Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from WithSecure Elements's own pages, its app-store listings and our grades. Every fact in it is on WithSecure Elements's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 32 of the 56 other antivirus apps we grade

WithSecure Elements is a cloud security platform covering endpoint protection and detection, exposure management, identity security and managed detection and response. It is aimed at mid-sized businesses and MSPs, with annual, monthly or usage-based licensing. Published prices exist only for MSP bundles, in euros.

To get you started, here are **9 things to know about WithSecure Elements**, taken from its own pages and our grades.

1 **Best for endpoint protection sold through MSPs**

WithSecure Elements bundles endpoint protection, ransomware rollback, patching and managed detection and response.

2 **Paid plans start at about $18.88 a month**

As its pricing page puts it: €16.90 per month, MSP recommended retail price (basis not shown).

3 **You can try it first**

30-day free trial, no credit card needed

4 **It runs on 6 platforms**

Web, Windows, macOS, Linux, iOS and Android.

5 **Endpoint security**

Malware and ransomware protection for Mac, Windows and Linux workstations and servers, with EDR and one-click containment.

6 **Ransomware rollback**

Reverses file and registry changes made by a ransomware attack.

7 **Patch management**

Software Updater applies OS and third-party patches for 2,500+ applications.

8 **A 2.4 GPA, above 32 of 56**

That is against the other antivirus apps we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace WithSecure Elements you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for endpoint protection sold through MSPs

WithSecure Elements bundles endpoint protection, ransomware rollback, patching and managed detection and response. The MSP list price is €16.90 a month with no stated unit, and business prices are not published, so you can't tell what a small team would pay.

TOOLGPA REPORT CARD	WithSecure Elements	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	€16.90 a month for the MSP Protect bundle, €20.90 for Proactive, against $4.50 in the middle of what antivirus tools charge. Those are partner list prices and the unit isn't stated, so the real cost is unclear.
Free plan and trial	C	A 30-day trial with no credit card. There's no free plan.
Features	B	Endpoint security, ransomware rollback, patching, mobile protection and managed detection and response, with no gap in the listing for the core job. Network Gateway for mobile is limited to selected countries.
Ease of use	C	No store rating on record, and the listing shows an admin platform plus identity and device connections (Intune, Entra ID, Workspace ONE) to set up first.
Platforms and integrations	A	Web console, Windows, Mac, Linux, iOS and Android, with Intune, Workspace ONE, Google Workspace, Samsung Knox and Entra ID connections.

Grade point average Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who WithSecure Elements is for

- ✓ Fits if you run IT for a few firms or a small company and want protection, patching and detection in one console
- ✓ Works for teams who already manage devices through Intune or Entra ID

Who it is not for

- ✕ Skip it if you want a posted price: business pricing goes through a partner or sales
- ✕ Pricey if you are one person or a household, with MSP bundles at €16.90 and up against a few dollars for ordinary antivirus
- ✕ Watch out: price depends on devices or identities, and the listing doesn't say which basis the €16.90 uses
- ✕ Not for you if you only want a plain virus scanner, as this is a managed security platform

Good to know

Good for

- ✓ MSPs bundling security for small and mid-size clients
- ✓ Mid-sized companies wanting endpoint and exposure tools in one console

Worth knowing

- ⓘ Business prices are not published; the For Business page sends buyers to a partner or sales contact.
- ⓘ The euro MSP prices are recommended retail figures and the page does not state the per-unit basis.
- ⓘ Pricing is based on devices for endpoint bundles and on user identities for identity bundles.
- ⓘ Network Gateway for mobile is available in selected countries only.

PART 02 · PRICING

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

~$18.88

A month to start

WithSecure Elements is a paid product with a free trial, starting at €16.90 per month, MSP recommended retail price (basis not shown).

> **Those are partner list prices and the unit isn't stated, so the real cost is unclear.**

From our grade for value for money

ELEMENTS PROTECT (MSP)

€16.90

per month, MSP RRP; basis not shown

MSP bundle for 24/7 reactive security: protection, detection and response; priced by devices or identities.

ELEMENTS PROACTIVE (MSP)

€20.90

per month, MSP RRP; basis not shown

Adds AI-powered exposure management on top of reactive coverage; priced by devices or identities.

Trying it first

30-day free trial, no credit card needed

PART 03 · FEATURES

What it does

Its main features, where it runs, what it works with and who makes it

6

Places it runs: Web, macOS, Windows, Linux, iOS and Android

Modular endpoint, exposure and MDR platform from WithSecure. Here is what it does, as its own site describes it, and what it covers: AI features, reports, malware protection.

