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$249 a month a location on annual billing is above this category's $91 middle price but under its $349 dearer-quarter line. Food and beverage are priced separately.
Free plan and trial	F	No free plan or trial on the pricing page.
Features	C	Counts, AI invoice processing, recipe costing and POS links. Transfers between outlets, the property dashboard and suggested ordering start at the Multi-Outlet tier.
Ease of use	C	Counting needs the app and scale, and recipes and POS connections to set up. No store rating is on record.
Platforms and integrations	B	Web plus a mobile counting app, with Toast, Lightspeed, QuickBooks Online, Clover, Aloha and Agilysys links.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who WISK is for

- ✓ Fits if you run a bar or restaurant and count bottles and stock regularly
- ✓ Works for a hotel with several outlets that wants one property view

Who it is not for

- ✕ Pricey if you track food and beverage, because each is priced separately
- ✕ Tight if you outgrow Single Venue, which lists 1,000 SKUs, 5 users and 75 AI invoices a month
- ✕ Watch out: transfers, the property dashboard and suggested ordering need Multi-Outlet at $499 for 2-3 outlets
- ✕ Watch out: no free plan or trial is shown

Good to know

Good for

- ✓ Bars and cocktail programs that track beverage only
- ✓ Hotels and resorts with several bars and kitchens under one bill
- ✓ Restaurants that want counts, invoices and recipe costs in one tool

Worth knowing

- ⓘ Single Venue lists 1,000 SKUs, 5 users and 75 AI invoices a month; higher tiers raise each limit.
- ⓘ Cross-outlet transfers, the property dashboard and suggested ordering start at the Multi-Outlet tier.
- ⓘ Food, beverage and a bundle are priced separately, so tracking both raises the monthly cost.
- ⓘ Prices on the pricing page are per location, or per property on Multi-Outlet.

Where it stands

Its grades against its category, and whether to keep it or make your own

11/72

Other inventory management tools it is graded above

WISK's GPA of 1.8 is higher than 11 of the 72 other inventory management tools we grade, and level with 16.

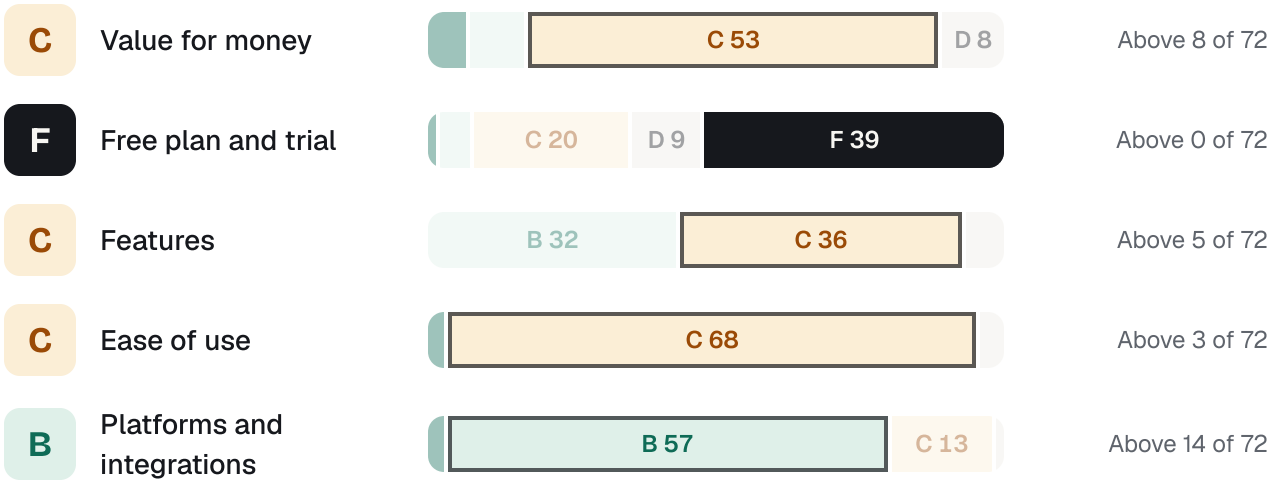

It stands best on platforms and integrations (B, above 14 of 72) and worst on free plan and trial (F, above 0).

Its paid plans start at $249 a month, against a middle price of $91 for the category: 30 of the 42 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 8 tools score higher and cost less.

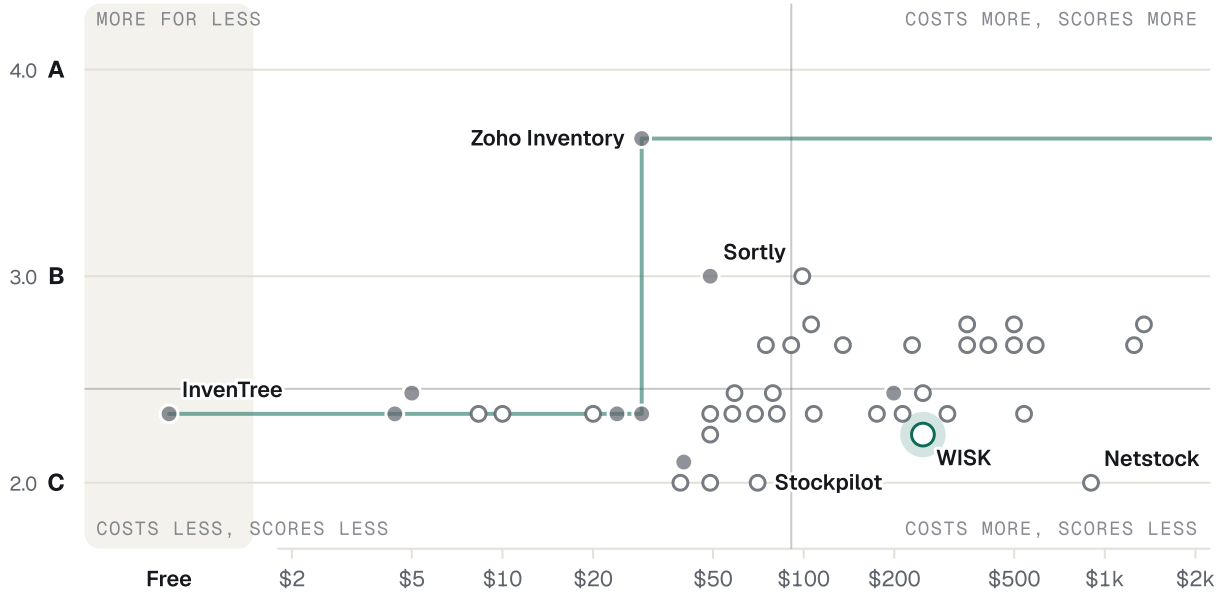

Each grade against the category

Every bar is all 73 inventory management tools we grade, cut by the letter each got. WISK's own letter is outlined.

Price against what you get

Each dot is one of 44 inventory management tools. Further left costs less; higher up scores better on features, ease of use and platforms. WISK is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of WISK you could make: inventory and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 45 of the 72 other inventory management tools grade higher. It costs $2,988 a year.

What you could make

- Inventory and reports: an app builder makes these well.

What you could not

- It plugs into other products, Toast, Lightspeed and QuickBooks Online among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. WISK's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