> **Network Gateway for mobile is limited to selected countries.**

From our grade for features

Endpoint security

Malware and ransomware protection for Mac, Windows and Linux workstations and servers, with EDR and one-click containment.

Ransomware rollback

Reverses file and registry changes made by a ransomware attack.

Patch management

Software Updater applies OS and third-party patches for 2,500+ applications.

Mobile protection

Phishing, malware and SMS protection for iOS, Android and ChromeOS.

MDR for endpoints and identities

WithSecure experts monitor 24/7, including Entra ID credential theft and business email compromise.

Where it runs

Web · macOS · Windows · Linux · iOS · Android

What it works with

Microsoft Intune · VMware Workspace ONE · Google Workspace · Miradore · Samsung Knox · Microsoft Entra ID

WithSecure Elements is made by WithSecure.

Where it stands

Its grades against its category, and whether to keep it or make your own

32/56

Other antivirus apps it is graded above

WithSecure Elements's GPA of 2.4 is higher than 32 of the 56 other antivirus apps we grade, and level with 8.

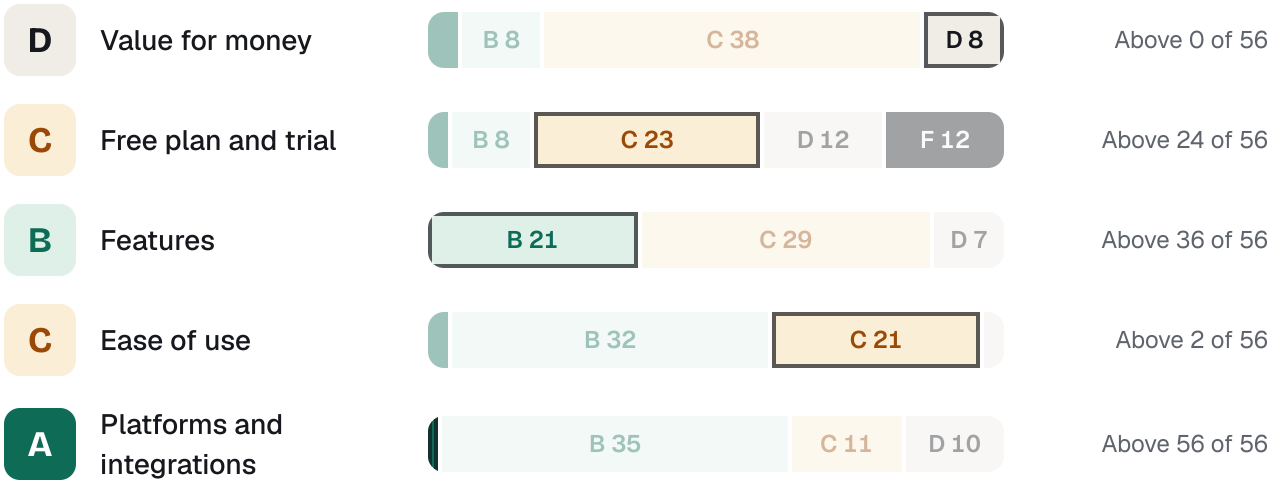

It stands best on platforms and integrations (A, above 56 of 56) and worst on value for money (D, above 0).

Its paid plans start at about $18.88 a month, against a middle price of $4.17 for the category: 34 of the 34 others that charge start lower.

On features, ease of use and platforms it scores 3.0 out of 4. 2 tools score higher and cost less.

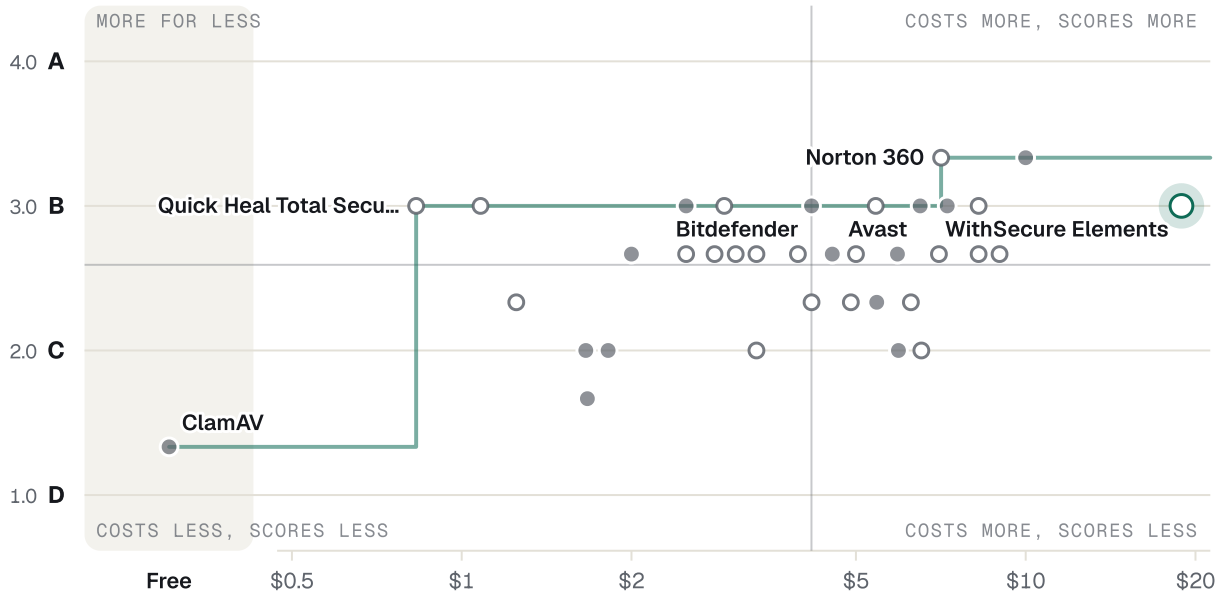

Each grade against the category

Every bar is all 57 antivirus apps we grade, cut by the letter each got. WithSecure Elements's own letter is outlined.

Price against what you get

Each dot is one of 36 antivirus apps. Further left costs less; higher up scores better on features, ease of use and platforms. WithSecure Elements is the marked dot.

What paid plans start at, a month (each step along is roughly double) ⍰

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace WithSecure Elements you would be making an engine that recognises new malware as it appears. That is not a weekend's work, with an AI app builder or without one.

It costs $226.57 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- ✕ An engine that recognises new malware as it appears.

- Apps for macOS, Windows, Linux, iOS and Android that stay in step with each other.
- It plugs into other products, Microsoft Intune, VMware Workspace ONE and Google Workspace among them.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. WithSecure Elements's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

ESET, Sophos Home, Trend Micro and F-Secure

The 4 tools WithSecure Elements is most often weighed against, with where each one differs from it.

ESET

2.6 GPA

Quick answers

The questions people ask about it, each answered in a line or two

11

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is WithSecure Elements free?

No, WithSecure Elements is a paid product, but you can try it first. 30-day free trial, no credit card needed.

How much does WithSecure Elements cost?

WithSecure Elements lists 2 plans. Elements Protect (MSP): €16.90 per month, MSP RRP; basis not shown.

What platforms does WithSecure Elements work on?

WithSecure Elements is available on Web, Windows, macOS, Linux, iOS and Android.

Does WithSecure Elements offer any discounts?

WithSecure Elements publicly lists the following: Purchase through AWS Marketplace.

Is WithSecure Elements open source?

WithSecure Elements is not described as open source on its own site, as read on Nov 13, 2026.

What does WithSecure Elements integrate with?

WithSecure Elements's listing names Microsoft Intune, VMware Workspace ONE, Google Workspace, Miradore, Samsung Knox and Microsoft Entra ID.

Who makes WithSecure Elements?

WithSecure Elements is made by WithSecure.

What are the alternatives to WithSecure Elements?

The closest alternatives to WithSecure Elements in our directory are ESET, Sophos Home, Trend Micro and F-Secure.

How does WithSecure Elements compare with other antivirus apps?

WithSecure Elements's GPA of 2.4 is higher than 32 of the 56 other antivirus apps we grade, and level with 8.

Is WithSecure Elements good value for money?

ToolGPA grades WithSecure Elements D for value for money. Its paid plans start at about $18.88 a month, against a middle price of $4.17 for the category: 34 of the 34 others that charge start lower.

Could I make my own version of WithSecure Elements?

To replace WithSecure Elements you would be making an engine that recognises new malware as it appears.

Where this guide comes from

The prices, plans, platforms and features were read from WithSecure Elements's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from WithSecure's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by WithSecure. Prices change, so check withsecure.com before you buy.
